

LEO Order, was inadvertently omitted in the amended rules published in the **Federal Register** and sent for inclusion in the Code of Federal Regulations. The Commission subsequently amended § 25.136(a) to govern also earth station networks in the 2 GHz MSS band. *See* 65 FR 59140. In doing so, the failure to modify § 25.136(a) as ordered in the *Big LEO Order* was inadvertently carried over to the *2 GHz MSS Order*. This error is now corrected by revising § 25.136(a) to include aircraft cockpit communications as well as aircraft Cabin Communications, as originally ordered in the text of the *Big LEO Order*.

Second, the title of § 25.143 of the Commission's rules is corrected to include 2 GHz MSS systems in addition to 1.6/2.4 GHz MSS systems. The Commission ordered 2 GHz MSS systems to comply with § 25.143 as part of the 2 GHz MSS Order and amended § 25.143 to reflect this fact. These amendments were included in the final rules that were adopted in the 2 GHz MSS Order and published in the **Federal Register**. *See* 65 FR 59143. Although § 25.143 included 2 GHz MSS systems in the title when published in the *2 GHz MSS Order* and the **Federal Register**, the ordering language in the **Federal Register** inadvertently failed to include the necessary instructions to amend the title of § 25.143 to include 2 GHz MSS systems. *See id.* This omission is corrected by revising the title of § 25.143 to include 2 GHz MSS systems in addition to 1.6/2.4 GHz MSS systems.

Ordering Clause

Pursuant to § 0.261 of the Commission's rules, 47 CFR 0.261, §§ 25.136(a) and 25.143 of the Commission's rules, 47 CFR 25.136(a) and 25.143, *are corrected* as set forth further.
