

requested permit modification and permit issued.

DATES: October 30, 2016–January 31, 2023.

The permit modification was issued on August 17, 2021.

FOR FURTHER INFORMATION CONTACT:

Polly Penhale, ACA Permit Officer, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; 703–292–7420; email: ACAPermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation (NSF), as directed by the Antarctic Conservation Act of 1978 (Public Law 95–541, 45 CFR 670), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection.

NSF issued a permit (ACA 2017–020) to Leidos Innovations Group on October 30, 2016. The issued permit allows the permit holder to import and use commercially available, bacteria supplement for municipal Wastewater Treatment Plants, to be used in the wastewater treatment plant at McMurdo Station, Antarctica. The permit includes mitigation measures to prevent release of bacteria into the Antarctic Environment, including sterilization of all effluent prior to discharge.

Now the permit holder proposes a permit modification to extend the expiration date of the permit until January 31, 2023. The Environmental Officer has reviewed the modification request and has determined that the amendment is not a material change to the permit, and it will have a less than a minor or transitory impact.

Erika N. Davis,

Program Specialist, Office of Polar Programs.

The need and practicality of the collection can be evaluated, but the details of the specific individual collections will not be known until a later time. The Agreement States and non-Agreement States will be asked on a one-time or as needed basis to respond to a specific incident, to gather information on licensing and inspection practices or other technical information, or to provide comments on proposed policy and program updates. The results of such information requests, which are authorized under Section 274(b) of the Atomic Energy Act, will be utilized in part by the NRC in preparing responses to Congressional inquiries. In addition, the information can assist the Commission in its considerations and decisions involving Atomic Energy Act materials programs in an effort to make the national nuclear materials program more uniform and consistent.
