

included in the annual repricing **Federal Register** notice, provides the relevant information for the public to evaluate the Federal Reserve's performance under the MCA. The information provided in the quarterly pro formas, therefore, are of little value to parties interested in priced-services financial results because they do not provide a relevant long-term cost-recovery assessment.

Accordingly, the Board proposes to discontinue the quarterly publication of the pro formas. The Board will continue to publish, however, the annual pro formas in the *Annual Report* and the additional cost-recovery information included in the annual repricing **Federal Register** notice. The latest publication of the quarterly pro formas may be found in the February 2001 issue of the *Federal Reserve Bulletin*. The public may order the document online from the Board's web site at <http://www.federalreserve.gov/pubs/bulletin/default.htm>.

The Board requests comments on whether there are benefits to continuing the publication of the quarterly pro formas and, if so, what elements of the current pro formas provide the most relevant information.

By order of the Board of Governors of the Federal Reserve System, March 22, 2001.

Robert deV. Frierson,

Associate Secretary of the Board.
