39 CFR Part 111

Domestic Competitive Products Pricing and Mailing Standards Changes

AGENCY: Postal Service™.

ACTION: Final rule.

SUMMARY: The Postal Service is revising *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®), to reflect changes to prices and mailing standards for the following competitive products: Express Mail®, Priority Mail®, First-Class Package Service™, Parcel Select®, Parcel Post®, Extra Services, Return Services, Mailer Services, and Recipient Services.

DATES: *Effective Date:* January 27, 2013.

FOR FURTHER INFORMATION CONTACT:

Margaret Choiniere (202) 268-7231 or Garry Rodriguez (202) 268-7281.

SUPPLEMENTARY INFORMATION: This final rule describes new prices and product features for competitive products, by class of mail, established by the Governors of the United States Postal Service®. New prices are available under Docket Number CP2013-3 on the Postal Regulatory Commission's (PRC) Web site at <http://www.prc.gov>, and are also located on the Postal Explorer® Web site at <http://pe.usps.com>.

Competitive product prices and changes are identified by product as follows:

Express Mail

Prices

Overall, Express Mail prices will increase 5.9 percent. Express Mail will continue to offer zoned Retail, Commercial Base™ and Commercial Plus™ pricing tiers.

Retail prices will increase an average of 6.5 percent. The price for the Retail Flat Rate Envelope, Legal Flat Rate Envelope, and the recently-introduced Padded Flat Rate Envelope is increasing to \$19.95. The Flat Rate Box price will remain at \$39.95.

The existing Commercial Base prices offer lower prices to customers who use online and other authorized postage payment methods. Commercial Base prices will increase 2.0 percent.

The existing Commercial Plus price category offers price incentives to large volume customers. Commercial Plus prices will increase 1.0 percent.

Priority Mail

Prices

Overall, Priority Mail prices will increase 6.3 percent. The price increase varies by price cell and price tier.

Retail prices will increase an average of 9.0 percent, but Retail Priority Mail will now include USPS® tracking and confirmation of delivery at no additional charge, offsetting about 3 percent of the increase. The regular Flat Rate envelope will be priced at \$5.60, with the Legal Flat Rate Envelope priced at \$5.75 and Padded Flat Rate Envelope priced at \$5.95. Flat Rate Box prices will be: Small, \$5.80; Medium, \$12.35; Large, \$16.85 and Large APO/FPO, \$14.85.

Commercial Base prices offer lower prices to customers who use online and other authorized postage payment methods. Commercial Base prices will increase an average of 3.7 percent. Commercial Base pricing will offer an average 11.3 percent discount off retail prices.

Commercial Plus price category offers attractive price incentives to large volume customers. Commercial Plus prices will increase an average of 3.8 percent. Commercial Plus pricing will offer an average 16.2 percent discount off retail prices.

Critical Mail

Critical Mail® letters and flats are enhanced with a new option, signature upon delivery, as part of the service offering. The Critical Mail letter with signature option is priced at \$4.60; the Critical Mail flat with signature option is priced at \$5.35.

Critical Mail Returns

The Postal Service is providing a new option within the suite of USPS Returns Services to include Critical Mail pieces. This new product will afford customers the ability to expedite their returns by using barcoded USPS Critical Mail (letters and flats).

First-Class Package Service

Prices

Overall, First-Class Package Service prices will increase 3.0 percent. The Intelligent Mail® package barcode (IMpb) will continue to provide free USPS tracking and confirmation of delivery with these parcels.

New Payment Method for First-Class Package Service Commercial Plus

The Postal Service is revising the DMM to add PC Postage endicia as a new payment method for First-Class Package Service Commercial Plus parcels.

Surcharges for First-Class Package Service Parcels

First-Class Package Service mailers are currently assessed a \$0.05 per piece surcharge for parcels weighing less than 2 ounces, parcels that are irregularly shaped (such as rolls, tubes or triangles), or parcels that lack a unique tracking barcode (previously a Postal routing barcode). These surcharges relate to additional handling required in Postal Service processing in order to work these pieces. As a result, the surcharge was not assessed for First-Class Package Service parcels presented in 5-digit/scheme containers.

The Postal Service is eliminating the surcharge for First-Class Package Service parcels under 2 ounces since the new prices will reflect that these pieces are generally nonmachinable. The Postal Service will retain a surcharge for First-Class Package Service parcels that are irregularly shaped, but will also retain the prior exclusion for parcels that are presented in 5-digit/scheme containers.

