## FEDERAL TRADE COMMISSION

### Agency Information Collection Activities; Proposed Collection; Comment Request; Extension

**AGENCY:** Federal Trade Commission (FTC).

**ACTION:** Notice.

**SUMMARY:** The FTC has submitted to the Office of Management and Budget (OMB) for review under the Paperwork Reduction Act (PRA) information collection requirements contained in its Automotive Fuel Ratings, Certification and Posting Rule ("Fuel Rating Rule" or "Rule"). The FTC is seeking public comments on the proposal to extend through December 31, 2005 the current PRA clearance for information collection requirements contained in the regulations. That clearance expires on December 31, 2002.

**DATES:** Comments must be filed by November 6, 2002.

**ADDRESSES:** Send written comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10202, Washington, DC 20503, ATTN.: Desk Officer for the Federal Trade Commission (comments in electronic form should be sent to [oira\\_docket@omb.eop.gov](mailto:oira_docket@omb.eop.gov)), and to Secretary, Federal Trade Commission, Room H-159, 600 Pennsylvania Ave., NW., Washington, DC 20580 (comments in electronic form should be sent to: [FuelRatingPRA@ftc.gov](mailto:FuelRatingPRA@ftc.gov)) as prescribed below.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the proposed information requirements should be sent to Neil Blickman, Attorney, Division of Enforcement, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Ave., NW., Washington, DC 20580, (202) 326-3038.

**SUPPLEMENTARY INFORMATION:** Under the PRA (44 U.S.C. 3501-3520), Federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor. On July 24, 2002, the FTC sought comment on the information collection requirements associated with the Fuel Rating Rule, 16 CFR part 306 (OMB Control Number: 3084-0068). See 67 FR 48471. No comments were received. Pursuant to the OMB regulations that implement the PRA (5 CFR part 1320), the FTC is providing this second opportunity for public comment while seeking OMB approval to extend the existing paperwork clearance for the Rule.

If a comment contains nonpublic information, it must be filed in paper form, and the first page of the document must be clearly labeled "confidential." Comments that do not contain any nonpublic information may instead be filed in electronic form (in ASCII format, WordPerfect, or Microsoft Word) as part of or as an attachment to email

messages directed to the following email box: [FuelRatingPRA@ftc.gov](mailto:FuelRatingPRA@ftc.gov). Such comments will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with Section 4.9(b)(6)(ii) of the Commission's Rules of Practice, 16 CCR 4.9(b)(6)(ii).

The Fuel Rating Rule establishes standard procedures for determining, certifying, and disclosing the octane rating of automotive gasoline and the automotive fuel rating of alternative liquid automotive fuels, as required by the Petroleum Marketing Practices Act, 15 U.S.C. 2822(a)-(c). The Rule also requires refiners, producers, importers, distributors, and retailers to retain records showing how the ratings were determined, including delivery tickets or letters of certification.

**Estimated annual hours burden:** 42,000 total burden hours (17,000 recordkeeping hours + 25,000 disclosure hours).

**Recordkeeping:** Based on industry sources, staff estimates that 200,000 fuel industry members each incur an average annual burden of approximately five minutes to ensure retention of relevant business records for the period required by the Rule, resulting in a total of 17,000 hours, rounded.

**Disclosure:** Staff estimates that affected industry members incur an average burden of approximately one hour to produce, distribute, and post octane rating labels. Because the labels are durable, only about one of every eight industry members (*i.e.*, approximately 25,000 of 200,000 members) incur this burden each year, resulting in a total annual burden of 25,000 hours.

**Estimated annual cost burden:** \$739,000, rounded (\$672,000 in labor costs and \$67,000 in non-labor costs).

**Labor costs:** Staff estimates that the work associated with the Rule's recordkeeping and disclosure requirements is performed by skilled clerical employees at an average rate of \$16.00 per hour. Thus, the annual labor cost to respondents of complying with the recordkeeping and disclosure requirements of the Rule is estimated to be \$672,000 ((17,000 hours + 25,000 hours) × 16.00 per hours).

**Capital or other non-labor costs:** \$67,000, rounded up to the nearest thousand. Staff believes that there are no current start-up costs associated with the Rule. Because the Rule has been effective since 1979 for gasoline, and since 1993 for liquid alternative automotive fuels, industry members already have in place the capital equipment and other means necessary to comply with the Rule. Retailers

(approximately 175,000 industry members), however, do incur the cost of procuring (and replacing) fuel dispenser labels to comply with the Rule. According to industry input, the price per label is about thirty-eight cents. Based on ranging industry estimates of a 6–10 year useful life per dispenser label, staff will conservatively factor into its calculation of labeling cost the shortest assumed useful life, *i.e.*, 6 years. Staff believes that the average retailers has six dispensers, with all of them being obtained either simultaneously or otherwise within the same year. Assuming that, in any given year,  $\frac{1}{6}$  of all retailers (29,167 retailers) will replace their dispenser labels, staff estimates total labeling cost to be \$66,500 ( $29,167 \times 6 \times .38$ ).
