[Docket No. 70-3103; NRC-2010-0264]

Uranium Enrichment Fuel Cycle Inspection Reports Regarding Louisiana Energy Services, National Enrichment Facility, Eunice, New Mexico, Prior to the Commencement of Operations

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT:

Michael Raddatz, Project Manager, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Rockville, Maryland 20852; telephone: 301-492-3108; email: Michael.Raddatz@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) staff has conducted inspections of the Louisiana Energy Services (LES), LLC, National Enrichment Facility in Eunice, New Mexico, and has authorized the introduction of uranium hexafluoride (UF₆) into cascades numbered 2.9, 2.10, 2.11, 2.12, 3.1, 3.2, 3.3, 3.4, 3.5, 3.6, 3.7, 3.8, and 3.9. In addition, the NRC verified that the Phase 2a and Chemistry Laboratory of the Cylinder Receipt and Dispatch Building (CRDB) of the facility have been constructed in accordance

with the requirements of the approved license. Phase 2a included the CRDB Civil Structure and CRDB shell operations such as: movement of cylinders; fire walls; transient combustible inspections; cylinder movers; and worker evacuation. The NRC staff has prepared inspection reports documenting its findings in accordance with the requirements of the NRC Inspection Manual, and these reports are available for review as specified in Section II of this notice. The publication of this notice satisfies the requirements of Section 70.32(k) of Title 10 of the *Code of Federal Regulations* (10 CFR), and section 193(c) of the Atomic Energy Act of 1954, as amended.

The introduction of UF₆ into any module of the National Enrichment Facility is not permitted until the NRC completes an operational readiness and management measures verification review to verify that management measures that ensure compliance with the performance requirements of 10 CFR 70.61 have been implemented and confirms that the facility has been constructed in accordance with the license and will be operated safely. Subsequent operational readiness and management measures verification reviews will continue throughout the various phases of plant construction and, upon completion of these subsequent phases, additional notices of the operation approval letters will be published in the **Federal Register** in accordance with 10 CFR 70.32(k).

BILLING CODE 7590-01-P

OFFICE OF PERSONNEL MANAGEMENT

Privacy Act of 1974: New System of Records

AGENCY: U.S. Office of Personnel Management (OPM).

ACTION: Notice of amendment to system of records.

SUMMARY: OPM has amended an existing system of records subject to the Privacy Act of 1974 (5 U.S.C. 552a) to reflect the fact that the Office of Planning and Policy Analysis (PPA) is receiving Federal Employees Health Benefits Program (FEHBP) Health Claims data directly from some FEHBP carriers, and processing and analyzing this data within OPM. PPA is developing the alternative data intake process to

acquire data from plans and/or carriers that are outside of the scope of existing OPM systems.

DATES: This action will be effective without further notice on May 20, 2013 unless comments are received that would result in a contrary determination.

ADDRESSES: Send written comments by mail to the Office of Personnel Management, ATTN: Dennis Hardy, PMP, HCDW Project Manager, U. S. Office of Personnel Management, 1900 E Street NW., Room 2340A, Washington, DC 20415, or by email to dennis.hardy@opm.gov.

FOR FURTHER INFORMATION CONTACT: Dennis Hardy, PMP, HCDW Project Manager, 202-606-4281.

SUPPLEMENTARY INFORMATION: The Office of Planning and Policy Analysis, in cooperation with the OPM/Chief Information Officer (CIO), is implementing an alternate data intake and transformation infrastructure within the OPM environment to allow OPM to develop, process, and analyze this additional data in an expeditious manner. This alternate infrastructure, which is a scaled down version of the Health Claims Data Warehouse (HCDW) system, also provides a "hot site" disaster recovery capability should the primary environment be unavailable for data processing and/or analysis. This alternate infrastructure is easily scalable to support the demands of OPM. In addition to building the alternative data intake process, PPA will continue to receive carrier information from OPM's Office of Inspector General (OIG). The carrier data will be transmitted securely from the physically secured servers managed by OIG to the secure data intake infrastructure managed by OPM's OCIO. In total, PPA will be receiving

data from nine plans and/or carriers. This action is necessary to meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the Agency (5 U.S.C. 552a(e)(4)). OPM first published a system of records notice pertaining to the Health Claims Data Warehouse on October 5, 2010, with the comment period closing November 15, 2010. On November 15, 2010, OPM extended the comment period to December 15, 2010, and indicated its intent to modify certain aspects of the system of records notice. On December 15, 2010, OPM published a notice closing the comment period. Based on the comments received during the comment period, OPM issued a revised notice that, among other things, limited the scope of the system to information pertaining to FEHBP, significantly narrowed the circumstances under which routine use disclosures will be made from the system, clarified that only de-identified data will be released outside of OPM, provided greater detail regarding OPM authorities for maintaining the system, and further described systems security measures that will be taken to protect the records.

The purpose of this system of records is to provide a central database from which OPM may analyze costs and utilization of services associated with FEHBP to ensure the best value for both enrollees and taxpayers. OPM collects, manages, and analyzes health services data that health insurers and administrators provide through secure data transfer for the program. OPM's analysis of the data includes the cost of care, utilization of services, and quality of care for specific population groups, geographic areas, health plans, health care providers, disease conditions, and
