

30 days after the date of publication of this notice.⁶ Hearing requests should contain the party's name, address, and telephone number, the number of participants, and a list of the issues you intend to present at the hearing. If a request for a hearing is made, the Department intends to hold the hearing at the U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230, at a time and location to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

Pursuant to section 735(a)(1) of the Act, we will make our final determination no later than 75 days after the date of publication of this preliminary determination.

Suspension of Liquidation

In accordance with section 733(d) of the Act the Department will instruct U.S. Customs and Border Protection ("CBP") to suspend liquidation of all entries of boltless steel shelving units prepackaged for sale from the PRC, as described in the "Scope of the Investigation" section, entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**.

Pursuant to 19 CFR 351.205(d), the Department will instruct CBP to require a cash deposit⁷ equal to the weighted-average amount by which NV exceeds U.S. price, adjusted where appropriate for export subsidies and estimated domestic subsidy pass-through,⁸ as follows: (1) the cash deposit rate for the exporter/producer combinations listed in the table above will be the rate the Department determines in this preliminary determination; (2) for all combinations of PRC exporters/producers of merchandise under consideration that have not received their own separate rate above, the cash-deposit rate will be the cash deposit rate established for the PRC-wide entity; and (3) for all non-PRC exporters of

merchandise under consideration which have not received their own separate rate above, the cash-deposit rate will be the cash deposit rate applicable to the PRC exporter/producer combination that supplied that non-PRC exporter.

Furthermore, consistent with our practice, where the product under investigation is also subject to a concurrent countervailing duty investigation, we instruct CBP to require a cash deposit equal to the amount by which the normal value exceeds the export price or constructed export price, less the amount of the countervailing duty determined to constitute an export subsidy. In this LTFV investigation, export subsidies constitute 3.03 percent⁹ of the preliminarily calculated countervailing duty rate in the concurrent countervailing duty investigation, and, thus, we will offset the calculated rates for the mandatory respondents and the PRC-wide rate of 112.68 percent by the countervailing duty rate attributable to export subsidies (*i.e.*, 3.03 percent) to calculate the cash deposit rate for this LTFV investigation. Additionally, the Department did not adjust the preliminary determination AD margins for estimated domestic subsidy pass-through because respondents provided no information to support an adjustment pursuant to section 777A(f) of the Act.¹⁰

International Trade Commission ("ITC") Notification

In accordance with section 733(f) of the Act, we notified the ITC of our preliminary affirmative determination of sales at LTFV. Section 735(b)(2) of the Act requires the ITC to make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of boltless steel shelving units prepackaged for sale, or sales (or the likelihood of sales) for importation, of

the merchandise under consideration within 45 days of our final determination.

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act.

Dated: March 24, 2015.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

DEPARTMENT OF COMMERCE

Census Bureau

Proposed Information Collection; Comment Request; Quarterly Financial Report

AGENCY: U.S. Census Bureau, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

SUPPLEMENTARY INFORMATION

I. Abstract

This request is for extension of a currently approved information collection.

The Census Bureau is planning to resubmit to the Office of Management and Budget for approval, the Quarterly Financial Report (QFR) Program information collection forms. The QFR forms to be submitted for approval are: The QFR 200 (MT) long form; QFR 201 (MG) short form; and the QFR 300 (S) long form.

The QFR program collects and publishes up-to-date aggregate statistics on the financial results and position of U.S. corporations. The QFR target population consists of all corporations engaged primarily in manufacturing with total assets of \$250,000 and over, and all corporations engaged primarily in mining; wholesale trade; retail trade; information; or professional and technical services (except legal services) industries with total assets of \$50 million and over.

QFR's last submission for forms approval included an announcement of an expansion of its coverage to include four new service sectors. The new sectors included subsectors in Sector 53 (Real Estate and Rental and Leasing), excluding subsector 533 (Lessors of Nonfinancial Intangible Assets); Sector 56 (Administrative and Support and Waste Management and Remediation Services); Sector 62 (Health Care and Social Assistance); and Sector 72 (Accommodation and Food Services) based on the 2007 North American Industry Classification System (NAICS). However, on June 9, 2014, the QFR ceased collection of these additional sectors due to sample restrictions and budget constraints. Notification of this change was announced on the QFR

Business Help Site (BHS) Web site and the QFR Publication.

The QFR Program has published up-to-date aggregate statistics on the financial results and position of U.S. corporations since 1947. The QFR is a principal economic indicator that also provides financial data essential to the estimation of key Government measures of national economic performance. The importance of this data collection is reflected by the granting of specific authority to conduct the program in Title 13 of the United States Code, Section 91, which requires that financial statistics of business operations be collected and published quarterly. Public Law 109-79 extended the authority of the Secretary of Commerce to conduct the QFR Program under Section 91 through September 30, 2015. Currently, QFR is in the process of reauthorizing this public law.

The main purpose of the QFR is to provide timely, accurate data on business financial conditions for use by Government and private-sector organizations and individuals. The primary public users are U.S. Governmental organizations with economic measurement and policymaking responsibilities such as Bureau of Economic Analysis, Bureau of Labor Statistic and Federal Reserve Board. In turn, these organizations play a major role in providing guidance, advice, and support to the QFR Program. The primary private-sector data users are a diverse group including universities, financial analysts, unions, trade associations, public libraries, banking institutions, and U.S. and foreign corporations.

II. Method of Collection

The Census Bureau uses two forms of data collection: Mail out/mail back paper survey forms, and a secure encrypted Internet data collection system called Centurion. Centurion provides improved quality with automatic data checks and is context-sensitive to assist the data provider in identifying potential reporting problems before submission, thus reducing the need for follow-up. Centurion is completed via the Internet eliminating the need for downloading software and increasing the integrity and confidentiality of the data.

Companies are asked to respond to the survey within 25 days of the end of the quarter for which the data are being requested. Letters and/or telephone calls encouraging participation are directed to companies in the survey sample that have not responded by the designated time.
