SUPPLEMENTARY INFORMATION:

Background

On April 23, 2004, in response to Libya's continued effort to completely dismantle its weapons of mass destruction and missile programs, and adhere to its renunciation of terrorism, the President announced the termination of the application of the Iran and Libya Sanctions Act with respect to Libya. Also, the Treasury Department modified sanctions imposed on U.S. firms and individuals under the authority of the International Emergency Economic Powers Act to allow the resumption of most commercial activities, financial transactions, and investments. This rule sets forth the new export control policy for exports

(and reexports) to Libya under the licensing responsibility of the Department of Commerce, Bureau of Industry and Security (BIS).

Previous Licensing Regime

Since January 1986, in response to Libya's repeated use and support of terrorism against the United States, other countries, and innocent persons, the U.S. has maintained economic sanctions against Libya through the Libyan Sanctions Regulations (31 CFR Part 550) and the Export Administration Regulations (15 CFR Part 730 *et seq.*). The Department of the Treasury and the Department of Commerce shared licensing responsibility for proposed U.S. exports and reexports to Libya. The Department of the Treasury's Office of Foreign Assets Control (OFAC) had licensing jurisdiction for exports to Libya, including transshipments via third countries. Authorization granted by OFAC constituted authorization under the EAR. BIS had licensing jurisdiction for reexports of U.S.-origin items to Libya.

Overview: New Licensing Policy for Exports and Reexports to Libya

License Requirements for Exports and Reexports to Libya

Under the new policy established by this Rule, BIS will require a license for the export or reexport of most items on the Commerce Control List (CCL) to Libya. This requirement applies to the export or reexport of all items under the jurisdiction of the Department of Commerce that are on the multilateral export control regime lists: the Wassenaar Arrangement (reason for control: National Security—NS), the Nuclear Suppliers' Group (reason for control: Nuclear Nonproliferation—NP), the Australia Group (reasons for control: Chemical and Biological Weapons—CB) and the Missile Technology Control Regime (reason for control: Missile Technology—MT).

A license requirement also applies to items unilaterally controlled for crime control (CC) or regional stability (RS) reasons.

In addition, a license requirement applies to most U.S.-origin items unilaterally controlled for anti-terrorism (AT) reasons, as set forth specifically in new § 742.20 of the EAR.

The license requirements described above are reflected in the relevant columns of the Country Chart in Supplement No. 1 to part 738 of the EAR. BIS also will require a license for certain categories of items that are controlled for reasons not included on the Country Chart: encryption (EI), short

supply (SS), Chemical Weapons (CW), Computers (XP), and Significant Items (SI).

Items subject to the EAR but not specifically listed on the CCL—referred to as EAR99 items—do not require an export or reexport license to Libya. This rule, however, does not relieve exporters and others of their responsibility to comply with obligations under the end-user and end-use controls maintained under the Enhanced Proliferation Control Initiative (EPCI), as set forth in Part 744 of the EAR.

Licensing Policy

As set forth in new § 742.20 of the EAR, a general policy of denial will apply to applications for exports or reexports of the following items to Libya: items controlled for chemical and biological weapons proliferation reasons; military-related items controlled for national security reasons; items that are controlled for missile proliferation reasons; cryptographic, cryptoanalytic, and cryptologic items controlled for national security reasons; explosives detection equipment controlled under Export Control Classification Number (ECCN) 2A983; "Software" (ECCN 2D983) specially designed or modified for the "development", "production" or "use" of explosives detection equipment controlled by 2A983; "Technology" (ECCN 2E983) specially designed or modified for the "development", "production" or "use" of explosives detection equipment controlled by 2A983; commercial charges and devices controlled under ECCN 1C992; ammonium nitrate, including certain fertilizers containing ammonium nitrate, controlled under ECCN 1C997; and technology for the production of Chemical Weapons Convention (CWC) Schedule 2 and 3 chemicals controlled under ECCN 1E355. All aircraft (powered and unpowered), helicopters, engines, and related spare parts and components will generally be denied, except that parts and components intended to ensure the safety of civil aviation and the safe operation of commercial passenger aircraft will be reviewed on a case-by-case basis, with a presumption of approval.

Also, BIS will generally deny all applications for export and reexport to Libya of items controlled for AT (Column 1) reasons, and not described above, if such items are destined to military, police or intelligence end-users in Libya.

BIS will review, on a case-by-case basis, all other applications for exports or reexports to Libya under the

applicable licensing policy described in Part 742 of the EAR.

