## DEPARTMENT OF EDUCATION

[Docket No.: ED–2016–ICCD–0105]

### Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Student Assistance General Provisions—Subpart J—Approval of Independently Administered Tests

**AGENCY:** Department of Education (ED),  
Federal Student Aid (FSA).

**ACTION:** Notice.

**SUMMARY:** In accordance with the  
Paperwork Reduction Act of 1995, ED is  
proposing an extension of an existing  
information collection.

**DATES:** Interested persons are invited to  
submit comments on or before January  
3, 2017.

**ADDRESSES:** To access and review all the  
documents related to the information  
collection listed in this notice, please  
use <http://www.regulations.gov> by  
searching the Docket ID number ED–  
2016–ICCD–0105. Comments submitted  
in response to this notice should be  
submitted electronically through the  
Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the  
Docket ID number or via postal mail,  
commercial delivery, or hand delivery.  
*Please note that comments submitted by  
fax or email and those submitted after  
the comment period will not be  
accepted.* Written requests for  
information or comments submitted by  
postal mail or delivery should be  
addressed to the Director of the  
Information Collection Clearance  
Division, U.S. Department of Education,  
400 Maryland Avenue SW., LBJ, Room  
2E–347, Washington, DC 20202–4537.  
**FOR FURTHER INFORMATION CONTACT:** For  
specific questions related to collection  
activities, please contact Beth  
Grebeldinger, 202–377–4018.

**SUPPLEMENTARY INFORMATION:** The  
Department of Education (ED), in  
accordance with the Paperwork  
Reduction Act of 1995 (PRA) (44 U.S.C.  
3506(c)(2)(A)), provides the general  
public and Federal agencies with an

opportunity to comment on proposed,  
revised, and continuing collections of  
information. This helps the Department  
assess the impact of its information  
collection requirements and minimize  
the public's reporting burden. It also  
helps the public understand the  
Department's information collection  
requirements and provide the requested  
data in the desired format. ED is  
soliciting comments on the proposed  
information collection request (ICR) that  
is described below. The Department of  
Education is especially interested in  
public comment addressing the  
following issues: (1) Is this collection  
necessary to the proper functions of the  
Department; (2) will this information be  
processed and used in a timely manner;  
(3) is the estimate of burden accurate;  
(4) how might the Department enhance  
the quality, utility, and clarity of the  
information to be collected; and (5) how  
might the Department minimize the  
burden of this collection on the  
respondents, including through the use  
of information technology. Please note  
that written comments received in  
response to this notice will be  
considered public records.

*Title of Collection:* Student Assistance  
General Provisions—Subpart J—  
Approval of Independently  
Administered Tests.

*OMB Control Number:* 1845–0049.

*Type of Review:* An extension of an  
existing information collection.

*Respondents/Affected Public:* State,  
Local, and Tribal Governments;  
Individuals or Households; Private  
Sector.

*Total Estimated Number of Annual  
Responses:* 48,779.

*Total Estimated Number of Annual  
Burden Hours:* 6,340.

*Abstract:* This request is for revision  
of the approval of the reporting and  
record-keeping requirements that are  
contained in the information collection  
1845–0049 for Student Assistance  
General Provision regulations Subpart  
J—Approval of Independently  
Administered Tests; Specification of  
Passing Score; Approval of State  
Process. These regulations govern the  
application for and approval by the  
Secretary of assessments by a private  
test publisher or State that are used to  
measure a student's skills and abilities.  
The administration of approved ability  
to benefit (ATB) tests may be used to  
determine a student's eligibility for  
assistance for the Title IV student  
financial assistance programs  
authorized under the Higher Education  
Act of 1965, as amended (HEA) when,  
among other conditions, the student  
does not have a high school diploma or  
its recognized equivalent. The language

of the current regulations has not  
changed.

Dated: November 29, 2016.

**Kate Mullan,**  
Acting Director, Information Collection  
Clearance Division, Office of the Chief Privacy  
Officer, Office of Management.

