

session is for the GMT to prepare for 2021 Pacific Council meetings. Specific agenda items will include: a detailed review of 2021/2022 harvest specifications and management measure process, planning for the 2023/2024 harvest specifications and management measure process, stock assessment and review planning, and GMT chair/vice chair elections. The GMT may also address groundfish management actions the Pacific Council has indicated on their year-at-a-glance calendar, such as: mothership utilization, non-trawl rockfish conservation area management changes, and sablefish gear switching. A detailed agenda will be available on the Pacific Council's website prior to the meeting.

Although nonemergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.
