

with the immediate deposit and limited withdrawal standards.

- Assure proper accounting for unemployment funds, an integral part of preparing the Department's consolidated financial statements, required by the Chief Financial Officer Act of 1990. The UTF is the single largest asset and liability on the statements.

- Reconcile the Department's records with the U.S. Treasury records.

- Develop UI research and actuarial reports, especially to monitor the solvency of the UTF.

The cited reports have been submitted monthly by the States the past several years in electronic format (with the exception of the ETA 8403). The Department is working with the U.S. Treasury to convert the ETA 8403 to an electronic format by December 31, 2003.

Since the reports are essential to the Department's financial statements and program oversight responsibilities, and the Department seeks Office of Management and Budget (OMB) approval for a three year extension to January 1, 2006.

## II. Review Focus

The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of the information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

## III. Current Actions

This action is requested to provide information the Department needs to exercise oversight and to assure the security, solvency, and integrity of the unemployment fund. Furthermore, the Department needs the information to prepare the annual consolidated financial statements and UI statistical reports.

This information is not available from any other source. Because the reporting

system has been operational on-line for several years, there is negligible burden on the states. The Department intends to expand the ETA 2112 by four lines to report deposits and withdrawals for current Federal emergency programs, e.g., the Temporary Extended Unemployment Compensation program, and for future programs. This will disaggregate information currently reported on one line and explained in the "Comments" section of the report. It will not increase the amount of information collected.
