DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-3482-N-09]

Requirements for Notification, Evaluation and Reduction of Lead-Based Paint Hazards in Federally Owned Residential Property and Housing Receiving Federal Assistance; Notice of Transition Assistance

AGENCY: Office of the Secretary, HUD.
ACTION: Notice of transition assistance.

SUMMARY: This notice describes the transition assistance that will be provided in connection with implementation of HUD's new requirements for notification, evaluation and reduction of lead-based paint hazards in federally owned residential property and housing receiving federal assistance ("Lead Safe Housing Regulation"). The Lead Safe Housing Regulation was published in the **Federal Register** on September 15, 1999, and becomes effective on September 15, 2000. To make certain that adequate service providers exist throughout the country to carry out lead-based paint hazard evaluation and reduction activities safely and effectively, and to target available resources to housing which places children most at risk, HUD has developed a transition assistance policy with three components.

First, HUD is authorizing a six-month transition period for program participants in jurisdictions which notify the Department by November 15, 2000, that they lack the capacity to implement one or more provisions of the Lead Safe Housing Regulation. Second, post-1960 properties occupied by children under six receiving only

tenant-based rental assistance will be provided a twelve month transition period. Third, properties receiving federal rehabilitation assistance greater than \$25,000 that are occupied by the elderly, where no child under six resides or is expected to reside, will be provided a twelve month transition period. No submission by a jurisdiction is required in order for program participants to take advantage of the second and third transition assistance components. All three components are discussed in more detail in the **SUPPLEMENTARY INFORMATION** section of this notice.

FOR FURTHER INFORMATION CONTACT:

Lead Paint Compliance Assistance Center, Office of Healthy Homes and Lead Hazard Control, Department of Housing and Urban Development, 451 7th Street, SW, Room P-3206, Washington, DC 20410-0500, 1-866-HUD-1012 (1-866-483-1012) (this is a toll-free number). Persons with hearing or speech impairments may access this number via TTY by calling the toll-free Federal Information Relay Service at 1-800-877-8339.

SUPPLEMENTARY INFORMATION:

Background

Congress mandated the reduction of lead-based paint hazards in federally owned residential property and housing receiving federal assistance in the Residential Lead-Based Paint Hazard Reduction Act of 1992 (Title X of the Housing and Community Development Act of 1992) (Pub. L. 101-550; 106 Stat. 3897; 42 U.S.C. 4851 *et seq.*), which amended the Lead-Based Paint Poisoning Prevention Act (Pub. L. 91-695; 84 Stat. 2078; 42 U.S.C. 4801 *et seq.*). HUD published the Lead Safe Housing Regulation implementing Sections 1012 and 1013 of Title X in the **Federal Register** at 64 FR 50140 on September 15, 1999. This regulation becomes effective on September 15, 2000.

The Lead Safe Housing Regulation applies advances in the scientific understanding of childhood lead poisoning in the rehabilitation, treatment and maintenance of federally owned residential property and housing receiving federal assistance under a wide array of programs. The regulation also increases the quantity of testing, home maintenance, repair or rehabilitation work that must be performed in a lead-safe manner. In most areas of the country, the Department believes there is an adequate supply of trained contractors and licensed (certified) personnel to do the work required. However, in certain

areas, the market for the services required under the regulation may not yet have reached the point where the requisite expertise is reasonably available for all programs and all requirements of the regulation.

Recognizing that gaps in capacity may exist, the Department believes that to protect children from lead poisoning in federally owned residential property and housing receiving federal assistance, the Lead Safe Housing Regulation must become effective as scheduled on September 15, 2000. Under this notice, the Department is providing program participants with a short transition period during which the geographic areas lacking capacity to comply with the Lead Safe Housing Regulation can build that capacity and resources can be focused on the housing stock with the greatest need. During this transition period, program participants in jurisdictions qualifying for the transition assistance will not be expected to comply with the relevant requirements of the Lead Safe Housing Regulation for certain identified programs. Working in partnership with organizations of housing providers and childhood health advocates, HUD will provide funds for nationwide training of clearance technicians, maintenance workers, rehabilitation workers, program staff and others. HUD will also create a Lead Paint Compliance Assistance Center to respond to requests for training assistance from jurisdictions which have inadequate capacity. The Department will provide funds to defray the costs of testing for lead-based paint and lead-based paint hazards, including clearance testing and risk assessments in the housing choice voucher program, clearance testing for properties receiving federal rehabilitation assistance and inspections and risk assessments for HUD's project-based programs. HUD is issuing program specific administrative notices to all program participants describing the sources of funding available for lead-based paint inspections and other testing, and related training.

Transition Assistance

Component 1—Assistance for Jurisdictions With Inadequate Capacity

For program participants in a particular jurisdiction to qualify for transition assistance based on inadequate capacity to carry out specific requirements of the Lead Safety Regulation, the chief elected official of the jurisdiction, or a senior official designated to act on his or her behalf (such as the official who signs the Annual Consolidated Action Plan
