Approval of the Clean Air Act Section 112(l) Delegation of National Emission Standards for Hazardous Air Pollutants for Secondary Lead Smelting; Indiana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This document announces that EPA has approved a request from the Indiana Department of Environmental Management (IDEM) for delegation of authority to implement and enforce National Emission Standards for Hazardous Air Pollutants (NESHAP) for Secondary Lead Smelting, through a state rule which adjusts the maximum achievable control technology (MACT) standard for secondary lead smelting. Pursuant to the Clean Air Act (CAA) and the NESHAP provisions, states may seek approval of state rules which make pre-approved adjustments to a MACT standard if the state rule is unambiguously no less stringent than the Federal rule. IDEM requested approval to adjust the NESHAP for secondary lead smelting, so that the standard will be as stringent as the State rule which currently applies to secondary lead smelters in Indiana. EPA reviewed this request and found that it

satisfies the requirements for approval under the Federal provision which allows for delegation of an adjusted NESHAP; "Approval of State requirements that adjust a section 112 rule." Therefore, upon the signature of this action, EPA delegates to IDEM the authority to implement and enforce the NESHAP for Secondary Lead Smelting, through IDEM's rule for Secondary Lead Smelters.
