[OMB Control No. 9000-0192; Docket 2015-0055, Sequence 50]

**Submission for OMB Review;
Utilization of Small Business
Subcontractors**

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and the National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for public comments regarding a new OMB information collection.

SUMMARY: Under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35), the Regulatory Secretariat Division (MVCB) will be submitting to the Office of Management and Budget (OMB) a request to review and approve a new information collection requirement regarding utilization of small business subcontractors. A notice was published in the **Federal Register** at 80 FR 32909 on June 10, 2015. No comments were received on this information collection.

DATES: Submit comments on or before November 30, 2015.

ADDRESSES: Submit comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for GSA, Room 10236, NEOB, Washington, DC 20503. Additionally submit a copy to GSA by any of the following methods:

- Regulations.gov: <http://www.regulations.gov>. Submit comments via the Federal eRulemaking portal by searching the OMB control number. Select the link "Submit a Comment" that corresponds with "Information Collection 9000-0192, Utilization of Small Business Subcontractors". Follow the instructions provided at the "Submit a Comment" screen. Please include your name, company name (if any), and "Information Collection 9000-0192, Utilization of Small Business Subcontractors" on your attached document.

- Mail: General Services Administration, Regulatory Secretariat (MVCB), ATTN: Ms. Flowers, 1800 F. Street, NW., Washington, DC 20405.

Instructions: Please submit comments only and cite Information Collection 9000-0192, Utilization of Small

Business Subcontractors, in all correspondence related to this case. Comments received generally will be posted without change to <http://www.regulations.gov>, including any personal and/or business confidential information provided. To confirm receipt of your comment(s), please check www.regulations.gov, approximately two to three days after submission to verify posting (except allow 30 days for posting of comments submitted by mail).

SUPPLEMENTARY INFORMATION:**A. Purpose**

Section 1322 of the Small Business Jobs Act of 2010 (Jobs Act), Public Law 111-240, amends the Small Business Act (15 U.S.C. 637(d)(6)) to require as part of a subcontracting plan that a prime contractor make good faith effort to utilize a small business subcontractor during performance of a contract to the same degree the prime contractor relied on the small business in preparing and submitting its bid or proposal. If a prime contractor does not utilize a small business subcontractor as described above, the prime contractor is required to explain, in writing, to the contracting officer the reasons why it is unable to do so. The Small Business Administration (SBA) made regulatory changes in its final rule at 78 FR 42391, dated July 16, 2013 to implement the statutory requirements set forth at section 1322. The SBA final rule is being implemented in the FAR at Subpart 19.7 and clause 52.219-9 Small Business Subcontracting Plan through FAR case 2014-003, Small Business Subcontracting Improvements.

B. Annual Reporting Burden

Public reporting burden for the collection of information regarding a contractor's utilization of small business subcontractors to the same degree the prime contractor relied on the small business in preparing and submitting its bid or proposal is estimated to be \$202,464. FPDS for FY 2013 lists 5,327 actions with small business subcontracting plans. However, it is estimated that at most 50% of these contracts with subcontracting plans may have instances of the prime contractor not using a small business subcontractor to the same extent used in preparing the bid or proposal. Using this method provides the number of respondents as 2,664. It is estimated that the average time required to read and prepare

information for this collection is two hours. It is also estimated that the responses per respondent would be once a year since prime contractors have until 30 days of contract completion to submit the written explanation.

Respondents: 2,664.

Responses per respondent: 1.

Total annual responses: 2,664.

Preparation hours per response: 2.

Total response burden hours: 5,328.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the Federal Acquisition Regulations (FAR), and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202-501-4755.

Please cite OMB Control No. 9000-0192, Utilization of Small Business Subcontractors, in all correspondence.

SUPPLEMENTARY INFORMATION:

A. Purpose

In accordance with Federal Acquisition Regulation 19.702, which implements the statutory requirements of Section 8(d) of the Small Business Act (15 U.S.C. 637(d)), contractors receiving a contract for more than the simplified acquisition threshold agree to have small business, small disadvantaged business, women-owned small business, historically underutilized business zone small business, veteran-owned small business, and service-disabled veteran-owned small business concerns participate in the performance of the contract as far as practicable. Contractors receiving a contract or a modification to a contract expected to exceed \$700,000 (\$1,500,000 for construction) must submit a subcontracting plan that provides maximum practicable opportunities for the above named concerns. Specific elements required to be included in the plan are specified in section 8(d) of the Small Business Act and implemented in FAR subpart 19.7 and clause 52.219-9.

