AGENCY: Forest Service, USDA.

ACTION: Notice of availability of an environmental impact statement.

SUMMARY: The USDA Forest Service, Hoosier National Forest has completed a final environmental impact statement (FEIS) to disclose the environmental consequences of a vegetation restoration project. To request a CD electronically, send a message with your request to r9_hoosier_website@fs.fed.us. If a hard copy is desired instead, use the same contact information.

Appeal Period: The publication date of the legal notice in the newspaper of record (*The Hoosier Times*, published in Bloomington and Bedford, Indiana) is the exclusive means for calculating the period for filing an appeal. An appeal must be filed within 45 days of the date of publication of the legal notice.

Another means of obtaining information is to visit the Forest Web page at www.fs.fed.us/r9/hoosier—click on “Forest Projects”, then “Scoping Package,” and finally “German Ridge Restoration.”

Preferred Alternative

The preferred alternative is to implement the proposed action, which would fulfill the goals and objectives of the *Forest Plan* involving the restoration

of native communities; replace pine plantations with native hardwood communities that include a strong component of oaks, hickories, and other fire-adapted plants; and restore natural vegetative conditions to the barrens within the project area.

To accomplish those goals, the Hoosier National Forest would during the next six or seven years: (1) Use prescribed burning on approximately 2,170 acres, (2) thin approximately 215 acres, (3) implement pine removal on approximately 355 acres, and (4) complete shelterwood harvest on approximately 120 acres. Additional activities would also be pursued to improve wildlife habitat, maintain a recreational trail, and enhance vegetation conditions within the project area.
