Abstract of Information Available

In 1972, human remains representing, at minimum, one adult individual, were removed from 16AL2 (no state site name; LSUMNS name Church Point), in Allen Parish, Louisiana, by Robert Neuman and William Stroud during testing. The remains were limited to a single adult femur. No known individuals were identified. No associated funerary objects are present.

The LSUMNS has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- There is a reasonable connection between the human remains described in this notice and the Coushatta Tribe of Louisiana.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the authorized representative identified in this notice under

ADDRESSES. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

Repatriation of the human remains described in this notice to a requestor may occur on or after July 11, 2025. If competing requests for repatriation are received, the LSUMNS must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The LSUMNS is

responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.

DATES: Repatriation of the human remains and associated funerary objects in this notice may occur on or after July 11, 2025.

ADDRESSES: Send written requests for repatriation of the human remains and associated funerary objects in this notice to Dawn Scher Thomae, Curator of Anthropology Collections, Milwaukee Public Museum, 800 West Wells Street, Milwaukee, WI 53233, email *thomae@mpm.edu*.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Milwaukee Public Museum (MPM), and additional information on the determinations in this notice, including the results of consultation, can be found in its inventory or related records. The National Park Service is not responsible for the determinations in this notice.

Abstract of Information Available

Based on the information available, human remains representing at least

four individuals have been reasonably identified. The four associated funerary objects are one lot of mixed material containing ceramic sherds, celts, and a broken stone pipe; one ceramic vessel; one ceramic sherd; and one lot of two ceramic sherds.

The individuals and associated funerary objects were removed from the Pipe Site Complex, Fond du Lac County, WI, which consists of two sites: the Pipe Site (47FD0010) and Camp Shaginappi (47FD0013).

In August 1925, Mr. Robert Weeks excavated portions of a panther mound within Camp Shaginappi removing an individual and their associated funerary object, ceramic sherds that were later reconstructed as a vessel. The MPM obtained the associated funerary object in December 1925 and later purchased the individual in 1926. Between 1933–1934, associated funerary objects, which were sherds, celts, and a broken stone pipe, were removed from the Pipe Village Site by Maurice Scofield Thomson. They were donated to the MPM in 1979 by his widow. In 1960, Lee Parsons of the MPM Anthropology department removed partial remains of three individuals and one AFO, a ceramic sherd, from the Pipe Site. At an unknown date, associated funerary objects which include one lot of two ceramic sherds, were removed from the Pipe Site by J. Kirk Whaley of Milwaukee, Wisconsin. They were donated to the MPM in 1971.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is clearly identified by the information available about the human remains and associated funerary objects described in this notice.

Determinations

MPM has determined that:

- The human remains described in this notice represent the physical remains of four individuals of Native American ancestry.
- The four objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.

Repatriation of the human remains and associated funerary objects described in this notice to a requestor may occur on or after July 11, 2025. If competing requests for repatriation are received, the MPM must determine the most appropriate requestor prior to repatriation. Abstract of Information Available

A total of 97 cultural items consisting of ceramic bowls, ladles, mugs, and jars from Coconino and Navajo Counties, Arizona have been requested for repatriation. The unassociated funerary objects have been identified by a preponderance of the evidence as related to human remains, specific individuals, or families, or removed from a specific burial site or burial area of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.

- There is a connection between the cultural items described in this notice and the Hopi Tribe of Arizona.
