DEPARTMENT OF HEALTH AND HUMAN SERVICES**Office of Inspector General****Program Exclusions: October 2001****AGENCY:** Office of Inspector General, HHS.**ACTION:** Notice of program exclusions.

During the month of October 2001, the HHS Office of Inspector General imposed exclusions in the cases set forth below. When an exclusion is imposed, no program payment is made to anyone for any items or services (other than an emergency item or service not provided in a hospital emergency room) furnished, ordered or prescribed by an excluded party under the Medicare, Medicaid, and all Federal Health Care programs. In addition, no program payment is made to any business or facility, e.g., a hospital, that submits bills for payment for items or services provided by that excluded party. Program beneficiaries remain free to decide for themselves whether they will continue to use the services of an excluded party even though no program payments will be made for items and services provided by that excluded party. The exclusions have national effect and also apply to all Executive Branch procurement and non-procurement programs and activities.

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Substance Abuse and Mental Health Services Administration****Agency Information Collection Activities: Submission for OMB Review; Comment Request**

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a list of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

Core Measures for the Center for Substance Abuse Prevention—New— The mission of SAMHSA's Center for Substance Abuse Prevention (CSAP) is to decrease substance use and abuse and related problems among the American public by bridging the gap between research and practice. CSAP accomplishes this through field-testing scientifically defensible programs; disseminating comprehensive, culturally appropriate prevention strategies, policies, and systems; and capacity building for states and community-based providers. Data will be collected from CSAP grants and contracts where participant outcomes are assessed pre- and post-intervention. The analysis of these data will help determine whether progress is being made in achieving CSAP's mission.

The primary purpose of the proposed data activity is to promote the use among CSAP grantees and contractors of measures recommended by CSAP as a result of extensive examination and recommendations, using consistent criteria, by panels of experts. The use of consistent measurement for specified constructs across CSAP funded projects will improve CSAP's ability to respond to the Government Performance and Results Act (GPRA) and address goals and objectives outlined in the Office of National Drug Control Policy's Performance Measures of Effectiveness.

It is important to emphasize that CSAP is not requiring the use of these measures if (1) The program does not already plan to target change in the specified construct(s) and/or (2) the measure is not valid for the program's targeted population. The Core Measures are only to be used if appropriate to the program's target population and consistent with the outcome(s) selected by the program. Consequently, no additional burden on the target population is estimated because the program is not being asked to collect

Dated: November 1, 2001.

Maureen Byer,

Acting Director, Health Care Administrative Sanctions, Office of Inspector General.