BILLING CODE 4000–01–P

## DEPARTMENT OF ENERGY

### Office of Energy Efficiency and Renewable Energy

[Case No. DW–012]

### Notice of Petition for Waiver of Miele Incorporated From the Department of Energy Dishwashers Test Procedures and Grant of Interim Waiver

**AGENCY:** Office of Energy Efficiency and  
Renewable Energy, Department of  
Energy.

**ACTION:** Notice of petition for waiver and  
grant of interim waiver, and request for  
public comment.

**SUMMARY:** This notice announces receipt  
of and publishes a petition for waiver  
from Miele Incorporated (Miele) seeking  
an exemption from specified portions of  
the U.S. Department of Energy (DOE)  
test procedure for determining the  
energy consumption of dishwashers that  
operate at 208 volts under Title 10 of the  
Code of Federal Regulations (CFR) part  
430, subpart B, appendix C1. Section 2.2  
of appendix C1 has provisions for  
testing at 115 and 240 volts only.  
Consequently, Miele submitted to DOE  
an alternate test procedure that allows  
for testing of one specified basic model  
at 208 volts. This notice also announces  
that DOE has granted Miele an interim  
waiver from the DOE dishwasher test  
procedure for the specified dishwasher  
basic model, subject to use of the  
alternative test procedure as set forth in  
this notice. DOE solicits comments,  
data, and information concerning  
Miele's petition and its suggested  
alternate test procedure.

**DATES:** DOE will accept comments, data,  
and information with regard to the  
Miele petition until January 3, 2017.

**ADDRESSES:** You may submit comments,  
identified by Case Number DW–012, by  
any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the  
instructions for submitting comments.

- *Email:* [AS\\_Waiver\\_Requests@ee.doe.gov](mailto:AS_Waiver_Requests@ee.doe.gov). Include the case number  
[Case No. DW–012] in the subject line  
of the message. Submit electronic  
comments in WordPerfect, Microsoft

Word, PDF, or ASCII file format, and avoid the use of special characters or any form of encryption.

- *Postal Mail:* Mr. Bryan Berringer, U.S. Department of Energy, Building Technologies Office, Mailstop EE-5B, Petition for Waiver Case No. DW-012, 1000 Independence Avenue SW., Washington, DC 20585-0121. Telephone: (202) 586-0371. If possible, please submit all items on a compact disc (CD), in which case it is not necessary to include printed copies.

- *Hand Delivery/Courier:* Appliance and Equipment Standards Program, U.S. Department of Energy, Building Technologies Office, 950 L'Enfant Plaza SW., 6th Floor, Washington, DC 20024. Telephone: (202) 586-6636. If possible, please submit all items on a CD, in which case it is not necessary to include printed copies.

**Docket:** The docket, which includes **Federal Register** notices, comments, and other supporting documents/materials, is available for review at [www.regulations.gov](http://www.regulations.gov). All documents in the docket are listed in the [www.regulations.gov](http://www.regulations.gov) index. However, some documents listed in the index, such as those containing information that is exempt from public disclosure, may not be publicly available.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Bryan Berringer, U.S. Department of Energy, Building Technologies Office, Mailstop EE-5B, 1000 Independence Avenue SW., Washington, DC 20585-0121. Telephone: (202) 586-0371. Email: [Bryan.Berringer@ee.doe.gov](mailto:Bryan.Berringer@ee.doe.gov).

Ms. Elizabeth Kohl, U.S. Department of Energy, Office of the General Counsel, GC-33, 1000 Independence Avenue SW., Washington, DC 20585-0121. Telephone: (202) 586-7796. Email: [Elizabeth.Kohl@hq.doe.gov](mailto:Elizabeth.Kohl@hq.doe.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Background and Authority

Title III, Part B<sup>1</sup> of the Energy Policy and Conservation Act of 1975 (EPCA), Public Law 94-163 (42 U.S.C. 6291-6309, as codified) established the Energy Conservation Program for Consumer Products Other Than Automobiles, a program that includes the dishwashers that are the focus of this notice.<sup>2</sup> Part B includes definitions, test procedures, labeling provisions, energy conservation standards, and the authority to require information and reports from manufacturers. Further,

Part B authorizes the Secretary of Energy to prescribe test procedures that are reasonably designed to produce results that measure energy efficiency, energy use, or estimated operating costs during a representative average-use cycle, and that are not unduly burdensome to conduct. (42 U.S.C. 6293(b)(3)) The test procedure for dishwashers is contained in Title 10 of the CFR part 430, subpart B, appendix C1, *Uniform Test Method for Measuring the Energy Consumption of Dishwashers*.

DOE's regulations set forth at 10 CFR 430.27 contain provisions that allow a person to seek a waiver from the test procedure requirements for a particular basic model of a type of covered consumer product when: (1) The petitioner's basic model for which the petition for waiver was submitted contains one or more design characteristics that prevent testing according to the prescribed test procedure, or (2) the prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption characteristics as to provide materially inaccurate comparative data. 10 CFR 430.27(a)(1). A petitioner must include in its petition any alternate test procedures known to the petitioner to evaluate the basic model in a manner representative of its energy consumption. 10 CFR 430.27(b)(1)(iii).

