Background

The FHWA, in cooperation with the Iowa Department of Transportation and Polk County will prepare an EIS for the roadway improvements between IA 415/ NW 26th Street and Euclid Avenue/M.L. King Parkway in Des Moines. The proposed project would include an interchange with I–35/80 at NW 26th Street and also provide access to Morningstar Drive.

The purpose of the NW 26th Street extension is to provide increased system continuity between Des Moines, Ankeny, and Polk City, by providing a continuous route between IA 5 and IA 415 via NW 26th Street, M.L. King Parkway, and Fleur Drive. The proposed corridor improvements would relieve north-south traffic congestion on both Merle Hay Road and 2nd Avenue. The improvement of NW 26th Street would also provide direct access via IA 415 to the Saylorville/Big Creek Recreation Area, Polk City, and Ankeny.

Alternatives under consideration include: (1) Taking no action; (2) widening existing roadways; (3) Transportation System Management/ Transportation Demand Management (TSM/TDM) strategies; and, (4) constructing a roadway on a new location.

The build alternative will include consideration of various alignments and grades. Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies, and to private organizations and citizens who have previously expressed or are known to have interest in this proposal. A series of public meetings will be held in 2006 and 2007. In addition, a public hearing will be held upon completion of the draft EIS. Public notice will be given of the time and place of the public meetings and public hearing. The draft EIS will be available for public and agency review and comment prior to the public hearing.

A scoping meeting (the initial public meeting) will be held identifying significant issues to be addressed in the environmental impact statement. The date and location of the scoping meeting have not yet been determined but will be advertised in various local media.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues are identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA or Iowa
