

Estimated Number of Respondents: 2,835.

Frequency of Response: Initial and on occasion.

Estimated Total Annual Hour Burden: 10,303 hours.

Estimated Total Annual Labor Cost: \$588,507.

Changes in the Estimates: There is an increase of 3,413 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. SUPPLEMENTARY INFORMATION: *Title:* Voluntary Customer Satisfaction Surveys, OMB Control No. 2090-0019, EPA ICR Number 1711.04 expiring March 31, 2003. This is a request for extension of a currently approved collection.

Abstract: EPA uses voluntary surveys to learn how satisfied EPA customers are with our services, and how we can improve services, products and processes. EPA surveys individuals who use services or could have. During the next three years, EPA plans up to 185 surveys, and will use results to target/measure service delivery improvements. By seeking renewal of the generic clearance for customer surveys, EPA will have the flexibility to gather the views of our customers to better determine the extent to which our services, products and processes satisfy their needs or need to be improved. The generic clearance will speed the review and approval of customer surveys that solicit opinions from EPA customers on a voluntary basis, and do not involve "fact-finding" for the purposes of regulatory development or enforcement.

SUPPLEMENTARY INFORMATION: Title: Emergency Planning and Release Notification Requirements under Emergency Planning and Community Right-to-Know Act Sections 302, 303, and 304, OMB Control Number 2050-0092, EPA ICR Number 1395.05, expiring January 31, 2003. This is a request for extension of a currently approved collection.

Abstract: EPCRA established broad emergency planning and facility reporting requirements. Section 302 (40 CFR 355.30) requires facilities where an extremely hazardous substances (EHS) is present in an amount at or in excess of the threshold planning quantity (TPQ) to notify the State Emergency Response Commission (SERC) by May 17, 1987. This activity has been completed; the section 302 costs and burden hours for this ICR, therefore, reflect only the estimate of cost and burden incurred by newly regulated facilities during years 2000 to 2002. Section 303 (40 CFR 355.300) requires local emergency planning committees (LEPCs) to prepare local emergency plans. Facilities subject to section 302 are required to provide information for the development and implementation of these local emergency plans. Section 304 (40 CFR 355.40) requires facilities to report to SERCs and LEPCs releases of EHSs and hazardous substances in excess of reportable quantities established by EPA. In addition, these facilities must provide written follow-up information on the release, its impacts, and any actions taken in

response to the release. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on August 12, 2002 (67 FR 52481); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average for emergency planning under 40 CFR 355.30 is 16.15 hours for new and newly regulated facilities and 1.50 hours for existing facilities. For a limited number of existing facilities, there may be a burden to inform the LEPC of any changes at a facility that may affect emergency planning (1.50 hours). The average reporting burden for facilities reporting releases under 40 CFR 355.40 is estimated to average approximately 5 hours per release, including the time for determining if the release is a reportable quantity, notifying the LEPC and SERC, or the 911 operator, and developing and submitting a written follow-up notice. There are no recordkeeping requirements for facilities under EPCRA sections 302-304.

The average burden for emergency planning activities under 40 CFR 300.215 is 21 hours per plan for LEPCs, 16 hours per plan for SERCs. Each SERC and LEPC is also estimated to incur an annual recordkeeping burden of 10 hours.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Facilities where extremely hazardous substances are present, LEPCs and SERCs.

Estimated Number of Respondents: 82,260.

Frequency of Response: Section 302 respondents will comply with requirements once unless new information becomes available. Section 303 respondents will comply with requirements as requested by LEPCs; LEPCs may have to update their local emergency response plans as new facilities or other information such as new chemicals present at or above a TPQ. Section 304 respondents will comply when there is a release of an EHS above the RQ.

Estimated Total Annual Hour Burden: 212,460 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$15,160.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1395.05 and OMB Control No. 2050-0092 in any correspondence.