DOE may grant a waiver subject to conditions, including adherence to alternate test procedures. 10 CFR 430.27(f)(2). As soon as practicable after the granting of any waiver, DOE will publish in the **Federal Register** a notice of proposed rulemaking to amend its regulations so as to eliminate any need for the continuation of such waiver. As soon thereafter as practicable, DOE will publish in the **Federal Register** a final rule. 10 CFR 430.27(l).

The waiver process also allows DOE to grant an interim waiver if it appears likely that the petition for waiver will be granted and/or if DOE determines that it would be desirable for public policy reasons to grant immediate relief pending a determination on the petition for waiver. 10 CFR 430.27(e)(2). Within one year of issuance of an interim waiver, DOE will either: (i) Publish in the **Federal Register** a determination on the petition for waiver; or (ii) publish in the **Federal Register** a new or amended test procedure that addresses the issues presented in the waiver. 10 CFR 430.27(h)(1). When DOE amends the test procedure to address the issues presented in a waiver, the waiver will automatically terminate on the date on which use of that test procedure is

required to demonstrate compliance. 10 CFR 430.27(h)(2).

##### II. Petition for Waiver of Test Procedure and Application for Interim Waiver

On July 13, 2016, Miele filed a petition for waiver and application for interim waiver from the test procedure applicable to dishwashers set forth in 10 CFR part 430, subpart B, appendix C1. Miele has designed a dishwasher that runs on an electrical supply voltage of 208 volts. The existing test procedure under section 2.2 of 10 CFR part 430, subpart B, appendix C1 has provisions for testing at 115 and 240 volts only. In its petition for waiver, Miele submitted to DOE an alternate test procedure that allows for testing of one specified basic model at 208 volts.

DOE granted a petition for waiver submitted for the previous design generation of Miele dishwasher rated for 208 volts (Case No. DW-006) on December 27, 2011 as a waiver from the applicable residential dishwasher test procedure in 10 CFR part 430, subpart B, appendix C for certain basic models of dishwashers with a 208 volt supply voltage, provided that Miele tests and rates such products using the alternate test procedure described in the petition. 76 FR 80920.

As previously noted, an interim waiver may be granted if it appears likely that the petition for waiver will be granted, and/or if DOE determines that it would be desirable for public policy reasons to grant immediate relief pending a determination of the petition for waiver. See 10 CFR 430.27(e)(2).

DOE understands that absent an interim waiver, the basic model identified by Miele in its petition cannot be tested and rated for energy consumption on a basis representative of their true energy consumption characteristics. DOE has reviewed the alternate procedure suggested by Miele and concludes that it will allow for the accurate measurement of the energy use of these products, while alleviating the testing problems associated with Miele's implementation of dishwasher testing. Consequently, DOE has determined that Miele's petition for waiver will likely be granted and has decided that it is desirable for public policy reasons to grant Miele immediate relief pending a determination on the petition for waiver. Miele requests to use an alternate test procedure that would follow the test procedure for dishwashers prescribed by DOE at 10 CFR part 430, subpart B, appendix C1 with a modification of section 2.2 for dishwashers that operate with an electrical supply of 208 volts.

<sup>1</sup> For editorial reasons, upon codification in the U.S. Code, Part B was redesignated as Part A.

<sup>2</sup> All references to EPCA in this document refer to the statute as amended through the Energy Efficiency Improvement Act of 2015 (EEIA), Public Law 114-11 (April 30, 2015).

### III. Summary of Grant of Interim Waiver

For the reasons stated above, DOE has granted Miele's application for interim waiver from testing for its specified dishwasher basic model. The substance of the interim waiver is summarized below.

Miele is required to test and rate Miele dishwasher basic model PG8056–208V according to the alternate test procedure as set forth in section IV, “Alternate Test Procedure.”

Miele is permitted to make representations about the energy use of this basic model for compliance, marketing, or other purposes only to the extent that such products have been tested in accordance with the provisions set forth in the alternate test procedure and such representations fairly disclose the results of such testing in accordance with 10 CFR 429.19.

DOE makes decisions on waivers and interim waivers for only those basic models specifically set out in the petition, not future models that may be manufactured by the petitioner. Miele may request that DOE extend the scope of a waiver or an interim waiver to include additional basic models employing the same technology as the basic model(s) set forth in the original petition consistent with 10 CFR 430.27(g). In addition, DOE notes that granting of an interim waiver or waiver does not release a petitioner from the certification requirements set forth at 10 CFR part 429. See also 10 CFR 430.27(a) and (i).