License Exceptions

Libya is presently listed in Country Groups D:2, D:3, D:4, E:1 and E:2, found in Supplement 1 to Part 740. This rule removes Libya from Country Group E:2. As a result, the following License Exceptions may be available, in whole or in part: TMP, RPL, GOV, GFT, TSU, BAG, and AVS. A specific transaction is eligible for a license exception only if it satisfies all of the terms and conditions of the relevant license exception and is not excluded by any of the restrictions that apply to all license exceptions, as set forth in the EAR (including, specifically, § 740.2 Restrictions on all License Exceptions).

Transition for Licenses Granted by OFAC

To facilitate a smooth transition of licensing responsibility from OFAC to BIS, this rule extends the validity of licenses issued by OFAC for exports to Libya. OFAC licenses in effect as of April 29, 2004, are hereby continued in accordance with their terms, except as modified by this Rule or by BIS, as if issued by the Department of Commerce. For those licenses with specified expiration dates, such dates will continue to apply. Licenses without specified expiration dates will be valid through May 1, 2005. Items licensed by OFAC and subsequently returned from Libya to the United States do not require further authorization from BIS. However, persons returning items that were previously exported to Libya under a specific license granted by OFAC to the United States are subject to a recordkeeping requirement set forth in Part 762 of the EAR.

In addition, items exported or reexported to Libya under a specific OFAC license may not be transferred within Libya to a new end-user without further authorization from BIS. Reexports of items to countries other than the United States from Libya including those previously authorized under OFAC licenses must conform with the relevant provisions of the EAR for the country to which the items are being reexported. In certain circumstances, such reexports may be eligible for a License Exception or may not require a license. Such reexports will also be subject to a recordkeeping requirement.

Although the Export Administration Act of 1979 (EAA), as amended, expired on August 20, 2001, Executive Order 13222 of August 17, 2001 (3 CFR, 2001 Comp., p. 783) as extended by the Notice of August 7, 2003 (68 FR 47833,

August 11, 2003), continues the EAR in effect under the International Emergency Economic Powers Act. BIS amends the EAR in this rule under the provisions of the EAA as continued in effect under IEEPA and Executive Order 13222.

Rulemaking Requirements

1. This final rule has been determined to be significant for the purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to nor be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections previously approved by the OMB under control numbers 0694-0088, "Multi-Purpose Application," which carries a burden hour estimate of 58 minutes to prepare and submit form BIS-748.

3. This rule does not contain policies with Federalism implications sufficient to warrant preparation of a Federalism assessment under Executive Order 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military or foreign affairs function of the United States (see 5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are not applicable.

However, because of the importance of the issues raised by these regulations, this rule is being issued in interim form and BIS will consider comments in the development of the final regulations. Accordingly, the Department of Commerce (the Department) encourages interested persons who wish to comment to do so at the earliest possible time to permit the fullest consideration of their views.

The period for submission of comments will close June 1, 2004. The Department will consider all comments received before the close of the

comment period in developing final regulations. Comments received after the end of the comment period will be considered if possible, but their consideration cannot be assured. The Department will not accept public comments accompanied by a request that a part or all of the material be treated confidentially because of its business proprietary nature or for any other reason. The Department will return such comments and materials to the persons submitting the comments and will not consider them in the development of final regulations. All public comments on these regulations will be a matter of public record and will be available for public inspection and copying. In the interest of accuracy and completeness, the Department requires comments in written form.

Oral comments must be followed by written memoranda, which will also be a matter of public record and will be available for public review and copying. Communications from agencies of the United States Government or foreign governments will not be available for public inspection.

The public record concerning this regulation will be maintained in the Bureau of Industry and Security Freedom of Information Records Inspection Facility, Room 6881, Department of Commerce, 14th Street and Pennsylvania Avenue, NW., Washington, DC 20230. Records in this facility, including written public comments and memoranda summarizing the substance of oral communications, may be inspected and copied in accordance with regulations published in part 4 of Title 15 of the Code of Federal Regulations. Information about the inspection and copying of records at the facility may be obtained from the Bureau of Industry and Security Freedom of Information Officer, at the above address or by calling (202) 482-0500.

* * * * *

(d) *Anti-terrorism Controls on Cuba, Iran, Iraq, Libya, North Korea, Sudan and Syria.* Commerce maintains anti-terrorism controls on Cuba, Iran, Libya, North Korea, Syria and Sudan under section 6(a) of the Export Administration Act. Items controlled under section 6(a) to Iran, Syria, Sudan, North Korea and Libya are described in §§ 742.8, 742.9, 742.10, 742.19 and 742.20, respectively, and in Supplement No. 2 to part 742. Commerce also maintains controls under section 6(j) of the EAA to Cuba, Libya, Iran, Iraq, North Korea, Sudan and Syria. Items controlled to these countries under EAA section 6(j) are also described in Supplement 2 to part 742. The Secretaries of Commerce and State are required to notify appropriate Committees of the Congress 30 days before issuing a license for an item controlled under section 6(j) to Cuba, Libya, North Korea, Iran, Iraq, Sudan or Syria. As noted in paragraph (c) of this section, if you are exporting or

reexporting to Cuba, Iran, or Iraq you should review part 746 of the EAR, Embargoes and Other Special Controls.

