

How to re-balance the current mix of Active, Reserve and Guard components into and across any and all mission functions;

Whether, and if so how, to reorganize the Air Force Active, Reserve and National Guard into less than 3 components;

Can the Air Force move to a periodic readiness schedule without creating a "hollow force;"

Does component "ownership" of aircraft matter anymore and how can the Associate Unit paradigm be adapted to the future;

Approaching future force integration of new systems capabilities by means of a Concurrent Proportional resourcing method across the components to replace today's priority of equipping the Active Component first;

Accelerating the adoption of a "Continuum of Service" model to facilitate the ability of Airmen to move from any component into another at multiple points in their career path without prejudice; Enhancing the total force through equalized opportunities across the components for professional and technical education and shared experiences.

Meeting Accessibility: In accordance with section 10(d) of the FACA, 5 U.S.C. 552b, and 41 CFR 102-3.155, the DoD has determined that the meeting that was scheduled for November 5, 2013 will be closed to the public in its entirety. Specifically, the Director of Administration and Management, with the coordination of the DoD FACA Attorney, has determined in writing that this meeting will be closed to the public because it will discuss classified information and matters covered by 5 U.S.C. 552b(c)(1).

Written Comments: Pursuant to 41 CFR 102-3.105(j) and 102-3.140 and section 10(a)(3) of the FACA, the public or interested organizations may submit written comments to the Commission in response to the stated agenda of the open and/or closed meeting or the Commission's mission. The Designated Federal Officer (DFO) will review all submitted written statements before forwarding to the Commission. Written comments should be submitted to Mrs. Marcia Moore, DFO, via facsimile or electronic mail, the preferred modes of submission. Each page of the comment must include the author's name, title or affiliation, address, and daytime phone number. All contact information may be found in the **FOR FURTHER INFORMATION CONTACT** section. While written comments are forwarded to the Commissioners upon receipt, note that

all written comments on the Commission's charge, as described in the 'Background' section, must be received by November 29, 2013, and postmarked by November 8, 2013 if mailed, to be considered by the Commissioners for the final report.

Due to difficulties finalizing the meeting agenda for the scheduled meeting of the National Commission on the Structure of the Air Force for November 5, 2013, the requirements of 41 CFR 102-3.150(a) were not met. Accordingly, the Advisory Committee Management Officer for the Department of Defense, pursuant to 41 CFR 102-3.150(b), waives the 15-calendar day notification requirement.

Background

The National Commission on the Structure of the Air Force was established by the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239). The Department of Defense sponsor for the Commission is the Director of Administration and Management, Mr. Michael L. Rhodes. The Commission is tasked to submit a report, containing a comprehensive study and recommendations, by February 1, 2014 to the President of the United States and the Congressional defense committees. The report will contain a detailed statement of the findings and conclusions of the Commission, together with its recommendations for such legislation and administrative actions it may consider appropriate in light of the results of the study. The comprehensive study of the structure of the U.S. Air Force will determine whether, and how, the structure should be modified to best fulfill current and anticipated mission requirements for the U.S. Air Force in a manner consistent with available resources.

The evaluation factors under consideration by the Commission are for a U.S. Air Force structure that—(a) meets current and anticipated requirements of the combatant commands; (b) achieves an appropriate balance between the regular and reserve components of the Air Force, taking advantage of the unique strengths and capabilities of each; (c) ensures that the regular and reserve components of the Air Force have the capacity needed to support current and anticipated homeland defense and disaster assistance missions in the United States; (d) provides for sufficient numbers of regular members of the Air Force to provide a base of trained personnel from which the personnel of the reserve components of the Air Force could be recruited; (e) maintains a peacetime

rotation force to support operational tempo goals of 1:2 for regular members of the Air Forces and 1:5 for members of the reserve components of the Air Force; and (f) maximizes and appropriately balances affordability, efficiency, effectiveness, capability, and readiness.
