

disqualified if the Department determines that such representation is likely to impact the ability to carry out the duties of a DEC member or raise an appearance issue for the Department.

Selection Process: Nominations of individuals who have applied for DEC membership will be forwarded to the local USEAC Director for the respective DEC for that Director's consideration. The local USEAC Director ensures that all nominees meet the membership criteria. The local USEAC Director then, in consultation with the local DEC Executive Committee, evaluates all nominees to determine their interest, commitment, and qualifications. In reviewing nominees, the local USEAC Director strives to ensure a balance among exporters from a manufacturing or service industry and export service providers. A fair representation should be considered from companies and organizations that support exporters, representatives of local and state government, and trade organizations and associations. Membership should reflect the diversity of the local business community, encompass a broad range of business and industry sectors, and be distributed geographically across the DEC service area, and where possible, the Department of Commerce will also consider the ethnic, racial, and gender diversity and various abilities of the United States population.

For current DEC members seeking reappointment, the local USEAC Director, in consultation with the DEC Executive Committee, also carefully considers the nominee's activity level during the previous term and demonstrated ability to work cooperatively and effectively with other DEC members and US&FCS staff. As appointees of the Secretary of Commerce in high-profile positions, though volunteers, DEC Members are expected to actively participate in the DEC and support the work of local US&FCS offices. Those that do not support the work of the office or do not actively participate in DEC activities will not be considered for re-nomination.

The local USEAC Director, in consultation with the local DEC Executive Committee, determines which nominees to forward to the US&FCS Office of U.S. Field for further consideration for recommendation to the Secretary of Commerce. A candidate's background and character are pertinent to determining suitability and eligibility for DEC membership. Since DEC appointments are made by the Secretary, the Department must make a suitability determination for all DEC nominees. After completion of a

vetting process, the Secretary selects nominees for appointment to local DEC's. DEC members are appointed by and serve at the pleasure of the Secretary of Commerce.

Certain Quartz Surface Products From the People's Republic of China: Initiation of Antidumping and Countervailing Duty Changed Circumstances Reviews; Global Stone

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: In response to a request from Global Stone Collection, LLC (Global Stone), the U.S. Department of Commerce (Commerce) is initiating changed circumstances reviews (CCR) of the antidumping duty (AD) and countervailing duty (CVD) orders on certain quartz surface products (quartz surface products) from the People's Republic of China (China) to determine whether the quartz surface products imported by Global Stone into the United States and exported by Bada Industries SDN BHD (Bada Industries) from Malaysia were manufactured in Malaysia with non-Chinese origin quartz slab.

DATES: Applicable June 26, 2023.

FOR FURTHER INFORMATION CONTACT: Ajay Menon, AD/CVD Operations, Office IX, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–0208.

SUPPLEMENTARY INFORMATION:

Background

On July 11, 2019, Commerce published in the **Federal Register** the orders on quartz surface products from China.¹ On October 21, 2022, Commerce published in the **Federal Register** the final results of a scope ruling regarding imports of quartz surface products manufactured in China and further processed in Malaysia, finding that such

imports are covered by the scope of the *Orders*.² Moreover, because exporters of quartz surface products from Malaysia export both subject and non-subject merchandise, Commerce established a scope certification process for all imports of quartz surface products from Malaysia. Specifically, Commerce set forth certification requirements for importers and exporters to permit imports from Malaysia produced from non-Chinese origin quartz slab not to be subject to suspension of liquidation and cash deposit requirements. In so doing, Commerce also determined that certain companies processing Chinese quartz slab in Malaysia, including Bada Industries, were ineligible to participate in this scope certification process.³ However, Commerce indicated that these companies, including Bada Industries, could request reconsideration of their exclusion from the certification process in a future segment of the proceeding (e.g., in a CCR).⁴

On May 11, 2023, Global Stone submitted a letter requesting that Commerce conduct a CCR to reconsider Bada Industries' eligibility for the certification process, such that Bada Industries can certify that the quartz surface products imported by Global Stone are not produced from Chinese-origin quartz slab.⁵ We received no comments from interested parties regarding the CCR Request.

Scope of the Orders

The products covered by the *Orders* are quartz surface products from China.⁶ The products subject to the scope are currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under the following subheading: 6810.99.0010. Subject merchandise may also enter under subheadings 6810.11.0010, 6810.11.0070, 6810.19.1200, 6810.19.1400, 6810.19.5000, 6810.91.0000, 6810.99.0080, 2506.10.0010, 2506.10.0050, 2506.20.0010, 2506.20.0080, and 7016.90.1050. Although the HTSUS numbers are provided for convenience and customs purposes, the written product description remains dispositive.

Initiation of CCR

Pursuant to section 751(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.216(d), Commerce conducts a CCR upon receipt of information concerning, or a request from, an interested party for a review of an AD or CVD order which shows changed circumstances sufficient to warrant a review of the order. The information Global Stone provided regarding Bada Industries' exports of quartz surface products demonstrates changed circumstances sufficient to warrant such a review.⁷ Therefore, we are initiating a CCR pursuant to section 751(b)(1) of the Act and 19 CFR 351.216(d) based upon the information contained in Global Stone's submission to determine whether Bada Industries is eligible to certify that its quartz surface products are not produced from Chinese-origin quartz slab.

Commerce will issue a questionnaire requesting additional information from Global Stone for this CCR regarding its quartz slab and will publish in the **Federal Register** a notice of the preliminary results, in accordance with 19 CFR 351.221(b)(4) and (c)(3)(i). All information submitted may be subject to verification. Failure to allow full and complete verification of any information submitted may affect Commerce's consideration of that information. Commerce will set forth its preliminary factual and legal conclusions in this notice and a description of any action proposed based on those results. Pursuant to 19 CFR 351.221(b)(4)(ii), interested parties will have an opportunity to comment on the preliminary results. Unless extended, Commerce will issue the final results of this CCR in accordance with the time limits set forth in 19 CFR 351.216(e).

Notification to Interested Parties

We are issuing this notice in accordance with sections 751(b)(1) and 777(i) of the Act and 19 CFR 351.216(b), and 351.221(b)(1).
