SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the U.S. Department of Homeland Security (DHS) U.S. Immigration and Customs Enforcement (ICE) is updating, renaming, and reissuing a DHS system of records now titled, “DHS/ICE-001 Student and Visitor Exchange Program (SEVP)” System of Records.

The DHS/ICE update to SEVIS, now SEVP, includes several changes. First, the system of records is being renamed to better align it with the purpose of the system. This system of records covers records on nonimmigrant students and exchange visitors, and their dependents, admitted to the United States under F, M, or J class of admission (hereinafter, “F/M/J nonimmigrants”), and the schools, designated program sponsors and host families that sponsor these individuals in the United States to ensure compliance with immigration laws and regulations and ensure their status is maintained. The SEVP coordinates with the Department of State (DOS), which oversees the operation of the U.S. Government’s Exchange Visitor (EV) Program, including the designation of EV Program sponsors, and supports the application

and admission of foreign nationals who seek entry into the United States as exchange visitors (e.g., research scholar, government visitor, au pair) under the J class of admission.

In addition, the SEVP oversees the certification of academic and vocational schools to authorize enrollment of F and M nonimmigrant students based on federal regulations, and provides guidance and training to school officials about the SEVP certification requirements to which schools must adhere to and the requirements that their nonimmigrant students must follow to maintain their status.

Second, this update seeks to clarify and better identify the types of individuals and entities contained in this expanded system of records. Some items in the categories of individuals section have been reorganized and edited to more clearly identify the individuals, as well as expanded to include new categories of individuals, such as employers, financial support providers, government bodies and personnel, host families, members of the public, school employees, school partners, and school and EV Program officials.

Third, DHS/ICE has modified and expanded the categories of records section to better identify the types of information contained in the system of records. The new categories of records include education, employment, financial, travel, immigration-related information, school, program sponsor, case-related information, auditing and training, reporting, and inquiries and data corrections.

Fourth, DHS/ICE is modifying Routine Use E and adding Routine Use F to conform to Office of Management and Budget (OMB) Memorandum M-17-12, “Preparing for and Responding to a Breach of Personally Identifiable Information” (Jan. 3, 2017). All following routine uses are being re-lettered to account for the additional routine uses.

Finally, DHS is proposing to eliminate several routine uses, modify several routine uses, and add two new routine uses that would allow ICE to share information from the SEVP system of records with the specified recipients for the specified purpose. Below is a summary of those routine uses and their corresponding letter.

(J) Routine Use J is being updated to include disclosures to parties to an administrative proceeding where DHS has an interest in the outcome. This modification eliminates the need for two routine uses previously identified as Routine Uses K and L, and
