

nematicide (EPA reg. no. 264–731) for 1-year, until October 5, 2012, and established an end-use date for existing stocks of all fenamiphos products of October 6, 2014. However, on August 5, 2014, the Agency received a request from the Golf Course Superintendents Association of America (GCSAA) to allow the continued use of existing fenamiphos stocks past the October 6, 2014, deadline in light of the stocks that remain in users' hands and the reported lack of effective alternatives to treat nematode infestations on established turf. Today's notice amends only the existing stocks provision of the October 5, 2011, amended cancellation order, providing an additional 3 years, until October 6, 2017, to use existing stocks of all fenamiphos products.

##### II. What are the terms of the amended cancellation order?

This notice announces the amendment of the December 10, 2003, use deletion and cancellation order of fenamiphos products registered under section 3 of the Federal Insecticide, Fungicide, and Rodenticide Act

(FIFRA), as amended on June 11, 2008, December 10, 2008, and October 5, 2011. In the October 5, 2011 amendment to the use deletion and product cancellation order of fenamiphos, the Agency announced that it would prohibit use of existing stocks of all fenamiphos products after October 6, 2014. Today's notice changes the end-use date from October 6, 2014, to October 6, 2017. In GCSAA's request to extend the end-use date, they report that, according to the registrant at the time, Bayer Corporation, golf courses purchased the majority of fenamiphos stocks produced during the last year of the phase out in 2008. Golf course owners reportedly purchased a 10-year supply of fenamiphos, in many cases, as there was not a viable alternative to fenamiphos for use on turf and it was forecasted to take many years of research to identify one. The Agency established an end-use date in its October 5, 2011 amendment as the use of existing stocks had continued for an extended period since the last comprehensive risk assessment, which was completed for the 2002 Fenamiphos Reregistration Eligibility Decision. While this fact still holds true, the Agency was not aware of the volume of inventory in the hands of golf course owners at the time of the October 5, 2011, amendment. The Agency concludes that the more cost-effective and efficient option to exhaust the remaining stocks is to use the stocks as directed on product labeling rather than transporting hazardous substances over potentially lengthy distances to a pesticide disposal facility.

EPA hereby modifies the cancellation order of the December 10, 2003, use deletion and cancellation order of fenamiphos products, as amended on June 11, 2008, December 10, 2008, and October 5, 2011, to permit the use of existing stocks until October 6, 2017. Any use of such products must be in accordance with all terms of the previously-approved labeling. The distribution and sale provisions of the October 5, 2011, order remain unchanged and, therefore, any distribution or sale of fenamiphos products is prohibited, except for purposes of proper disposal or export consistent with FIFRA section 17.
