

Scoping Process

All persons affected by or otherwise interested in skate management are invited to participate in determining the scope and significance of issues to be analyzed by submitting written comments (see **ADDRESSES**) and/or by attending one of the scoping meetings. Scope consists of the range of actions, alternatives, and impacts to be considered. Alternatives include the following: Not amending the management plan (taking no action); developing an amendment that contains management measures such as those discussed in this notice; or other reasonable courses of action. Impacts may be direct, indirect, or cumulative.

This scoping process will also identify and eliminate from detailed analysis issues that are not relevant or feasible. When, after the scoping process is completed, the Council proceeds with the development of an amendment to the Skate FMP, the Council will prepare an EIS to analyze the impacts of the range of alternatives under consideration. The Council will hold public hearings to receive comments on the draft amendment and on the analysis of its impacts presented in the EIS.