The standards implementing Intelligent Mail package barcodes (IMpb) requires an IMpb on First-Class Package Service parcels claiming presort pricing, effective January 7, 2013 (extended to January 27, 2013). Therefore the surcharge for parcels not bearing a barcode is no longer applicable for First-Class Package Service parcels claiming 5-digit, 3-digit or area distribution center (ADC) prices. The Postal Service will retain the surcharge for First-Class Package Service parcels claiming mixed ADC/single-piece prices that do not have a barcode. This surcharge and the surcharge for irregularly shaped First-Class Package Service parcels will increase to \$0.08 per piece.

Parcel Select

Prices

On average, Parcel Select prices will increase 9.0 percent.

The average price increase for Parcel Select Destination Entry destination delivery unit (DDU) is 8.0 percent, for destination sectional center facility (DSCF) 4.9 percent, and for destination network distribution center (DNDC) 4.8 percent.

The prices for Parcel Select NDC (network distribution center) and ONDC (origin network distribution center) presorted parcels are increasing 5.7 and 4.3 percent respectively. The prices for Parcel Select Nonpresort parcels are increasing 4.2 percent.

The prices for Parcel Select Lightweight™ (PSLW) will increase 9.8 percent. The IMpb will continue to provide free USPS tracking and confirmation of delivery with PSLW as well.

Parcel Select Regional Ground

The Postal Service has decided to discontinue Parcel Select Regional Ground™ service due to inadequate usage.

Parcel Post

On July 20, 2012, in Docket No. MC2012–13, the PRC gave conditional approval for Parcel Post to be transferred to the competitive product list. The three conditions outlined in the docket have been met. Parcel Post is now a competitive product and pending review by the PRC the product will be renamed “Standard Post™”. A global change will be made to the DMM for the January 27, 2013, update.

As a result of the transfer of Parcel Post to a competitive product, it will no longer be included under the list of products that comprise Package Services. Parcel Post will only be offered through retail channels, and will include USPS tracking and confirmation of delivery at no additional charge. Customers will now be able to access processing and delivery scans for their parcels online at USPS.com®.

Extra Services

Adult Signature Service

Adult Signature Service prices are increasing. The price for Adult Signature Required is \$4.95 and Adult Signature Restricted Delivery is \$5.15.

New Delivery Confirmation Label

In response to the structural changes being made to Delivery Confirmation extra service labels, the Postal Service will replace the current Label 314, *electronic Delivery Confirmation*, with a new Label 400, *USPS Tracking*. Label 400 will include an Intelligent Mail package barcode and will be provided for use by electronic option mailers. These labels may also be affixed to retail

mailpieces by USPS retail associates when an applicable mailpiece is presented at a retail location without postage validation imprint (PVI) capability.

Return Services

Parcel Return Service

Parcel Return Service (PRS) prices will have an overall price increase of 4.8 percent. Return Network Distribution Center (RNDC) prices will have a 1.0 percent increase; Return Sectional Center Facility (RSCF) prices will increase less than 1.0 percent, and Return Delivery Unit (RDU) prices will increase 8.5 percent.

The Parcel Return Service annual permit fee and annual account maintenance fee are increasing. Information on fees can be found in the Domestic Mailing Services **Federal Register** Notice.

Nonstandard PRS Labels

PRS participants are required to use labels that meet the specific criteria described in the DMM. To allow for the consistent capture and staging of PRS mailpieces at their intended pick-up points, the Postal Service has constructed a rigorous precertification process to assure PRS labels meet these established criteria.

The Postal Service has recently become aware of incidents where PRS permit holders have used noncompliant labels, resulting in PRS parcels being routed to the address on mailpiece, instead of the intended pick-up point. In addition, some PRS permit holders have requested exceptions for the use of noncompliant dual-purpose labels that have also resulted in the misdirection of PRS mailpieces to the address on the label. Currently, the Postal Service does not have a pricing mechanism to account for these instances where additional handling has occurred due to a mailer's noncompliant label.

As a result, the Postal Service will now specify when noncompliant labels are affixed to PRS parcels, which travel through the postal network to the delivery address on the label, the permit holder will be charged postage at the appropriate Parcel Post price, calculated from the parcel's entry point in the USPS network to its delivery address. If the parcel's entry point can not be determined, then postage will be calculated at Zone 4.

