SUPPLEMENTARY INFORMATION:

Authority and Purpose: Under Section 301 of Public Law 101-445 (7 U.S.C. 5341, the National Nutrition Monitoring and Related Research Act of 1990, Title III), the Secretaries of HHS and USDA are directed to publish the *Dietary Guidelines* jointly at least every five years. Guidance on the consumption of alcoholic beverages has been included in each edition of the *Dietary Guidelines* since the first edition in 1980. In the process of updating the *Dietary*

Guidelines, HHS and USDA determined the topic of alcoholic beverages and health required a comprehensive review with significant, specific expertise. ICCPUD and NASEM conducted separate, complementary scientific reviews on adult alcohol consumption and health. Each scientific review resulted in a report with findings, not recommendations, on alcohol consumption. HHS and USDA will consider these findings to help inform guidance on alcoholic beverage consumption in the *Dietary Guidelines*.

Public Comments: HHS and USDA request comments on both reports. Specifically, HHS and USDA request comments on considerations for the Departments as they use the reports to inform guidance on alcoholic beverage consumption in the *Dietary Guidelines*. Additionally, ICCPUD will consider public comments on its draft report to ensure the findings in its report are clearly presented and may make adjustments based on public input. Specific questions to consider when commenting on the ICCPUD draft report are available at: <https://www.stopalcoholabuse.gov/research-resources/alcohol-intake-health.aspx>.

Additional Information: Additional information about each scientific review and the resulting reports is available at www.DietaryGuidelines.gov/alcohol/info.

Deputy Assistant Secretary for Health, Office of Disease Prevention and Health Promotion, Office of the Assistant Secretary for Health.

Need and Use of Information

Collection: The purpose of the submitted forms is to enable the continued operation of normal NIH Division of Police functions. The first form is for collecting statements and affidavits relating to incidents on campus, *i.e.*, chronology of events, perspectives, etc. from witnessing parties. The second form is a police warning issued on campus by officers, to be signed by the person warned for different infractions, and potentially a recognition they are banned from campus. The third form is an authorization for release of information given out to potential hires with the NIH Division of Police, so that suitability for hiring can be determined with a normal background check. The fourth, fifth, and sixth forms are for collecting application information for extended visitor access on campus, for patients, non-patient professionals (such as researchers or those conducting business), and non-patient non-professionals (such as patient visitors) respectively who have a need to more easily access campus for some period of time. These three forms allow an alternative to acquiring temporary access badges repeatedly.
