

modifications to regulations addressing recreational fishing for gag and shallow-water grouper. Alternatives being considered to modify the recreational gag fishing season would change the starting date for the recreational gag season from July 1 to an earlier time when there is greater demand to fish for gag, or would split the season into two or three sub-seasons. Changing the season to times when there is greater demand may reduce the number of fishing days relative to the status quo, so suboptions within the alternatives consider either retaining the current gag bag limit of 2 fish per person within the 4-fish aggregate shallow-water grouper bag limit, or reducing the bag limit for gag to 1 fish in order to extend the season. The Framework Action will also consider revising the current closed season on recreational harvest of shallow-water grouper by either shortening or eliminating the closed season, moving it to a different date, or having the closed season apply only seaward of the 20 fathom depth contour while eliminating it shoreward of 20 fathoms.
