

Management Center, 299 South Main Street, Suite 200, Salt Lake City, Utah. Many of these documents are also available on WAPA's website at <https://www.wapa.gov/regions/CRSP/rates/Pages/rate-order-177.aspx>.

Ratemaking Procedure Requirements

Environmental Compliance

In compliance with the National Environmental Policy Act (NEPA) of 1969, 42 U.S.C. 4321–4347; the Council on Environmental Quality Regulations for implementing NEPA (40 CFR parts 1500–1508); and DOE NEPA Implementing Procedures and Guidelines (10 CFR part 2021), WAPA adopted the EA and FONSI prepared by the Central Utah Water District for the Olmsted Powerplant Replacement Project. In addition, WAPA has determined that the marketing of Olmsted power and the establishment of power rates for the marketing of that power are Federal actions that are categorically excluded from the preparation of an EA or an environmental impact statement. A copy of the categorical exclusion determination is available on WAPA's website at <https://www.wapa.gov/regions/RM/environment/Pages/CX2017.aspx>.

Determination Under Executive Order 12866

WAPA has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no review of this Notice by the Office of Management and Budget is required.

Submission to the Federal Energy Regulatory Commission

The Provisional Formula Rates herein confirmed, approved, and placed into effect on an interim basis, together with supporting documents, will be submitted to FERC for confirmation and final approval.

Order

In view of the foregoing and under the authority delegated to me, I confirm and approve on an interim basis, effective the first full billing period on or after June 6, 2018, Rate Schedule F–1 for the Olmsted Powerplant Replacement Project of the Western Area Power Administration. This rate schedule shall remain in effect on an interim basis, pending the Federal Energy Regulatory Commission's confirmation and approval of it, or substitute rate, on a final basis through May 6, 2023, or until superseded.

Dated: April 30, 2018.
Dan Brouillette,

Deputy Secretary of Energy.

United States Department of Energy Western Area Power Administration

Colorado River Storage Project Management Center Olmsted Powerplant Replacement Project

Electric Power Service, (Approved Under Rate Order No. WAPA–177)

Effective

The first day of the first, full billing period beginning on or after June 6, 2018, and extending through May 6, 2023, or until superseded by another rate schedule, whichever occurs earlier.

Available

Within the marketing area served by the Colorado River Storage Project; parts of Northern Utah.

Applicable

To the sale of total plant generation to all customers with an Olmsted allocation.

Character

Alternating current, 60 hertz, three-phase, delivered and metered at the voltages and points established by contract.

Formula Rate

Annual Revenue Requirement = Projected OM&R Costs + Projected Interest + Projected Principal Payments ± True-Up Adjustment.

Adjustments

True-Up Adjustment: The surplus or deficit that occurred in the last historic year when actual costs and repayment obligations are subtracted from actual revenues.

Adjustment for Power Factor: The customer will be required to maintain a power factor at all points of measurement between 95 percent lagging and 95 percent leading.

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPP–2018–0192; FRL–9976–55]

Dinotefuran; Receipt of Applications for Emergency Exemptions, Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received specific exemption requests from the Delaware Department of Agriculture (DDA), the Maryland Department of Agriculture (MDA), the Pennsylvania Department of Agriculture (PDA) and the Virginia Department of Agriculture and Consumer Services (VDACS) to use the insecticide dinotefuran (CAS No. 165252–70–0) to treat up to 58,118 acres of pome and stone fruits to control the

brown marmorated stinkbug. The applicants propose uses which are supported by the Interregional Research Project Number 4 (IR–4) and have been requested in 5 or more previous years, and petitions for tolerances have not yet been submitted to the Agency.

Therefore, EPA is soliciting public comment before making the decision whether to grant the exemptions.

DATES: Comments must be received on or before May 22, 2018.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA–HQ–OPP–2018–0192, by one of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <https://www.epa.gov/dockets/where-send-comments-epa-dockets>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: Michael L. Goodis, Registration Division (7505P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; main telephone number: (703) 305–7090; email address: RDfRNotices@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).

- Pesticide manufacturing (NAICS code 32532).

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticide(s) discussed in this document, compared to the general population.

II. What action is the agency taking?

Under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), at the discretion of the EPA Administrator, a Federal or State agency may be exempted from any provision of FIFRA if the EPA Administrator determines that emergency conditions exist which require the exemption. The DDA, MDA, PDA and VDACS have requested the EPA Administrator to issue specific exemptions for the use of dinotefuran on pome and stone fruits to control the brown marmorated stinkbug. Information in accordance with 40 CFR part 166 was submitted as part of the requests.

As part of the requests, the applicants assert that the rapid spread of large outbreaks of the brown marmorated stinkbug (a recent invasive species) resulted in an urgent and non-routine pest control situation that is expected to cause significant economic losses without the requested uses. The Applicants propose to make no more than two applications at a rate of 0.203 to 0.304 lb. (maximum of 0.608 lb.) of dinotefuran per acre, on up to 58,118 acres of pome and stone fruit grown in Delaware, Maryland, Pennsylvania and Virginia from April 1 to October 15, 2018. A total of 35,335 lbs. of dinotefuran could be used (maximum acreage at highest rate).

This notice does not constitute a decision by EPA on the applications themselves. The regulations governing FIFRA section 18 at 40 CFR 166.24(7), require publication of a notice of receipt of an application for a specific exemption proposing a use which is supported by the Interregional Research Project Number 4 (IR-4) and has been requested in 5 or more previous years, and a petition for tolerance has not yet been submitted to the Agency. The notice provides an opportunity for public comment on the application. The Agency, will review and consider all comments received during the comment period in determining whether to issue the specific exemptions requested by the DDA, MDA, PDA and VDACS.

Authority: 7 U.S.C. 136 *et seq.*

Dated: April 17, 2018.

Michael L. Goodis,

Director, Registration Division, Office of Pesticide Programs.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[9975-98-OEI]

Cross-Media Electronic Reporting: Authorized Program Revision Approval, State of Tennessee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of the State of Tennessee's request to revise one of its EPA-authorized air programs to allow electronic reporting.

DATES: EPA approves of the State of Tennessee's air authorized program revision as of May 7, 2018].

FOR FURTHER INFORMATION CONTACT: Karen Seeh, U.S. Environmental

Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW, Washington, DC 20460, (202) 566-1175, seeh.karen@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On March 9, 2018, the Tennessee Department of Environment and Conservation (TDEC) submitted an application titled "State and Local Emissions Inventory System" for revision to its EPA-approved program under title 40 CFR to allow new electronic reporting. EPA reviewed TDEC's request to revise its EPA-authorized Part 52—Approval and Promulgation of Implementation Plans program and, based on this review, EPA determined that the application met the standards for approval of authorized program revision set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve Tennessee's request to revise/modify its Part 52—Approval and Promulgation of Implementation Plans program to allow electronic reporting
