

information collection, unless it is currently approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a currently valid OMB control number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under OMB Control Number 1218-0208. The current OMB approval is scheduled to expire on January 31, 2011; however, it should be noted that information collections submitted to the OMB receive a month-to-month extension while they undergo review. For additional information, see the related notice published in the **Federal Register** on November 18, 2010 (75 FR 70687).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to ensure appropriate consideration, comments should reference OMB Control Number 1218-0208. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Occupational Safety and Health Administration (OSHA).

Title of Collection: Storage and Handling of Anhydrous Ammonia.
OMB Control Number: 1218-0208.

Affected Public: Private sector—businesses or other for-profits and farms.

Total Estimated Number of Respondents: 2030.

Total Estimated Number of Responses: 2030.

Total Estimated Annual Burden Hours: 345.

Total Estimated Annual Costs Burden: \$0.

Dated: January 27, 2010.

Michel Smyth,

Departmental Clearance Officer.

DEPARTMENT OF LABOR

Public Availability of Department of Labor FY 2010 Service Contract Inventory

AGENCY: Office of the Assistant Secretary for Administration and Management, Labor.

ACTION: Notice of public availability of FY 2010 service contract inventories.

SUMMARY: In accordance with Section 743 of Division C of the Consolidated Appropriations Act of 2010 (Pub. L. 111-117), the Department of Labor is publishing this notice to advise the public of the availability of the FY 2010 Service Contract Inventory. This inventory provides information on service contract actions over \$25,000 made in FY 2010. The information is organized by function to show how contracted resources are distributed throughout the agency. The inventory has been developed in accordance with guidance issued on November 5, 2010, by the Office of Management and Budget's Office of Federal Procurement Policy (OFPP). OFPP's guidance is available at <http://www.whitehouse.gov/sites/default/files/omb/procurement/memo/service-contract-inventories-guidance-11052010.pdf>. The Department of Labor has posted its inventory and a summary of the inventory on the agency's Web site at the following link: <http://www.dol.gov/dol/aboutdol/main.htm>.

FOR FURTHER INFORMATION CONTACT:

Questions regarding the service contract inventory should be directed to Brent Goe in the Office of Acquisition Management Services at (202) 693-7266 or goe.brent2@dol.gov.

Dated: January 27, 2011.

Edward C. Hugler,

Deputy Assistant Secretary for Administration and Management.

BILLING CODE 4510-23-P

NUCLEAR REGULATORY COMMISSION

[NRC-2011-0021]

Applications and Amendments to Facility Operating Licenses Involving Proposed No Significant Hazards Considerations and Containing Sensitive Unclassified Non-Safeguards Information and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information

I. Background

Pursuant to Section 189a.(2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (the Commission, NRC, or NRC staff) is publishing this notice. The Act requires the Commission publish notice of any amendments issued, or proposed to be issued and grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This notice includes notices of amendments containing sensitive unclassified non-safeguards information (SUNSI).

Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission's regulations in Title 10 of the Code of Federal Regulations (10 CFR) 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) Involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The basis for this proposed determination for each amendment request is shown below.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.
