

system, and protect investors and the public interest.¹⁶ The Commission believes that an extension of the pilot program for an additional six months should help the Exchange to prepare for disseminating options quotes with size. In addition, the Commission believes that the proposal may assist specialists in maintaining fair and orderly markets during periods of peak market activity.

The Commission notes that the Exchange is attempting to address its concern regarding the feasibility of re-engaging AUTO-X for a particular issue prior to thirty seconds if the quote has been revised by the specialist before that time period. Consequently, the Commission believes that extending the pilot program for an additional six months should enable the Phlx to further evaluate the effect of disengaging AUTO-X under certain circumstances.

The Commission notes that the Exchange has represented that it will continue to evaluate the pilot program by reviewing specialists' performance, and by monitoring any complaints relating to the pilot program.¹⁷ Furthermore, the Commission notes that the Exchange has represented that it will continue to post on its website a list of options included in the pilot program, as well as issue a circular to this effect to members, member organizations, participants, and participant organizations explaining the pilot program and the circumstances in which the AUTO-X system will not be available for customer orders.¹⁸

Accordingly, the Commission finds good cause, pursuant to Section 19(b)(2) of the Act,¹⁹ for approving the proposed rule change prior to the thirtieth day after the date of publication of notice thereof in the **Federal Register**. The Commission recognizes that during the last six-month extension of the pilot program, the Phlx has received no complaints from customers, floor traders, or member firms. The Commission believes that granting accelerated approval to extend the pilot program for an additional six months will allow Phlx to continue, without interruption, the existing operation of its AUTO-X system.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,²⁰ that the proposed rule change (SR-Phlx-2002-22), is hereby approved on an accelerated basis, as a six-month pilot, scheduled to expire on November 30, 2002.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.²¹

J. Lynn Taylor,

Assistant Secretary.
