

document of March 13, 2020 (85 FR 14677) (FRL-10006-03). EPA is providing this additional extension of the comment period in response to requests for additional time for comment and self-identification.

In the January document, EPA published preliminary lists identifying manufacturers (including importers) that may be subject to fee obligations under 40 CFR 700.45, associated with each EPA-initiated risk evaluation of 20 High-Priority Substances under TSCA section 6. That document also announced that EPA was providing an opportunity for public comment during which manufacturers (including importers) are required to self-identify as a manufacturer (including importer) of a High-Priority Substance, irrespective of whether they are listed on the preliminary list. During the comment period, manufacturers and importers may make certain certifications to EPA under 40 CFR 700.45(b) to avoid or reduce fee obligations. The public also has the opportunity to correct errors or provide comments on the preliminary lists.

EPA is providing more than the minimum 30-day comment period established in the Fees Rule codified at 40 CFR 700.45(b)(4) to maximize public participation during the first comment period for an initial list of manufacturers (including importers) subject to fee obligations for EPA-initiated risk evaluations under TSCA section 6, and to provide more time for self-identification. EPA expects to publish final lists of manufacturers (including importers) subject to fees no later than concurrently with the publication of the final scope document for risk evaluations of the 20 High-Priority Substances. Manufacturers (including importers) identified on the final lists will be subject to applicable fees under 40 CFR 700.45.

To submit comments, or access the docket, please follow the detailed instructions provided under **ADDRESSES** in the **Federal Register** document of January 27, 2020 (85 FR 4661) (FRL-10003-14). If you have questions, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Availability of the Systematic Review Protocol for the Methylmercury Integrated Risk Information System (IRIS) Assessment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public comment period.

SUMMARY: The Environmental Protection Agency (EPA) is announcing a 45-day public comment period associated with release of the Systematic Review Protocol for the Methylmercury (MeHg) IRIS Assessment. This document communicates the rationale for conducting the assessment of methylmercury, describes screening criteria to identify relevant literature, outlines the approach for evaluating study quality, and describes the dose-response methods.

DATES: The 45-day public comment period begins May 28, 2020 and ends July 13, 2020. Comments must be received on or before July 13, 2020.

ADDRESSES: The Systematic Review Protocol for Methylmercury will be available via the internet on the IRIS website at <https://www.epa.gov/iris> and in the public docket at <https://www.regulations.gov>, Docket ID: EPA-HQ-ORD-2018-0655.

FOR FURTHER INFORMATION CONTACT:

For information on the docket, contact the ORD Docket at the EPA Headquarters Docket Center; telephone: 202-566-1752; facsimile: 202-566-9744; or email: Docket_ORD@epa.gov.

For technical information on the protocol, contact Dr. James Avery, Center for Public Health & Environmental Assessment; telephone: 202-564-1494; or email: avery.james@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background Information on the IRIS Program and Systematic Review Protocols

EPA's IRIS Program is a human health assessment program that evaluates quantitative and qualitative information on effects that may result from exposure to chemicals found in the environment. Through the IRIS Program, EPA provides high quality science-based human health assessments to support the Agency's regulatory activities and decisions to protect public health.

As part of developing a draft IRIS assessment, EPA presents a methods

document, referred to as the protocol, for conducting a chemical-specific systematic review of the available scientific literature. EPA is seeking public comment on components of the protocol including the described strategies for literature searches, criteria for study inclusion or exclusion, considerations for evaluating study methods, information management for extracting data, approaches for synthesis within and across lines of evidence, and methods for derivation of toxicity values. Additionally, key scientific issues that warrant consideration in this assessment are identified in Section 2.5. The protocol serves to inform the subsequent development of the draft assessment and is made available to the public. EPA may update the protocol based on the evaluation of the literature, and any updates will be posted to the docket and on the IRIS website.

II. How To Submit Technical Comments to the Docket at <http://www.regulations.gov>

Submit your comments, identified by Docket ID No. EPA-HQ-ORD-2018-0655 for methylmercury, by one of the following methods:

- <https://www.regulations.gov>: Follow the on-line instructions for submitting comments.
- **Email:** Docket_ORD@epa.gov.
- **Fax:** 202-566-9744. Due to COVID-19, there may be a delay in processing comments submitted by fax.