■ 16. Part 742 is amended by adding a new § 742.20 to read as follows:

§ 742.20 Anti-terrorism: Libya.

(a) *License requirements.* (1) If AT Column 1 of the Country Chart (Supplement No. 1 to part 738 of the EAR) is indicated in the appropriate ECCN, BIS requires a license for export and reexport to Libya for anti-terrorism purposes.

(2) The Secretary of State has designated Libya as a country whose government has repeatedly provided support for acts of international terrorism.

(3) In support of U.S. foreign policy against terrorism, BIS maintains two types of anti-terrorism controls on the export and reexport to Libya of items described in Supplement No. 2 to part 742.

(i) Items described in paragraphs (c)(1) through (c)(5) of Supplement No. 2 to part 742, if destined to military, police, intelligence or other end-users in Libya, are controlled under section 6(j) of the Export Administration Act, as amended (EAA).

(ii) Items listed in paragraphs (c)(1) through (c)(5) of Supplement No. 2 to part 742 destined to other end-users in Libya, as well as items to all end-users listed in (c)(6) through (c)(8), (c)(10) through (c)(14), (c)(16) through (c)(19), and (c)(22) through (c)(44) of Supplement No. 2 to part 742, are controlled to Libya under section 6(a) of the EAA.

(b) *Licensing policy.* (1) Applications for export and reexport to all end-users in Libya of the following items will generally be denied:

(i) Items controlled for chemical and biological weapons proliferation reasons to any destination. These are items that contain CB Column 1, CB Column 2, or CB Column 3 in the Country Chart column of the “License Requirements” section of an ECCN on the CCL.

(ii) Military-related items controlled for national security reasons to any destination. These are items that contain NS Column 1 or RS Column 2 in the Country Chart column of the “License Requirements” section in an ECCN on the CCL and are controlled by equipment or material entries ending in the number “18.”

(iii) Items controlled for missile proliferation reasons to any destination. These are items that have an MT Column 1 in the Country Chart column of the “License Requirements” section of an ECCN on the CCL.

(iv) All aircraft (powered and unpowered), helicopters, engines, and related spare parts and components, except that parts and components intended to ensure the safety of civil aviation and the safe operation of commercial passenger aircraft will be reviewed on a case-by-case basis, with a presumption of approval. These are items controlled to any destination for national security and missile technology reasons and items controlled to Libya for anti-terrorism purposes. Such items contain an NS Column 1, NS Column 2, MT Column 1, or AT Column 1 in the Country Chart column of the “License Requirements” section of an ECCN on the CCL. Note that, consistent with the general rule that applies to computing U.S. parts and components content incorporated into foreign made products, all aircraft-related items that require a license to Libya will be controlled U.S. content, except for ECCNs 6A998, 7A994, and 9A991.d, for purposes of such licensing requirements.

(v) Cryptographic, cryptoanalytic, and crypto-logic items controlled to any destination for national security reasons. Such items contain an AT Column 1 and an NS Column 1 or NS Column 2 in the Country Chart column of the “License Requirements” section of an ECCN on the CCL.

(vi) Explosives detection equipment controlled under ECCN 2A983.

(vii) “Software” (ECCN 2D983) specially designed or modified for the “development”, “production” or “use” of explosives detection equipment controlled by 2A983.

(viii) “Technology” (ECCN 2E983) specially designed or modified for the “development”, “production” or “use” of explosives detection equipment controlled by 2A983.

(ix) Commercial charges and devices controlled under ECCN 1C992.

(x) Ammonium nitrate, including certain fertilizers containing ammonium nitrate, controlled under ECCN 1C997.

(xi) Technology for the production of Chemical Weapons Convention (CWC) Schedule 2 and 3 chemicals controlled under ECCN 1E355.

(2) Applications for export and reexport to Libya of all other items described in paragraph (a) of this section, and not described by paragraph (b)(1) of this section, will generally be denied if the export or reexport is destined to a military end-user or for military end-use. Applications for non-military end-users or for non-military end-uses will be considered on a case-by-case basis.

(3) Notwithstanding the provisions of paragraphs (b)(1) and (b)(2), of this

section, applications for Libya will be considered on a case-by-case basis if:

- (i) The U.S. content of foreign-produced commodities is 20% or less by value; or
- (ii) The commodities are medical items.