Parcel Return Service—Full Network

The Postal Service is introducing a new option for mailers receiving large quantities of return parcels, Parcel Return Service—Full Network (PRS—

Full Network). Mailers with an annual volume of 50,000 or more return parcels, and who desire a full-network option from the USPS may enroll in PRS—Full Network.

PRS—Full Network provides a new returns option for mailers to receive return parcels entered by their customers anywhere within the Postal Service's network. PRS—Full Network features full network pricing, encompassing all eight USPS zones. To expedite delivery, PRS—Full Network will generally bypass the mailer's local delivery unit and will provide delivery of return parcels directly from the processing facility/sectional center facility (SCF) servicing the location of the mailer's designated return site.

PRS—Full Network participants will be required to pay postage through the scan based payment (SBP) program as specified in the DMM, and must obtain a Centralized Account Payment System (CAPS) debit account (instructions for enrollment are provided on the RIBBS Web site at <http://ribbs.usps.gov>). Participants will also be required to pay an annual Parcel Return Service (PRS) fee and an annual PRS account maintenance fee.

Each PRS—Full Network mailpiece must bear an Intelligent Mail package barcode that includes the appropriate service type code (STC), and a selection of STCs have been developed for use with PRS—Full Network mailpieces. Detailed specifications are defined in Publication 91, *Confirmation Services Technical Guide*.

The addition of PRS—Full Network to the USPS product line provides an alternative to the current first-mile option available through its regular PRS returns network, and a full network solution for those mailers who are unable to pick-up their returns at the locations specified in conventional PRS agreements.

This revision also incorporates clarifying language in the DMM under Scan Based Payment, providing that participants must pay postage through a Centralized Account Payment System (CAPS) debit account. This requirement has been a condition for the use of Scan Based Payment since its inception.

Mailer Services

Premium Forwarding Service

The enrollment fee for Premium Forwarding Service® (PFS®) will not increase, remaining at \$15.00. The price of the weekly reshipment charge will increase from \$15.25 to \$17.00.

USPS Package Intercept

The USPS Package Intercept™ fee will not change for January 2013.

Pickup on Demand

The Pickup on Demand® service daily fee will increase from \$15.30 to \$20.00.

The Postal Service is revising the DMM to include Pickup on Demand enhancements that automate the payment method for all package pickup services, and also adds an option for requesting recurring pickups through the online package pickup program at www.usps.com.

Additionally, the Postal Service is revising the DMM to rename "Carrier Pickup" (a pickup that occurs as part of a regularly scheduled delivery or collection stop) as Package Pickup.

Recipient Services

Post Office Box Service

The competitive Post Office Box™ service prices will increase an average of 2.6 percent within the existing price ranges previously set.

Other

New for January 2013, customers can order flat rate packaging supplies online in smaller quantities than currently provided and will be able to pay a fee to get supplies delivered faster than the current free service provided. The new expedited service fee is priced at \$2.50.

Resources

The Postal Service provides additional resources to assist customers with this price change for Shipping Services. These tools include price lists, downloadable price files, and **Federal Register** Notices, which may be found on the Postal Explorer Web site at pe.usps.com.

The Postal Service adopts the following changes to *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM)*, incorporated by reference in the *Code of Federal Regulations*. See 39 CFR 111.1.

[Add new 5.3.5 as follows:]

5.3.5 Noncompliant Labels

PRS permit holders must use USPS-certified labels meeting the standards in 5.4. When noncompliant labels are affixed to PRS parcels, which travel through the Postal network to the delivery address of the label, the permit holder will be assessed the appropriate Parcel Post price, calculated from the parcel's entry point in the USPS network to its delivery address. If the parcel's entry point can not be determined, then postage will be calculated at zone 4.

* * * * *

[Re-number 6.0 as 7.0. Add new 6.0 as follows:]

6.0 Parcel Return Service—Full Network

6.1 Description

Parcel Return Service—Full Network (PRS—Full Network) provides for the bulk delivery of parcels to authorized

permit holders or their agents. Permit holders must guarantee payment of postage for all parcels mailed with a PRS—Full Network label. By providing an approved PRS—Full Network label to its customers, the merchant or other party designates the permit holder identified on the label as their agent for receipt of mail bearing that label, and authorizes the USPS to deliver that mail to the permit holder or its designee. Payment for parcels returned under PRS—Full Network is deducted from a separate advance deposit (postage-due) account funded through the Centralized Account Processing System (CAPS) debit account as provided in 705.25, Scan Based Payment.