The interim waiver shall remain in effect consistent with 10 CFR 430.27(h). Furthermore, this interim waiver is conditioned upon the presumed validity of statements, representations, and documents provided by the petitioner. DOE may rescind or modify a waiver or interim waiver at any time upon a determination that the factual basis underlying the petition for waiver or interim waiver is incorrect, or upon a determination that the results from the alternate test procedure are unrepresentative of the basic model's true energy consumption characteristics. See 10 CFR 430.27(k).

### IV. Alternate Test Procedure

EPCA requires that manufacturers use DOE test procedures when making representations about the energy consumption and energy consumption costs of products and equipment covered by the statute. (42 U.S.C. 6293(c); 6314(d)) Consistent representations about the energy efficiency of covered products and equipment are important for consumers

evaluating products when making purchasing decisions and for manufacturers to demonstrate compliance with applicable DOE energy conservation standards. Pursuant to its regulations applicable to waivers and interim waivers from applicable test procedures at 10 CFR 430.27, and after considering public comments on the petition, DOE will announce its decision as to an alternate test procedure for Miele in a subsequent Decision and Order.

During the period of the interim waiver granted in this notice, Miele shall test the basic model listed in section III according to the test procedure for dishwashers prescribed by DOE at 10 CFR part 430, subpart B, appendix C1, except that Miele must use section 2.2 of appendix C1 with the modification set forth below:

*Dishwashers that operate with an electrical supply of 208 volts.* Maintain the electrical supply to the dishwasher at 208 volts  $\pm$ 2 percent and within 1 percent of its nameplate frequency as specified by the manufacturer. Maintain a continuous electrical supply to the unit throughout testing, including the preconditioning cycles, specified in section 2.9 of this appendix, and in between all test cycles.

### V. Summary and Request for Comments

Through this notice, DOE announces receipt of Miele's petition for waiver from the DOE test procedure for certain basic models of Miele dishwasher, and announces DOE's decision to grant Miele an interim waiver from the test procedure for its dishwasher. DOE is publishing Miele's petition for waiver in its entirety, pursuant to 10 CFR 430.27(b)(1)(iv). The petition contains no confidential information. The petition includes a suggested alternate test procedure to determine the energy consumption of its dishwasher. DOE will consider public comments on the petition in issuing its Decision and Order.

DOE solicits comments from interested parties on all aspects of the petition, including the suggested alternate test procedure and calculation methodology. Pursuant to 10 CFR 430.27(d), any person submitting written comments to DOE must also send a copy of such comments to the petitioner. The contact information for the petitioner is Steve Polinski, Senior Manager Regulatory Affairs, Miele Incorporated, 9 Independence Way, Princeton, New Jersey 08540. All comment submissions must include the agency name and Case Number DW–012 for this proceeding. Submit electronic comments in WordPerfect, Microsoft

Word, Portable Document Format (PDF), or text (American Standard Code for Information Interchange (ASCII)) file format and avoid the use of special characters or any form of encryption. Wherever possible, include the electronic signature of the author. DOE does not accept telefacsimiles (faxes).

Pursuant to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit two copies to DOE: One copy of the document marked “confidential” with all of the information believed to be confidential included, and one copy of the document marked “non-confidential” with all of the information believed to be confidential deleted. DOE will make its own determination about the confidential status of the information and treat it according to its determination.

Issued in Washington, DC, on November 22, 2016.

**Re: Application for Interim Waiver and Petition for Waiver, 10 C.F.R. 430 Subpart B, Appendix C1—Uniform Test Method For Measuring Energy Consumption of Dishwashers**

Miele Inc. is submitting this Application for Interim Waiver and Petition for Waiver of the Department of Energy's test procedure pursuant to 10 CFR 430.27, to the Department of Energy concerning the test procedure found in 10 CFR 430, Subpart B, Appendix C1 for measuring energy consumption of dishwashers specifically the Miele PG8056–208V.

The request for this waiver is focused on the testing voltages specified in the existing test procedure found in Section 2.2.

**2.2.1 Dishwashers that operate with an electrical supply of 115 volts.** Maintain the electrical supply to the dishwasher at 115 Volts  $\pm$ 2 percent and within 1 percent of the nameplate frequency as specified by the manufacturer.

**2.2.2 Dishwashers that operate with an electrical supply of 240 Volts.** Maintain the electrical supply to the dishwasher at 240 volts  $\pm$ 2 percent and within 1 percent of its nameplate frequency as specified by the manufacturer.

