

for a hearing on the application on or before August 8, 2022.

ADDRESSES: The Drug Enforcement Administration requires that all comments be submitted electronically through the Federal eRulemaking Portal, which provides the ability to type short comments directly into the comment field on the web page or attach a file for lengthier comments. Please go to <https://www.regulations.gov> and follow the online instructions at that site for submitting comments. Upon submission of your comment, you will receive a Comment Tracking Number. Please be aware that submitted comments are not instantaneously available for public view on <https://www.regulations.gov>. If you have received a Comment Tracking Number, your comment has been successfully submitted and there is no need to resubmit the same comment.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 1301.33(a), this is notice that on February 2, 2022, Stepan Company, 100 West Hunter Avenue, Maywood, New Jersey 07607–1021, applied to be registered as a bulk manufacturer of the following basic class(es) of controlled substance(s):

Controlled substance	Drug code	Schedule
Cocaine	9041	II
Ecgonine	9180	II

The company plans to bulk manufacture the listed controlled substances for the internal use intermediates or for sale to its customers.

Kristi O'Malley,

Assistant Administrator.

BILLING CODE P

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. DEA–1021]

Bulk Manufacturer of Controlled Substances Application: Pisgah Laboratories Inc.

AGENCY: Drug Enforcement Administration, Justice.

ACTION: Notice of application.

SUMMARY: Pisgah Laboratories Inc. has applied to be registered as a bulk manufacturer of basic class(es) of controlled substance(s). Refer to **SUPPLEMENTARY INFORMATION** listed below for further drug information.

DATES: Registered bulk manufacturers of the affected basic class(es), and applicants therefore, may submit electronic comments on or objections to the issuance of the proposed registration

on or before August 8, 2022. Such persons may also file a written request for a hearing on the application on or before August 8, 2022.

ADDRESSES: The Drug Enforcement Administration requires that all comments be submitted electronically through the Federal eRulemaking Portal, which provides the ability to type short comments directly into the comment field on the web page or attach a file for lengthier comments. Please go to <https://www.regulations.gov> and follow the online instructions at that site for submitting comments. Upon submission of your comment, you will receive a Comment Tracking Number. Please be aware that submitted comments are not instantaneously available for public view on <https://www.regulations.gov>. If you have received a Comment Tracking Number, your comment has been successfully submitted and there is no need to resubmit the same comment.

SUPPLEMENTARY INFORMATION: In accordance with 21 CFR 1301.33(a), this is notice that on March 9, 2022, Pisgah Laboratories Inc., 3222 Old Hendersonville Highway, Pisgah Forest, North Carolina 28768, applied to be registered as a bulk manufacturer of the following basic class(es) of controlled substance(s):

Controlled substance	Drug code	Schedule
4-Bromo-2,5-dimethoxyphenethylamine	7392	I
Methylone (3,4-Methylenedioxy-N-methylcathinone)	7540	I
Difenoxin	9168	I
Diphenoxylate	9170	II
Levorphanol	9220	II
Meperidine	9230	II
Methadone	9250	II
Remifentanyl	9739	II
Tapentadol	9780	II

The company plans to bulk manufacture the above-listed controlled substances in bulk for distribution to its customers. No other activities for these drug codes are authorized for this registration.

Kristi O'Malley,

Assistant Administrator.

BILLING CODE P

DEPARTMENT OF JUSTICE

Notice of Proposed Interim Settlement and Crediting Agreement Under Comprehensive Environmental Response, Compensation and Liability Act

As of May 25, 2022, the United States Fish and Wildlife Service (“USFWS”), on behalf of the Department of the Interior, the National Oceanic and Atmospheric Administration (“NOAA”), on behalf of the Department of Commerce, (collectively, the “Trustees”), the Department of Justice, and potentially responsible party (“PRP”) BASF Corporation (“BASF”) signed a proposed non-judicial Interim Settlement and Crediting Agreement

concerning early natural resource restoration work under the Comprehensive Environmental Response, Compensation, and Liability Act (“CERCLA”), 42 U.S.C. 9601 *et seq.*, for a five-acre property in East Newark, New Jersey. The United States contends BASF and other PRPs are liable for natural resource damages under Section 107(a) of CERCLA, 42 U.S.C. 9607(a), concerning the Diamond Alkali Superfund Site, including Newark Bay and the upstream 17 mile stretch of the Passaic River, and the Berry's Creek Study Area, Bergen County, New Jersey (collectively “the Sites”). The proposed agreement facilitates early natural resource restoration work, and provides for credit for accomplished early restoration work, in advance of the

Trustees' completion of a damage assessment or the filing of legal actions against parties liable under CERCLA at the Sites.

The agreement provides for the completion of natural resource restoration work as described below, in return for a \$73.5 million credit to offset liability for natural resource damages at the Sites. The amount of credit is based on the Trustees' estimate of the cost of undertaking the work themselves. The agreement specifies that the work only partially provides compensation for natural resource damage liability at the Sites, and reserves the Trustees' rights for further recovery against any PRP, including BASF. The proposed location for the restoration work is at the intersection of Clay Street and Passaic Avenue in East Newark, New Jersey. The project includes five acres adjacent to the Passaic River, and includes the transformation of a former manufacturing site of BASF and an adjacent property, into restored naturalized flora and fauna with a hydrological connection to the River. BASF will undertake the design and construction, provide funding for future operation and maintenance, reimburse Trustee oversight costs, and impose a conservation easement and restriction on the property to protect against future development. The work also includes creation of public access to the River.

The publication of this notice opens a period for public comment on the proposed agreement. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *In Re BASF and Trustees Interim Settlement Agreement*, D.J. Ref. No. 90–11–3–07683/14. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

<i>To submit comments:</i>	<i>Send them to:</i>
By email	<i>pubcomment-ees.enrd@usdoj.gov.</i>
By mail	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044–7611.

During the public comment period, the proposed agreement may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>. We will provide a paper copy of the proposed agreement upon written request and payment of reproduction costs. Please mail your request and payment to: Consent Decree and Non-

Judicial Settlement Library, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044–7611.

Please enclose a check or money order for \$9.50, without appendices (25 cents per page reproduction cost), or for \$21.25, with appendices, payable to the United States Treasury.

Susan M. Akers,

Assistant Chief, Environmental Enforcement Section, Environment & Natural Resources Division.

BILLING CODE 4410–15–P

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Main Fan Operation and Inspection (I–A, II–A, III, and V–A Mines)

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Mine Safety and Health Administration (MSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before July 7, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of

automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT:

Nora Hernandez by telephone at 202–693–8633, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION:

Potentially gassy (explosive) conditions underground are largely controlled by the main fans. When accumulations of explosive gases, such as methane, are not swept from the mine by the main fans, they may reasonably be expected to contact an ignition source. The results of such contacts are usually disastrous, and multiple fatalities may be reasonably expected to occur. The standard contains significantly more stringent requirements for main fans in “gassy” mines than for main fans in other mines. Title 30 CFR 57.22204, which only applies to metal and nonmetal underground mines that are categorized as “gassy,” requires main fans to have pressure-recording systems. This standard also requires main fans to be inspected daily while operating if persons are underground and certification made of such inspections by signature and date. Certifications and pressure recordings must be retained for one year and made available to authorized representatives of the Secretary. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on January 26, 2022 (87 FR 4048).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL–MSHA.

Title of Collection: Main Fan Operation and Inspection (I–A, II–A, III, and V–A mines).

OMB Control Number: 1219–0030.

Affected Public: Business or other for-profit.