Note to paragraph (b) of this section:

Applicants who wish any of the factors described in paragraph (b) of this section to be considered in reviewing their license applications must submit adequate documentation demonstrating the value of the U.S. content or the specifications and medical use of the equipment.

(4) License applications for items reviewed under 6(a) controls will also be reviewed to determine the applicability of 6(j) controls to the transaction. When it is determined that an export or reexport could make a significant contribution to the military potential of Libya, including its military logistics capability, or could enhance Libya's ability to support acts of international terrorism, the Secretaries of State and Commerce will notify the Congress 30 days prior to issuance of a license.

■ 17. Supplement No. 2 to part 742 is revised to read as follows:

SUPPLEMENT NO. 2 TO PART 742—ANTI-TERRORISM CONTROLS: IRAN, LIBYA, NORTH KOREA, SYRIA AND SUDAN CONTRACT SANCTITY DATES AND RELATED POLICIES

Note: Exports and reexports of items in performance of contracts entered into before the applicable contract sanctity date(s) will be eligible for review on a case-by-case basis or other applicable licensing policies that were in effect prior to the contract sanctity date. The contract sanctity dates set forth in this Supplement are for the guidance of exporters. Contract sanctity dates are established in the course of the imposition of foreign policy controls on specific items and are the relevant dates for the purpose of licensing determinations involving such items. If you believe that a specific contract sanctity date is applicable to your transaction, you should include all relevant information with your license application. BIS will determine any applicable contract sanctity date at the time an application with relevant supporting documents is submitted.

(a) *Terrorist-supporting countries.* The Secretary of State has designated Cuba, Iran, Iraq, Libya, North Korea, Sudan, and Syria as countries whose governments have repeatedly provided support for acts of international terrorism under section 6(j) of the Export Administration Act (EAA).

(b) *Items controlled under EAA sections 6(j) and 6(a).* Whenever the Secretary of State determines that an export or reexport to any of these countries could make a significant contribution to the military potential of such country, including its military logistics capability, or could enhance the ability of

such country to support acts of international terrorism, the item is subject to mandatory control under EAA section 6(j) and the Secretaries of Commerce and State are required to notify appropriate Committees of the Congress 30 days before a license for such an item may be issued.

(1) On December 28, 1993, the Secretary of State determined that the export to Cuba, Libya, Iran, Iraq, North Korea, Sudan, or Syria of items described in paragraphs (c)(1) through (c)(5) of this Supplement, if destined to military, police, intelligence or other sensitive end-users, are controlled under EAA section 6(j). Therefore, the 30-day advance Congressional notification requirement applies to the export or reexport of these items to sensitive end-users in any of these countries.

(2) License applications for items controlled to designated terrorist-supporting countries under EAA section 6(a) will also be reviewed to determine whether the Congressional notification requirements of EAA section 6(j) apply.

(3) Items controlled for anti-terrorism reasons under section 6(a) to Iran, Libya, North Korea, Sudan, and Syria are:

- (i) Items described in paragraphs (c)(1) through (c)(5) to non-sensitive end-users, and
- (ii) The following items to all end-users: for Iran, items in paragraphs (c)(6) through (c)(44) of this Supplement; for North Korea, items in paragraph (c)(6) through (c)(45) of this Supplement; for Sudan, items in paragraphs (c)(6) through (c)(14), and (c)(16) through (c)(44) of this Supplement; for Libya and Syria, items in paragraphs (c)(6) through (c)(8), (c)(10) through (c)(14), (c)(16) through (c)(19), and (c)(22) through (c)(44) of this Supplement.

(c) The license requirements and licensing policies for items controlled for anti-terrorism reasons to Iran, Syria, Sudan, North Korea, and Libya are generally described in §§ 742.8, 742.9, 742.10, 742.19, and 742.20 of this part, respectively. This Supplement provides guidance on licensing policies for Iran, Libya, North Korea, Syria, and Sudan and related contract sanctity dates that may be available for transactions benefitting from pre-existing contracts involving Iran, Syria, and Sudan. Exporters are advised that the Treasury Department's Office of Foreign Assets Control administers a comprehensive trade and investment embargo against Iran (See Executive Orders 12957, 12959 and 13059 of March 15, 1995, May 6, 1995 and August 19, 1997, respectively.) Exporters are further advised that exports and reexports to Iran of items that are listed on the CCL as requiring a license for national security or foreign policy reasons are subject to a policy of denial under the Iran-Iraq Arms Non-Proliferation Act of October 23, 1992 (50 U.S.C. 1701 note (1994)). Transactions involving Iran and benefitting from a contract that pre-dates October 23, 1992 may be considered under the applicable licensing policy in effect prior to that date.
