DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA-2019-0002; Internal Agency Docket No. FEMA-B-1958]

Changes in Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This notice lists communities where the addition or modification of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or the regulatory floodway (hereinafter referred to as flood hazard determinations), as shown on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports, prepared by the Federal Emergency Management Agency (FEMA) for each community, is appropriate because of new scientific or technical data. The FIRM, and where applicable, portions of the FIS report, have been revised to reflect these flood hazard determinations through issuance of a Letter of Map Revision (LOMR), in accordance with Federal Regulations. The LOMR will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents of those buildings. For rating purposes, the currently effective community number is shown in the table below and must be used for all new policies and renewals.

DATES: These flood hazard determinations will be finalized on the dates listed in the table below and

revise the FIRM panels and FIS report in effect prior to this determination for the listed communities.

From the date of the second publication of notification of these changes in a newspaper of local circulation, any person has 90 days in which to request through the community that the Deputy Associate Administrator for Insurance and Mitigation reconsider the changes. The flood hazard determination information may be changed during the 90-day period.

ADDRESSES: The affected communities are listed in the table below. Revised flood hazard information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

Submit comments and/or appeals to the Chief Executive Officer of the community as listed in the table below.

FOR FURTHER INFORMATION CONTACT: Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbibit@fema.dhs.gov; or visit the FEMA Map Information eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The specific flood hazard determinations are not described for each community in this notice. However, the online location and local community map repository address where the flood hazard determination information is available for inspection is provided.

Any request for reconsideration of flood hazard determinations must be submitted to the Chief Executive Officer of the community as listed in the table below.

The modifications are made pursuant to section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other

Federal, State, or regional entities. The flood hazard determinations are in accordance with 44 CFR 65.4.

The affected communities are listed in the following table. Flood hazard determination information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are

accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-6146-N-08]

Privacy Act of 1974; System of Records

AGENCY: Office of Chief Information Officer, U.S. Department of Housing and Urban Development.

ACTION: Notice of amended Privacy Act System of Records.

SUMMARY: In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Housing and Urban Development, Office of Chief Information Officer, is giving notice that it intends to amend one of its systems of records published in the **Federal Register**, FR-6009-N-02. This update expands the existing system of records notice to authorize HUD's Enterprise Data Management (EDM) to collect and maintain information for mandatory transparency reporting requirements, such as the Federal Funding Accountability and Transparency Act (FFATA) and the Digital Accountability and Transparency Act (DATA Act). HUD is continuing to upgrade its data management, data warehousing, data mining and data security capabilities from current outdated legacy databases to the EDM platform.

SUPPLEMENTARY INFORMATION: In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, in June 2017, the Department of Housing and Urban Development (HUD) Office of Chief Information Officer (OCIO) established a new HUD system of records titled, "Enterprise Data Management (EDM) System of Records." This system of records is operated by HUD's OCIO, and it will be developed in several phases. The initial phase included personally identifiable information (PII) about borrowers of Federal Housing Administration (FHA)-insured single-family mortgages, employees of FHA-approved lending institutions, third-parties associated with FHA/HUD transactions such as appraisers and HUD personnel associated with single family transactions.

OCIO has established an EDM environment, which includes a modern "Data Lake"; a centralized data environment to onboard HUD data for use in analytical reporting. The EDM also serves as the centralized environment for systems to consume data from HUD systems (eliminating point to point interfaces). In accordance with Section 203, National Housing Act, Public Law 73-479; and 42 U.S.C. 3543, titled "Preventing fraud and abuse in Department of Housing and Urban Development programs" enacted as part of the Housing and Community Development Act of 1987, the EDM and data lake enables HUD data consumers to gain new insights that will allow HUD to better identify trends and previously unknown risk drivers, thus strengthening its risk management and fraud prevention framework.

EDM extracts data from multiple source systems for analysis and reporting. EDM provides query and reporting tools that aid in supporting HUD's oversight activities, market and economic assessment, public and stakeholder communication, financial and transparency reporting, planning and performance evaluation, policies and guidelines promulgation, and monitoring and enforcement. Making data available from the HUD source systems will involve Data Extraction, Transformation, and Load (ETL) into the EDM environment. The type of HUD

source system (e.g., mainframe, relational database management system (RDBMS), hierarchical) will determine the approach and the tools that will be used to extract the data. EDM extracts data from multiple source systems for analysis and reporting. The following lists the type of information collected from Source Systems for the initial phase of EDM:

- *Mortgagors:* Name, addresses, date of birth, social security number, and racial/ethnic background (if disclosed) which are supplied by lenders through Automated Underwriting Systems during the mortgage application and underwriting process.

- *Parties Involved with Transaction:* Name, addresses, and identifying numbers which are supplied by the lender or the individual.

- *Mortgage Details:* Data regarding current and former FHA insured mortgages which includes underwriting data, such as: Loan-to-value ratios and expense ratios; original terms, such as: Mortgage amount, interest rate, term in months; status of the mortgage insurance; and history.

- Aggregated measures of the data stated above to enable statistical reporting and analysis of trends.

The following lists the type of information collected and maintained for the update of EDM to support transparency reporting requirements, such as FFATA and the DATA Act:

- Summary Financial Information—Treasury Account Symbols, United States Standard General Ledger (USSGL) Account Balances, Program Activity Codes and Names, and Budget Object Class Codes.

- Award Financial Information—Parent Award Identification Numbers, Procurement Instrument Identification Numbers, Contract Obligation and De-obligation Amounts.

- Procurement Information—Award Recipients, Recipient Address Information, and other Demographic Indicators sourced from the Federal Procurement Data System (FPDS).

- DATA Act Review and Submission Data—DATA Act Broker Submission ID, Warning and Error Codes, HUD Review Details (Timestamp, Reviewer ID).
