BILLING CODE 4310-MN-M

INTERNATIONAL TRADE COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request: Generic Survey Clearance for Import Injury Investigations

AGENCY: U.S. International Trade Commission.

ACTION: Notice of proposed collection; comment request.

SUMMARY: The proposed information collection is a 3-year extension, pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13) (the "Act"), of the current generic survey clearance previously approved by the Office of Management and Budget ("OMB"). The clearance is used by the U.S. International Trade Commission ("Commission") to issue information collections (specifically, producer, importer, purchaser, and foreign producer questionnaires and certain institution notices) for a series of import injury investigations that are required by the Tariff Act of 1930 and the Trade Act of 1974. The current generic survey clearance is assigned OMB control No. 3117-0016; it will expire on June 30, 2008. Comments concerning the proposed information collections are requested in accordance with section 3506(c)(2)(A) of the Act; such comments are described in greater detail in the section of this notice entitled **SUPPLEMENTARY INFORMATION**.

DATES: Written comments should be received not later than 60 days after publication of this notice on the **Federal Register** to be assured of consideration.

ADDRESSES: Signed comments should be submitted to Marilyn Abbott, Secretary, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436.

FOR FURTHER INFORMATION CONTACT: Copies of the proposed information collections may be obtained from: Debra Baker, Office of Investigations, U.S. International Trade Commission (telephone No. 202-205-3180; e-mail address: Debra.Baker@usitc.gov). Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>).

SUPPLEMENTARY INFORMATION:

Request for Comments

Comments are solicited as to (1) whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed

information collection, including the validity of the methodology and assumptions used; (3) the quality, utility, and clarity of the information to be collected; and (4) minimization of the burden of the proposed information collection on those who are to respond (including through the use of appropriate automated, electronic, mechanical, or other technological forms of information technology, e.g., permitting electronic submission of responses).

Summary of the Proposed Information Collections

(1) Need for the Proposed Information Collections

The information requested in questionnaires and five-year sunset review institution notices issued under the generic survey clearance is utilized by the Commission in the following statutory investigations: Antidumping duty, countervailing duty, escape clause, North American Free Trade Agreement (NAFTA) safeguard, market disruption, and interference-with-programs of the U.S. Department of Agriculture (USDA). The Commission's generic survey clearance to issue questionnaires will not apply to repetitive questionnaires such as those issued on a quarterly or annual basis or to other investigations and research studies conducted under section 332 of the Trade Act of 1974.

The information provided by firms in response to the questionnaires provides the basis for the Commission's determinations in the above-cited statutory investigations. The submitted data are consolidated by Commission staff and provided to the Commission in the form of a staff report. In addition, in the majority of its investigations, the Commission releases completed questionnaires returned by industry participants to representatives of parties to its investigations under the terms of an administrative protective order, the terms of which safeguard the confidentiality of any business proprietary or business confidential information. Representatives of interested parties also receive a confidential version of the staff report under the administrative protective order. Subsequent party submissions to the Commission during the investigative process are based, in large part, upon their review of the information collected.

Included in the proposed generic clearance are the institution notices for the five-year sunset reviews of antidumping and countervailing duty orders and suspended investigations.
