

717b(a). This Order affirms and amends Order No. 3643–A, previously issued to Alaska LNG on August 20, 2020, under NGA section 3(a). Order No. 3643–A authorized Alaska LNG to export LNG produced from Alaskan sources by vessel to any country with which the United States has not entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries). On April 15, 2021, DOE issued Order No. 3643–B, which granted rehearing of Order No. 3643–A for the purpose of conducting two Alaska-specific environmental studies. DOE issued Order No. 3643–C following its evaluation of the additional studies.

Under Order No. 3643–C, Alaska LNG is authorized to export LNG in a volume equivalent to 929 billion cubic feet (Bcf) per year of natural gas (2.55 Bcf/day) to non-FTA countries from the proposed Alaska LNG Project (Project) to be located in the Nikiski area of the Kenai Peninsula, Alaska. The Order reaffirms and maintains all obligations, rights, responsibilities, and deadlines established in Order No. 3643–A. In addition, it requires Alaska LNG to certify monthly to DOE that, except under strictly limited circumstances, the natural gas produced for export in the form of LNG in the prior month did not result in the venting of byproduct carbon dioxide into the atmosphere.

DOE conducted the additional environmental studies in the rehearing process through preparation of a Supplemental Environmental Impact Statement (SEIS). DOE had participated as a cooperating agency with the Federal Energy Regulatory Commission in preparing an environmental impact statement (EIS) analyzing the potential environmental impacts of the proposed Project (including an LNG export terminal, along with the associated facilities and pipeline) that would be used to support the export authorization Alaska LNG sought from DOE. DOE adopted the EIS and prepared a ROD, which is attached as an appendix to Order No. 3643–A. The Amended ROD is based on the SEIS and is attached as an appendix to Order No. 3643–C. The Amended ROD can be found here: www.energy.gov/sites/default/files/2023-04/ord3643-C.pdf.

Signed in Washington, DC, on April 26, 2023.

Amy Sweeney,

Director, Office of Regulation, Analysis, and Engagement, Office of Resource Sustainability.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Environmental Management Site-Specific Advisory Board, Paducah

AGENCY: Office of Environmental Management, Department of Energy.

ACTION: Notice of open meeting; correction.

SUMMARY: On April 24, 2023, the Department of Energy published a notice of open meeting announcing a meeting on May 18, 2023, of the Environmental Management Site-Specific Advisory Board, Paducah, in the April 24, 2023 **Federal Register**. This document makes a correction to that notice.

FOR FURTHER INFORMATION CONTACT: Eric Roberts, Board Support Manager, by Phone: (270) 554–3004 or Email: eric@pgdpcb.org.

Corrections

In the **Federal Register** of April 24, 2023, in FR Doc. 2023–08520, on page 24785, please make the following corrections:

In that notice under **DATES**, third column, second paragraph, the meeting date has been changed. The original date was May 18, 2023. The new date is May 25, 2023.

In that notice under **ADDRESSES**, third column, third paragraph, the meeting room has been changed. The original address and meeting room was West Kentucky Community and Technical College, Emerging Technology Center, Room 109, 5100 Alben Barkley Drive, Paducah, Kentucky 42001. The new meeting room is Room 216.

The reason for the corrections is a scheduling conflict with the original meeting date.

Signed in Washington, DC, on April 26, 2023.

LaTanya Butler,

Deputy Committee Management Officer.

DEPARTMENT OF ENERGY

[Docket No. 13–132–LNG]

Magnolia LNG LLC; Order Amending Long-Term Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations

AGENCY: Office of Fossil Energy and Carbon Management, Department of Energy.

ACTION: Amended record of decision.

SUMMARY: The Office of Fossil Energy and Carbon Management (FECM) of the

Department of Energy (DOE) gives notice of an Amended Record of Decision (ROD) published under the National Environmental Policy Act of 1969 (NEPA) and implementing regulations. This Amended ROD is an Appendix to DOE/FECM Order No. 3909–C, an order that amends the previously-issued DOE/FE Order No. 3909, an opinion and order authorizing Magnolia LNG LLC to export domestically-produced liquefied natural gas (LNG) to non-free trade agreement countries under section 3(a) of the Natural Gas Act (NGA).

FOR FURTHER INFORMATION CONTACT:

Brian Lavoie, U.S. Department of Energy (FE–34), Office of Regulation, Analysis, and Engagement, Office of Resource Sustainability, Office of Fossil Energy and Carbon Management, Forrestal Building, Room 3E–042, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586–2459, brian.lavoie@hq.doe.gov.

Cassandra Bernstein, U.S. Department of Energy (GC–76), Office of the Assistant General Counsel for Energy Delivery and Resilience, Forrestal Building, Room 6D–033, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586–9793, cassandra.bernstein@hq.doe.gov.

SUPPLEMENTARY INFORMATION: On April 27, 2022, DOE issued Order No. 3909–C to Magnolia LNG LLC (Magnolia LNG) under NGA section 3(a), 15 U.S.C. 717b(a). This Order further amends Order No. 3909, previously issued to Magnolia LNG on November 30, 2016, under NGA section 3(a). Order No. 3909, as amended, authorized Magnolia LNG to export domestically-produced LNG by vessel to any country with which the United States has not entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries).

Order No. 3909–C authorizes an increase in the volume of exports previously authorized in the amended Order No. 3909. Under Order No. 3909–C, Magnolia LNG is authorized to export LNG in a volume equivalent to 449 billion cubic feet (Bcf) per year of natural gas (approximately 1.23 Bcf per day) to non-FTA countries from the proposed Magnolia LNG Terminal, to be located near Lake Charles, Calcasieu Parish, Louisiana.

DOE participated as a cooperating agency with the Federal Energy Regulatory Commission (FERC) in preparing a supplemental
