k. *Description of Filing*: PG&E proposes to delete non-jurisdictional transmission facilities from the project license. Specifically, PG&E states that the transmission lines extending from Middle Fork Powerhouse to Forest Hill Substation and from Middle Fork Powerhouse to Gold Hill Substation are now used to serve network reliability functions and are no longer subject to licensing as primary project lines within the meaning of § 3(11) of the Federal Power Act. PG&E further states that the remaining portions of the transmission facilities extending from French Meadows Powerhouse to Middle Fork Powerhouse, from Ralston Powerhouse to the Middle Fork-Gold Hill 230kV line, and the Oxbow Tap remain

jurisdictional and should remain in the license. The licensee filed revised exhibit J and K drawings to show those the transmission facilities which remain jurisdictional and those which they propose be removed from the license. Project boundaries were modified accordingly to reflect these changes. The licensee also filed a Transmission Operating Diagram (one-line diagram) of the project. The acreage of federal lands encompassed by the Project will be reduced by 18.16 acres in Tahoe National Forest and 68.71 acres in Eldorado National Forest. Regulations Governing Off-the-Record Communications; Public Notice

March 24, 2000.

This constitutes notice, in accordance with 18 CFR 385.2201(h), of the receipt of exempt and prohibited off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive an exempt or a prohibited off-the-record communication relevant to the merits of a contested on-the-record proceeding, to deliver a copy of the communication, if written, or a summary of the substance of any oral communication, to the Secretary.

Prohibited communications will be included in a public, non-decisional file associated with, but not part of, the decisional record of the proceeding. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such requests only when it determines that fairness so requires.

Exempt off-the-record communications will be included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40

CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of exempt and prohibited off-the-record communications received in the Office

SUPPLEMENTARY INFORMATION:

Title: Information Collection Request for the State Water Quality Program Management Gap Analysis; EPA ICR No. 1945.01. This is a new collection.

Abstract: The Environmental Protection Agency (EPA), in partnership with States, is conducting the State Water Quality Management Gap Analysis (Gap Analysis) to help enumerate current and future funding needs and to help identify innovative strategies for reducing resource gaps. To gather preliminary information in a short time frame, the Gap Analysis was divided into two phases. Phase I consisted of the development of an initial, national estimate of the resource gap faced by water quality management programs to provide a general idea of the magnitude of the resource gap faced by States.

Phase II of the Gap Analysis involves developing a detailed, activity-based workload model to provide a common framework and consistent methodology for States and EPA to estimate what it costs the States to meet the objectives of the Clean Water Act (CWA). In order to complete the model, EPA's Office of Wastewater Management (OWM) needs to gather data on the resources needed
