OFFICE OF SCIENCE AND TECHNOLOGY POLICY

Request for Information (RFI) on Strengthening Community Health Through Technology

AGENCY: White House Office of Science and Technology Policy (OSTP).

ACTION: Notice of RFI.

SUMMARY: The White House Office of Science and Technology Policy (OSTP)

requests input from community health stakeholders, technology developers, and other interested parties about how digital health technologies are used, or could be used in the future, to transform community health, individual wellness, and health equity. This request is part of an initiative led by OSTP dedicated to Community Connected Health—an effort that will explore and act upon how innovation in science and technology can lower the barriers for all Americans to accessing quality healthcare and lead healthier lives by meeting people where they are in their communities. We are particularly interested in information from community-based health settings and about populations traditionally underserved by healthcare. To support this effort, OSTP seeks information about: Successful models of strengthening community health through digital health technologies within the United States and abroad, barriers to uptake, trends from the COVID–19 pandemic, how user experience is measured, need for tools and training, ideas for potential government action, and effects on health equity.

DATES: Interested persons and organizations are invited to submit comments on or before 5:00 p.m. ET on February 28, 2022.

ADDRESSES: Interested individuals and organizations should submit comments electronically to connectedhealth@ostp.eop.gov and include “Connected Health RFI” in the subject line of the email. While email is preferred, brief voicemail messages may be left at 202–456–3030. Due to time constraints, mailed paper submissions will not be accepted, and electronic submissions received after the deadline cannot be ensured to be incorporated or taken into consideration.

Instructions

Response to this RFI is voluntary. Each responding entity (individual or organization) is requested to submit only one response. OSTP welcomes responses to inform and guide policies and actions related to strengthening community health through digital health technologies. Please feel free to respond to one or as many prompts as you choose. Please be concise with your submissions, which must not exceed 3 pages in 12-point or larger font, with a page number provided on each page. Responses should include the name of the person(s) or organization(s) filing the comment. OSTP invites input from all stakeholders including members of the public, representing all backgrounds

and perspectives. In particular, OSTP is interested in input from community health workers (CHWs) and CHW organizations of all kinds; social workers; maternal health workers; telehealth navigators; peer recovery specialists; healthcare providers (please further specify); faith and community-based organizations; community health centers; State, local, tribal, and territorial governments; academic researchers; technology developers; global partners; health insurance providers; and individuals who have used, or are interested in using, digital health technologies or telehealth services. Please indicate which of these stakeholder type best fits you as a respondent. If a comment is submitted on behalf of an organization, the individual respondent's role in the organization may also be provided on a voluntary basis. Comments containing references, studies, research, and other empirical data that are not widely published should include copies or electronic links of the referenced materials. No business proprietary information, copyrighted information, or personally identifiable information should be submitted in response to this RFI. Please be aware that comments submitted in response to this RFI may be posted on OSTP's website or otherwise released publicly.

In accordance with Federal Acquisition Regulation (FAR) 15.202(3), responses to this notice are not offers and cannot be accepted by the Federal Government to form a binding contract. Additionally, those submitting responses are solely responsible for all expenses associated with response preparation.

FOR FURTHER INFORMATION CONTACT: For additional information, please direct questions to Jacqueline Ward at connectedhealth@ostp.eop.gov or leave by voicemail at 202–456–3030.

SUPPLEMENTARY INFORMATION:

Background: Despite decades of investment in the digital health ecosystem, the COVID–19 pandemic illuminated continuing, substantial limitations in the U.S. healthcare systems, including profound disparities in healthcare and associated poorer health outcomes within certain communities. Yet the pandemic has also provided an opportunity for innovation in healthcare delivery across the U.S. and internationally, particularly in community-based settings. As part of OSTP's mission to maximize the benefits of science and technology to advance health and our charge to drive innovation in healthcare and improve health for *all* Americans, we are seeking