6.1.2 Conditions for Mailing

Parcels may be mailed as PRS—Full Network when all of the following conditions apply:

a. Parcels contain only matter that is eligible as Parcel Post, as described in 153.3.0 and 153.4.0.

b. Parcels bear a PRS—Full Network label that meets the standards in 6.4.

c. The permit holder has paid the annual PRS permit fee and the annual PRS account maintenance fee.

d. Permit holders must participate in the scan based payment (SBP) program under 705.25.0.

e. Permit holders must demonstrate an annual volume of at least 50,000 qualifying parcels to each location.

f. Each mailpiece must bear an accurate Intelligent Mail package barcode prepared under 708.5.0.

6.1.3 Services

Pieces using PRS—Full Network may not bear an ancillary service endorsement (see 102.4.0 and 507.1.5).

6.1.4 Customer Mailing Options

Returned parcels may be deposited as follows:

a. At any Post Office, station, or branch.

b. In any collection box (except an Express Mail box).

c. With any letter carrier.

d. As part of a collection run for other mail (special arrangements may be required).

e. At any place designated by the postmaster for the receipt of mail.

6.1.5 Application

Companies who wish to participate in PRS—Full Network must send a request on company letterhead to the manager, Business Mailer Support (see 608.8.0 for address). The request must contain the following information:

a. Company name and address.

b. An individual's contact name, telephone number, fax number, and email address.

c. The proposed delivery locations requested.

6.1.6 Approval

The manager, Business Mailer Support reviews each request and proceeds as follows:

a. If the applicant meets the criteria, the manager, Business Mailer Support approves the letter of request and sends an authorization letter outlining the terms and conditions for the program.

b. If the application does not meet the criteria, the manager, Business Mailer Support denies the request and sends a written notice to the applicant with the reason for denial.

6.1.7 Cancellation

The USPS may cancel a PRS—Full Network permit for any of the following reasons:

a. The permit holder fails to provide for adequate facilities to permit the delivery of PRS—Full Network mailpieces in bulk.

b. The permit holder fails to meet the terms of their SBP authorization or CAPS account agreement.

c. The permit holder does not fulfill the terms and conditions of the PRS—Full Network permit authorization.

d. The return labels do not conform to the specifications in 6.4.

6.1.8 Reapplying After Cancellation

To receive a new PRS—Full Network permit after cancellation under 6.1.7 the mailer must:

a. Submit a letter to the manager, Business Mailer Support requesting a permit and a new agreement.

b. Pay a new permit fee.

c. Provide evidence showing that the reasons for cancellation no longer exist.

d. Maintain adequate available funds to cover the expected number of returns.

6.1.9 Delivery Schedule and Location

Permit holders or their agents will receive parcels on a regular schedule from designated Postal facilities. Permit holders must provide an adequate location, appropriate to the volume of parcels received, for which to receive delivery of their PRS—Full Network mailpieces. When volume dictates, permit holders may be required to provide a delivery location with a dock or lift, and the ability to accept pallets or other USPS mail transport equipment.

6.2 Postage and Fees

6.2.1 Postage

Postage for PRS—Full Network includes prices for any machinable and

non-machinable parcels. See Notice 123—Price List.

6.2.2 Fees

The participant must pay an annual PRS permit fee and an annual PRS account maintenance fee at each location where a PRS—Full Network permit is held. See Notice 123—Price List for applicable fee.

6.3 Prices

6.3.1 PRS—Full Network Prices

PRS—Full Network prices are zone-based, beginning from where the article entered the postal network to its designated delivery location.

6.3.2 Balloon and Oversized Prices

Parcels weighing less than 20 pounds but measuring more than 84 inches in combined length and girth are charged the applicable price for a 20-pound parcel (balloon price). Regardless of weight, any parcel that measures more than 108 inches (but not more than 130 inches) in combined length and girth must pay the oversized price.