In conjunction with the subcontracting plan requirements, contractors must submit semi-annual reports of their small business subcontracting progress to the government. With the exception of those contracts noted in FAR 4.606(c)(5) which states "Actions that, pursuant to other authority, will not be entered in FPDS (e.g., reporting of the information would compromise national security)", contractors must use the electronic Individual Subcontract Report (ISR) in the Electronic Subcontracting Reporting System (eSRS) in lieu of the Standard Form 294, Subcontracting Report for Individual Contracts.

The ISR is the electronic equivalent of the Standard Form 294. The eSRS streamlines the small business subcontracting program reporting process and provides the data to agencies in a manner that enables them to more effectively manage the program. Those contract actions noted in FAR 4.606(c)(5) will continue to use the Standard Form 294.

The SBA made regulatory changes in its final rule at 78 FR 42391, dated July 16, 2013 regarding subcontracting plan requirements and the associated reporting requirements. The SBA final rule is being implemented in the FAR at subpart 19.7 and clause 52.219-9 Small

Business Subcontracting Plan through FAR case 2014-003, Small Business Subcontracting Improvements. FAR case 2014-003 revised the FAR to require a subcontracting plan for modifications of any value if the modification will cause the contract to exceed the threshold for requiring a plan and when subcontracting opportunities exist as well as to give contracting officers the discretion to require a plan when a small business prime contractor rerepresents as an other than small on the contract. These revisions to the FAR required revisions to the existing information collections associated with subcontracting plan requirements and the associated reporting requirements.

B. Annual Reporting Burden

Based on the proposed revisions to the FAR as well as a more accurate basis for estimation, an upward adjustment is being made to the average burden hours for reporting and recordkeeping per response but a downward adjustment is being made to the number of respondents (i.e., subcontracting plans and the individual subcontracting reports associated with them). As a result, a downward adjustment is being made to the estimated annual reporting burden since the notice regarding an extension to this clearance published in the **Federal Register** at 78 FR 17668, on March 22, 2013.

Respondents: 59,336.

Responses per Respondent: 3.

Total Annual Responses: 178,008.

Average Burden Hours per

Response: 13.5.

Total Burden Hours: 2,403,108.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the Federal Acquisition Regulations (FAR), and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies Of Proposals:

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202-501-4755.

SUPPLEMENTARY INFORMATION:

A. Purpose

In accordance with Federal Acquisition Regulation 19.702, any contractor receiving a contract for more than the simplified acquisition threshold must agree in the contract that small business, small disadvantaged business, historically underutilized business zone (HUBZone) small business, veteran-owned small business, service-disabled veteran-owned small business, and women-owned small business concerns will have the maximum practicable opportunity to participate in contract performance consistent with its efficient performance. Further, contractors receiving a contract or a modification to a contract expected to exceed \$700,000 (\$1,500,000 for construction) must submit a subcontracting plan that provides maximum practicable opportunities for the above named concerns. Specific elements required to be included in the plan are specified in section 8(d) of the Small Business Act and are implemented in FAR Subpart 19.7.

In conjunction with the subcontracting plan requirements, contractors must submit an annual summary of subcontracts awarded by prime and subcontractors for a specific Federal Government agency that required an individual subcontracting plan for the previous fiscal year. This is accomplished through the use of the

Summary Subcontract Report (SSR), submitted through the Electronic Subcontracting Reporting System (eSRS). The eSRS streamlines the small business subcontracting program reporting process and provides the data to agencies in a manner that enables them to more effectively manage the program.

The SBA made regulatory changes in its final rule at 78 FR 42391, dated July 16, 2013 regarding subcontracting plan requirements and the associated reporting requirements. The SBA final rule is being implemented in the FAR at Subpart 19.7 and clause 52.219-9 Small Business Subcontracting Plan through FAR case 2014-003, Small Business Subcontracting Improvements. FAR case 2014-003 revised the FAR to require a subcontracting plan for modifications of any value if the modification will cause the contract to exceed the threshold for requiring a plan and when subcontracting opportunities exist as well as to give contracting officers the discretion to require a plan when a small business prime contractor rerepresents as an other than small on the contract. These revisions to the FAR required revisions to the existing information collections associated with subcontracting plan requirements and the associated reporting requirements.

B. Annual Burden Hours

Based on the proposed revisions to the FAR as well as a more accurate basis for estimation, a downward adjustment is being made to the number of respondents (*i.e.*, summary subcontracting reports). Since the proposed revisions to the FAR does not require additional information in the Summary Subcontract Report, the estimated preparation hours per response remains unchanged. As a result, a downward adjustment is being made to the estimated annual reporting burden since the notice regarding an extension to this clearance published in the **Federal Register** at 78 FR 17668, on March 22, 2013.

Respondents: 59,336.

Responses per respondent: 1.

Total responses: 59,336.

Average burden hours per response: 9.0.

Total Burden Hours: 534,024.

C. Public Comments
