

provide verbal or written public comment should review instructions at <https://www.hhs.gov/oidp/advisory-committee/blood-tissue-safety-availability/meetings/2020-09-25/index.html> and respond by midnight September 18, 2020 ET. Verbal comments will be limited to three minutes each to accommodate as many speakers as possible.

The ACBTSA provides advice to the Secretary through the Assistant Secretary for Health. The Committee advises on a range of policy issues to include: (1) Identification of public health issues through surveillance of blood and tissue safety issues with national survey and data tools; (2) identification of public health issues that affect availability of blood, blood products, and tissues; (3) broad public health, ethical, and legal issues related to the safety of blood, blood products, and tissues; (4) the impact of various economic factors (e.g., product cost and supply) on safety and availability of blood, blood products, and tissues; (5) risk communications related to blood transfusion and tissue transplantation; and (6) identification of infectious disease transmission issues for blood, organs, blood stem cells and tissues. The Committee has met regularly since its establishment in 1997.

Dated: September 2, 2020.

James J. Berger,

Designated Federal Officer, Advisory Committee on Blood and Tissue Safety and Availability, Office of Infectious Disease and HIV/AIDS Policy.

Draft Environmental Assessment and Habitat Conservation Plan for the Endangered American Burying Beetle; City of Oklahoma City's Second Atoka Pipeline Project, in Six Oklahoma Counties

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for public comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce via a **Federal Register** notice the availability of a draft environmental assessment (dEA) under the National Environmental Policy Act, and habitat conservation plan (HCP) for construction of a public water supply pipeline, the Second Atoka Pipeline Project, in six Oklahoma counties. Under the Endangered Species Act, the City of Oklahoma City and the Oklahoma City Water Utilities Trust (applicants) applied for an incidental take permit (ITP) to cover incidental take of the American burying beetle (ABB) from activities associated with construction of the pipeline project. The applicants have proposed an HCP that would be implemented to address project impacts on the ABB. The dEA evaluates the impacts of, and alternatives to, implementation of the proposed HCP. We seek public comment on the dEA and the requested Service approval of the HCP and ITP.

DATES: To ensure consideration, written comments must be received or postmarked by October 13, 2020. Any comments we receive after the closing date may not be considered in final decisions on the Service's action.
