

2005, for a 60-day comment period. The Supplement to the Draft CCP/EIS was prepared pursuant to the National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997, and the National Environmental Policy Act of 1969. Goals and objectives in the CCP describe how the agency intends to manage the refuge over the next 15 years.

Upon release of the Supplement, citizen groups and elected officials requested an extension of the comment period. They cited the importance of the plan to the citizens affected, the commitments of the holidays, and the need for the public to be able to incorporate in their comments what they hear and learn at nine public meetings scheduled for January 2006. Given the above, an extension of 30 days will help ensure full public review and comment.

Dated: January 4, 2006.

Charles M. Wooley,

Acting Regional Director, U.S. Fish and Wildlife Service, Fort Snelling, Minnesota.
