**SUPPLEMENTARY INFORMATION:**

**Description**

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC-515 "Declaration of Intention".
2. *Sponsor:* Federal Energy Regulatory Commission.
3. *Control No.:* 1902-0079.

The Commission is now requesting that OMB approve and reinstate with a three-year extension of the expiration date, with no changes to the existing collection. The information filed with the Commission is mandatory.

3. *Necessity of the Collection of Information:* Submission of this information is necessary to enable the Commission to carry out its responsibilities in implementing the statutory provisions of part I, Sections 23(b) of the Federal Power Act (FPA). Section 23(b) authorizes the Commission to make a determination as to whether it has jurisdiction over a proposed hydroelectric project. Section 23(b) also requires that any person intending to construct project works on navigable commerce clause waters must file a declaration of their intention to do so with the Commission. If the Commission finds the proposed project will have an impact on "interstate or foreign commerce", then the person(s) intending to construct the project must obtain a Commission license or exemption before construction. Such sites are generally on streams defined as U.S. navigation waters, and over which the Commission has jurisdiction under its authority to regulate foreign and interstate commerce. The information is collected in the form of a written application, declaring the applicant's intent and used by Commission staff to research the jurisdictional aspects of the project. A finding of non-jurisdictional by the Commission eliminates a substantial paperwork burden for the applicant who might otherwise have to file for a license or an exemption application.

The information filed with the Commission is a mandatory requirement. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 24.

5. *Respondent Description:* The respondent universe currently comprises 10 respondents (average) subject to the Commission's jurisdiction.

6. *Estimated Burden:* 800 total hours, 10 respondent (average per year), 1 response per respondent, and 80 hours per response (average).

7. *Estimated Cost Burden to respondents:* 800 hours/2080 hours per years  $\times$  \$108,588 per year = \$41,764.

**Statutory Authority:** Sections 23(b) of the Federal Power Act (16 U.S.C. 816).
