

other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP may only be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information regarding the SRP process can be found online at https://floodsrp.org/pdfs/srp_fact_sheet.pdf.

The communities affected by the flood hazard determinations are provided in the table below. Any request for reconsideration of the

revised flood hazard determinations shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations will also be considered before the FIRM and FIS report are made final.

Correction

In the proposed flood hazard determination notice published at 90 FR 21942 in the May 22, 2025, issue of the **Federal Register**, FEMA published a table titled Carroll County, New Hampshire (All Jurisdictions). This table

omitted pertinent information as to the communities affected by the proposed flood hazard determinations—the Town of Ossipee should have been included. In this document, FEMA is publishing a table containing the accurate information. The information provided below should be used in lieu of that previously published.