6.4 Label Formats

6.4.1 Label Preparation

PRS—Full Network labels must be certified by the USPS for use prior to distribution as defined in the service agreement. Labels must be prepared in accordance with the standards for Intelligent Mail package barcodes under 708.5.0. Any photographic, mechanical, or electronic process or any combination of these processes may be used to produce PRS—Full Network labels. The background of the label may be any light color that allows the address, barcodes, and other required information to be easily distinguished. If labels are electronically transmitted to customers for their local printing, the permit holder must advise customers of these printing requirements as part of the instructions in 6.4.3.

6.4.2 Labeling Methods

If all applicable contents and formats are approved (including instructions to the user), permit holders or their agents may distribute a PRS—Full Network label by any of the following methods:

a. As an enclosure with merchandise when initially shipped as part of the original invoice accompanying the merchandise, or as a separate label preprinted by the permit holder. If the reverse side of the label bears an adhesive, it must be strong enough to bond the label securely to the mailpiece.

b. As an electronic file created by the permit holder for local printing by the customer.

6.4.3 Instructions

Regardless of label distribution method, permit holders or their agents must always provide written instructions to the PRS—Full Network label end-user that, at a minimum, directs them as follows:

a. If your name and address are not already printed in the return address area, please print them neatly in that area or attach a return address label there.

b. Attach the label provided by the merchant squarely onto the largest side of the mailpiece, centered when possible. Place the label at least 1 inch from the edge of the parcel, so that it does not fold over to another side. If you are using tape to attach the new label, do not put tape over any barcodes on the label, even if the tape is clear.

c. If you are reusing the original container to return the merchandise, use the label to cover your original delivery address, barcodes, and any other postal information on the container. If it is not possible to cover all that information with the label, remove the old labels, mark them out completely with a permanent marker, or cover them completely with blank labels or paper that cannot be seen through. If that cannot be done, or if the original container is no longer sound, please use a new container to return the merchandise and attach the return label to the new container.

d. Once repackaged and labeled, mail the parcel at a Post Office, deposit it in a collection box, or leave it with your letter carrier.

6.4.4 Label Format Elements

PRS—Full Network standard label sizes are 3 inches by 6 inches, 4 inches by 4 inches, or 4 inches by 6 inches. All other label sizes require written approval from the National Customer Support Center (NCSC). The label must accommodate all required elements and must be prepared according to standards in this section and in 708.5.1. All PRS—Full Network label elements must be legible including the required Intelligent Mail package barcode (IMpb). Except where a specific type size is required, elements must be large enough to be legible from a normal reading distance and be separate from other elements on the label (see Exhibit 6.4.4). The following elements, in addition to the standards in 708.5.1, are required:

a. *Product Marking*. All PRS—Full Network mailpieces will bear "Ground Return Service" product marking as illustrated in Exhibit 6.4.4.

b. *Customer's return address*. The return address of the customer using the

label to mail the parcel back to the permit holder must appear in the upper left corner. If it is not preprinted by the permit holder or merchant, space must be provided for the customer to enter the return address.

c. Address for PRS—Full Network labels. The address must consist of three or four lines in all capital letters, as specified below. The ZIP Code must be printed in at least 12-point type.

- 1. Line 1: PRS PERMIT HOLDER'S/ AGENT'S OR MERCHANT'S NAME.
- 2. Line 2: ATTENTION: RETURNS.
- 3. Line 3: The complete address and ZIP Code of the PRS Permit Holder/ Agent or Merchant's delivery location, or unique Postal ZIP Code if assigned by the USPS in the service agreement.

7.1 General Standards

7.1.1 Determining Single-Piece Weight for Retail and Commercial Mail

[Revise the text of 7.1.1 as follows:]

To determine single-piece weight in any mailing at single-piece prices, in a bulk mailing at Media Mail, or Library Mail prices, or in any bulk price mailing of nonidentical-weight pieces, weigh each piece individually. To determine

single-piece weight in any other bulk or presort price mailing, weigh a sample group of at least 10 randomly selected pieces and divide the total sample weight by the number of pieces in the sample. Express all single-piece weights in decimal pounds rounded off to two decimal places for the following mailpieces: Express Mail, Priority Mail (except Critical Mail), Parcel Select, Bound Printed Matter, Media Mail, and Library Mail prices. Mailers using eVS may round off to two or four decimals, because eVS automatically rounds to the appropriate decimal place. For all other mailpieces, express all single-piece weights in decimal pounds rounded off to four decimal places.