Currently there is no provision to test dishwashers using 208 Volts. There are many instances where only 208 Volts are provided to the consumer. Dishwashers rated at 240 Volts would not allow the proper operation of a dishwasher when connected to a 208 Volt supply. To achieve the data plate rating, appropriate voltage components are used in the design of the 208 Volt dishwashers.

The proposed test procedure would allow for a variation in electrical supply voltage to 208 Volts based on the electrical safety test data plate rating. In the case of the PG8056–208V, a rating of 208 Volts  $\pm 2$  percent and within 1 percent of its nameplate frequency as specified by the manufacturer would be used to perform the energy test.

Miele requests immediate relief by grant of the proposed interim waiver, justified by the following reasons:

**Economic Hardship.** Since the Miele PG8056–208V dishwasher is intended to be sold in applications where 240 volts power supply is not available to the consumer, denial of this Application for Interim Waiver and Petition for Waiver would eliminate the possibility of high performance dishwasher sales where a compatible voltage is not present. This will also greatly affect sales of all other Miele product categories where consumers most frequently choose one brand of appliance for their home.

**Acceptance of Predicate Model** A Petition for Waiver submitted for the previous design generation of Miele dishwasher rated for 208 volts, (Case No. DW–006) was granted by the DOE on December 27, 2011 as a waiver from the applicable residential dishwasher test procedure in 10 CFR part 430, subpart B, appendix C for certain basic models of dishwashers with a 208 volt supply voltage, provided that Miele tests and rates such products using the alternate test procedure described in the petition.

**Public Policy Merits.** The public policy benefits of encouraging business success and fostering innovation in high performance dishwasher design are additional reasons for prompt approval of the requested interim waiver.

We hereby certify that all dishwasher manufacturers of domestically-marketed units known to Miele Inc. have been notified by letter of this application, copies of which are attached.

Thank you for your timely attention to this Application for Interim Waiver and Petition for Waiver.

## DEPARTMENT OF ENERGY

### Office of Energy Efficiency and Renewable Energy

[Case No. CW–027]

#### Notice of Petition for Waiver of Samsung Electronics America, Inc. From the Department of Energy Clothes Washer Test Procedure, and Grant of Interim Waiver

**AGENCY:** Office of Energy Efficiency and Renewable Energy, Department of Energy.

**ACTION:** Notice of petition for waiver, notice of grant of interim waiver, and request for comments.

**SUMMARY:** This notice announces receipt of a petition for waiver from Samsung Electronics America, Inc. (Samsung) seeking an exemption from specified portions of the U.S. Department of Energy (DOE) test procedure for determining the energy consumption of residential clothes washers. Samsung seeks to use an alternate test procedure to address certain issues involved in testing one clothes washer basic model, as identified in its petition, with a container volume between 6.0 cubic feet and 8.0 cubic feet. Samsung contends the basic model cannot be accurately tested using the currently applicable DOE test procedure. DOE solicits comments, data, and information concerning Samsung's petition and its suggested alternate test procedure. This notice also grants Samsung an interim waiver from the residential clothes washer test procedure for the specified basic model, subject to use of the alternative test procedure set forth in this notice.

**DATES:** DOE will accept comments, data, and information with respect to the Samsung petition until January 3, 2017.

**ADDRESSES:** You may submit comments, identified by Case Number CW–027, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Email:* AS Waiver Requests@ee.doe.gov. Include “Case No. CW–027” in the subject line of the message.

- *Mail:* Mr. Bryan Berringer, U.S. Department of Energy, Building Technologies Office, Mailstop EE–5B,

Petition for Waiver Case No. CW–027, 1000 Independence Avenue SW., Washington, DC 20585–0121.

Telephone: (202) 586–0371. If possible, please submit all items on a compact disc (CD), in which case it is not necessary to include printed copies.

- *Hand Delivery/Courier:* Appliance and Equipment Standards Program, U.S. Department of Energy, Building Technologies Office, 950 L'Enfant Plaza SW., 6th Floor, Washington, DC 20024. Telephone: (202) 586–6636. If possible, please submit all items on a CD, in which case it is not necessary to include printed copies.

*Docket:* The docket, which includes Federal Register notices, comments, and other supporting documents/materials, is available for review at [www.regulations.gov](http://www.regulations.gov). All documents in the docket are listed in the [www.regulations.gov](http://www.regulations.gov) index. However, some documents listed in the index, such as those containing information that is exempt from public disclosure, may not be publicly available.
