Abstract: Various laws, statutes, and regulations, to include the Public Lands Corps Act (16 U.S.C. 1721 *et. seq.*), the Outdoor Recreation Authority (16 U.S.C. 4601), Volunteers in the National Forests Program (16 U.S.C. 558 a-d), and the Forest Foundation Volunteers Act (16 U.S.C. 583j), authorize Federal land management agencies to work with volunteers, youth, and partner organizations to plan, develop, maintain, and manage projects and service activities on public lands and adjacent projects throughout the nation.

We use volunteers, youth programs, and partnerships to aid in disaster response, interpretive functions, visitor services, conservation measures and development, research and development, recreation, and or other activities as allowed by an agency's policy and regulations. Providing, collecting, and exchanging written and electronic information is required from potential and selected program participants of all ages so they can access opportunities and benefits provided by agencies guidelines. Those under the age of 18 years must have written consent from a parent or guardian to participate in volunteer activities.

In this revision, Interior will request OMB approval to assume the management and responsibility of common forms OF-301, OF-301a, and OF-301b from the Department of Agriculture—U.S. Forest Service (currently approved under OMB Control No. 0596-0080). These forms, available for prospective volunteers to complete electronically or as paper forms, serve two functions:

- Recruiting potential volunteers, and
- Formalizing agreements between current volunteers and the agencies with which they are volunteering.

The customer relationship management web-based portal, Volunteer.gov, is the agencies' response to meeting the public's request for improved digital customer services to access and apply for engagement opportunities. Under one security platform parameter, the Volunteer.gov website provides prospective and current program participants the ability to establish an account for electronic submission of program applications and to obtain status of applications and enrollments. Planned future functionality will provide information digitally on benefits and requirements, and will facilitate improved tracking of volunteer service hours. Currently, these data points are tracked manually and are accessible from agency volunteer program coordinators.

This information collection specifically minimizes the burden on the respondents. While electronic records provide a means to streamline data collection and allow participant access to track benefits and control the sharing of their data, the participating agencies will continue to provide accessible paper versions of the volunteer forms upon request and while the functionality in the web-based portal is being built.

Participating Agencies

- *Department of the Interior:* All Interior offices and units, including National Park Service, U.S. Fish and Wildlife Service, Bureau of Land Management, Bureau of Reclamation, Bureau of Indian Affairs, Office of Surface Mining Reclamation and Enforcement, and U.S. Geological Survey.
- *Department of Agriculture:* U.S. Forest Service and Natural Resources Conservation Service.
- *Department of Defense:* U.S. Army Corps of Engineers.
- *Department of Commerce:* National Oceanic and Atmospheric Administration—Office of National Marine Sanctuaries.

Common Forms

Forms OF-301—Volunteer

Application: Individuals interested in volunteering may access the Volunteer.gov website to complete an on-line application on the *Volunteer.gov* website. Alternatively, they may contact any agency listed above to request a Volunteer Application (Form OF-301). We collect the following information from applicants via Form OF-301:

- Name and contact information (address, telephone number, and email address);
- Date of birth (proposed new data field);
- Preferred work categories;
- Interests;
- Citizenship status;
- Available dates and preferred location;
- Physical limitations; and
- Lodging preferences.

Information collected using this form or *Volunteer.gov* assists agency volunteer coordinators and other personnel in matching volunteers with agency opportunities appropriate for an applicant's skills, physical condition, and availability. We are proposing to collect date of birth to be used along with other unique identifiers for each volunteer applicant. Using date of birth will allow all participating agencies across locations to better track applicants via the Volunteer.gov website.

Forms OF-301A—Volunteer Service

Agreement: We use this form to establish agreements for volunteer services between Federal agencies and individual or group volunteers, to include eligible international volunteers. We require the signature of parents or guardians for all applicants under 18 years of age. We collect the following information from volunteers via Form OF-301A:

- Name and contact information (address, telephone number, and email address);
- Date of birth (proposed new data field);
- Citizenship information; and,
- Emergency contact information.

Forms OF-301A describe the service a volunteer will perform, and asks a volunteer to confirm their understanding of the purpose of the volunteer program, their fitness and ability to perform the duties as described, and whether they consent to being photographed. We are proposing to collect date of birth to be used along with other unique identifiers for each volunteer applicant. Using date of birth will allow all participating agencies across locations to track their volunteer hours.

Forms OF-301B—Volunteer Group Sign-up: We use this form to document awareness and understanding by adult individuals in groups about the volunteer activities between a Federal agency and a partner organization with group participants, and accompanies the Form OF-301a. We collect the following information from volunteers via Form OF-301b:

- Name and contact information (address, telephone number, and email address);
- Month and year of birth (proposed new data field);
- Confirmation of understanding of the purpose of the volunteer program;
- Fitness and ability to perform the duties as described; and
- Whether they consent to being photographed.

We are proposing to collect month and year of birth to be used along with other unique identifiers for each volunteer applicant. Using month and year of birth will allow all participating agencies across locations to track their volunteer hours across positions.

Each participating agency must request OMB approval of, and report their own burden associated with, the use of common forms OF-301, OF-301a, and OF-301b in order to be authorized to participate in this information collection. Interior will not assume the burden for any agencies other than its own bureaus and offices that participate in the volunteer program.

Additionally, we are proposing to change the title of this information collection from “Natural and Cultural Resource Agencies Customer Relationship Management” to “Administration of Volunteer.gov website and Associated Volunteer Activities” to clarify the purpose of the information collection for the public.

Between 1989 and 1990, 16 sacred objects were removed from the Austin site (22TU549) in Tunica County, MS. These sacred objects include nine canine burials, one lot of ceramic sherds, one lot of charcoal, one lot of fired clay objects, one lot of faunal bone fragments (other than canine), one lot of lithic debitage, one lot of soil matrix, and one lot of water-screened pit fill.
