DEPARTMENT OF STATE

[Public Notice 4733]

International Joint Commission; Boundary Waters Treaty of 1909

By letters dated May 7, 2004, and May 11, 2004, respectively, the Canadian and United States federal governments asked the International Joint Commission (IJC) to review plans by the State of Vermont to modernize the Alburg-Swanton Bridge, involving the partial removal of the existing causeway, and to provide advice on whether this complies with the terms of the Boundary Waters Treaty of 1909 as concerns causing pollution to the injury of health or property in Canada. The Alburg-Swanton Bridge is wholly located in Vermont and crosses the waters connecting Missisquoi Bay with Lake Champlain.

The request from governments was made as a reference under Article IX of the Boundary Waters Treaty. While further discussions between the IJC and the governments may refine the issues to be examined, the governments asked that the IJC review include:

1. Whether the original causeway affects water levels/flows in Canada;
2. Whether the original causeway in the U.S. causes pollution to the injury of health or property in Canada;
3. Whether the removal of the original causeway in the U.S. might cause pollution to the injury of health or property in the United States; and
4. Whether the proposed project in the U.S. will cause pollution to the injury of health or property in Canada.

The governments have asked the IJC to complete its review by the end of summer. The IJC anticipates holding

public hearings on this matter at dates and locations to be announced in the local news media and on the IJC's Web site.

In addition to the public hearings, the IJC invites all interested parties to submit written comment over the course of this investigation to the addresses below: Secretary, Canadian Section, 234 Laurier Avenue West, 22nd Floor, Ottawa, Ontario K1P 6K6, Fax: (613) 993-5583, E-mail:

Commission@ottawa.ijc.org. Secretary, United States Section, 1250 23rd Street, NW., Suite 100, Washington, DC 20440, Fax: (202) 467-0746, E-mail:

Commission@washington.ijc.org.

The International Joint Commission is a binational Canada-U.S. organization established by the Boundary Waters Treaty of 1909. It assists the governments in managing waters along the border for the benefit of both countries in a variety of ways including examining issues referred to it by the two Federal governments.

More information, including the full text of the governments' letters of reference, may be found on the Commission's Web site, at <http://www.ijc.org>.

Dated: June 1, 2004.

1. *Title:* Voucher for Federal-aid Reimbursements.

OMB Control Number: 2125-0507 (Expiration Date: August 31, 2004).

Abstract: The Federal-aid Highway Program provides for the reimbursement to States for expenditure of State funds for eligible Federal-aid highway projects. The Voucher for Work Performed Under Provisions of the Federal Aid and Federal Highway Acts, As Amended (Form PR-20), is utilized by the States to provide project financial data regarding the expenditure of State funds and to request progress payments from the FHWA.

Respondents: 50 State Transportation Departments, the District of Columbia, Puerto Rico, Guam, American Samoa, and the Virgin Islands.

Estimated Total Annual Burden: The respondents electronically submit an estimated total of 12,300 vouchers each year. Each voucher requires an estimated average of 30 minutes to complete. The total annual burden for all respondents is estimated to be 6,150 hours.

For Further Information Contact: Ms. Bobette Meads, 202-366-2881, Department of Transportation, Federal Highway Administration, Office of Budget and Finance, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:30 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

2. *Title:* Develop and Submit Utility Accommodation Policies.

OMB Control Number: 2125-0514 (Expiration Date: August 31, 2004).

Abstract: State Departments of Transportation are required to develop

and submit to the FHWA a policy statement on the authority of utilities to use and occupy highway rights-of-way; the State's authority to regulate such use; and the policies and/or procedures employed for accommodating utilities within the rights-of-way of Federal-aid highway projects. Upon FHWA's approval of the policy statement, the State DOT may take any action required in accordance with the approved policy statement without a case-by-case review by the FHWA. In addition, the utility accommodation policy statements that have been approved previously by the FHWA are periodically reviewed by the State DOTs to determine if updating is necessary to reflect policy changes.

Respondents: 50 State Transportation Departments, the District of Columbia and Puerto Rico.

Frequency: Periodic updates for review as required at the States' discretion.

Estimated Total Annual Burden: The average burden for updating an existing policy is 280 hours per response. The total annual burden, based upon an estimated five States submitting updated policy statements per year, is 1,400 hours.

For Further Information Contact: Mr. Roger McClellan, 202-366-6765, Department of Transportation, Federal Highway Administration, Office of Program Administration, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:30 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

3. **Title:** Eligibility Statement for Utility Adjustments.

OMB Control Number: 2125-0515 (Expiration Date: August 31, 2004).

Abstract: State Departments of Transportation are required to submit to the FHWA a statement, which establishes the State DOT's legal authority or obligation to pay for utility adjustments. The FHWA has previously reviewed and approved these eligibility statements for each State DOT. The statements are used as a basis for Federal-aid reimbursement in utility relocation costs under the provisions of 23 U.S.C. 123. The updated statements may be submitted for review at the States' discretion where circumstances have modified (for example, a change in State statute) the extent to which utility adjustments are eligible for reimbursement by the State or those instances where a local State DOT's legal basis for payment of utility adjustments differs from that of the State.

Respondents: 50 State Transportation Departments, the District of Columbia and Puerto Rico.

Frequency: Periodic updates for review as required at the States' discretion.

Estimated Total Annual Burden: The average burden for preparing and submitting an updated eligibility statement is 18 hours per response. The total annual burden, based upon an estimated five updated eligibility statements per year, is 90 hours.

For Further Information Contact: Mr. Roger McClellan, 202-366-6765, Department of Transportation, Federal Highway Administration, Office of Program Administration, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:30 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

4. **Title:** Certificate of Enforcement of Heavy Vehicle Use Tax.

OMB Control Number: 2125-0541 (Expiration Date: August 31, 2004).

Abstract: Title 23, United States Code, Section 141(c), provides that a State's apportionment of funds under 23 U.S.C. 104(b)(5) shall be reduced in an amount up to 25 percent of the amount to be apportioned during any fiscal year beginning after September 30, 1984, if vehicles subject to the Federal heavy vehicle use tax are lawfully registered in the State without having presented proof of payment of the tax. The annual certification by the State Governor or designated official regarding the collection of the heavy vehicle use tax serves as the FHWA's primary means of determining State compliance. The FHWA has determined that an annual certification of compliance by each State is the least obtrusive means of administering the provisions of the legislative mandate. In addition, States are required to retain for one year Schedule 1, IRS Form 2290, Heavy Highway Vehicle Use Tax Return (or other suitable alternative provided by regulation). The FHWA periodically conducts compliance reviews to determine if the annual certification is adequate to ensure effective administration of 23 U.S.C. 141(c).

Respondents: 50 State Transportation Departments, and the District of Columbia.

Frequency: Annually.

Estimated Total Annual Burden: The average burden to submit the certification and to retain required records is 12 hours per respondent. The estimated total annual burden is 612 hours.

For Further Information Contact: Ms. Gloria Williams, 202-366-5032, Department of Transportation, Federal Highway Administration, Office of Highway Policy Information, 400

Seventh Street, SW., Washington, DC 20590. Office hours are from 7:30 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

Public Comments Invited: You are asked to comment on any aspect of these information collections, including: (1) Whether the proposed collections are necessary for the FHWA's performance; (2) the accuracy of estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that burdens could be minimized, including use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of these information collections.
