SUPPLEMENTARY INFORMATION:

Information Collection Request Title: National Survey of Organ Donation Attitudes and Practices, OMB No. 0915–0290—Extension.

Abstract: HRSA is requesting approval by OMB for an extension of a previously approved collection of information (OMB control number 0915–0290). The National Survey of Organ Donation Attitudes and Practices is conducted approximately every 6–7 years and serves a critical role in providing HRSA and the donation community with data regarding why Americans choose to donate organs, current barriers to donation, and possible paths to increasing donations. Survey data and derived analytic insights help HRSA develop and target appropriate messages for public outreach and educational initiatives.

A 60-day notice published in the **Federal Register** on April 19, 2021, vol. 86, No. 73; pp. 20374. There were no public comments.

Need and Proposed Use of the Information: OMB previously approved this survey and HRSA fielded it during 2005, 2012, and 2019. Results of the data collected from this survey will help develop appropriate messages for future public outreach and educational initiatives to increase awareness about organ donation and ultimately the number of registered donors.

Likely Respondents: A nationally representative sample of adults over the age of 18 with a high number of responses from populations of interest such as racial-ethnic minorities, including African American, Asian, Native American, and Hispanic respondents, as well as respondents of all age groups and education levels.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for collecting, validating, verifying, processing and maintaining information, and disclosing and providing information; to train personnel and be able to respond to a collection of information; to search data sources; to complete and review the collection of information, and to transmit or otherwise disclose the information. A summary of the total annual burden hours estimated for this ICR is in the table below.
