

bighorn in New Mexico in 1991 with an update in 1994. This evaluation also identified the Devil's Backbone area in the southern portion of the Magdalena Mountains in Socorro County as historic and suitable habitat for the reintroduction of desert bighorn sheep. This area is approximately 38 miles south of the reintroduction site in the Ladron Mountain ACEC. Bighorn sheep movements have been confirmed to within 8 miles of the Devil's Backbone area from the Ladron herd. The connecting corridor between the two primary habitat sites is composed of the Polvadera Mountains, Socorro Mountain, and Chupadera Mountains.

Requests for public comment on probable impacts to bighorn sheep and their habitat from oil and gas leasing activities were sent to approximately 260 public entities composed primarily of industry constituents. Responses were received from the state wildlife agency and interested members of the public identifying potential negative impacts to bighorn sheep and their habitat from these activities. The New Mexico Bureau of Mines commented that the potential for oil and gas resources in the proposed action area was very low. A comment pertaining to the cultural importance and concern for conservation of bighorn sheep was received from the Navajo Nation. No comments were received from the oil and gas industries.

Any comments of substance received during the 90-day comment period will be incorporated into the environmental analysis. The resultant analysis of oil and gas leasing and associated activities such as geophysical exploration has determined that these activities can have detrimental impacts to the habitat for desert bighorn sheep. The protection of these areas has become even more critical with the recent listing as federally endangered of small isolated populations of bighorn sheep on public lands in California. The New Mexico statewide population of free ranging desert bighorn sheep is estimated to only number 220 animals at this time.

The vulnerability of small fragmented populations of desert bighorn sheep was recently demonstrated by the listing as federally endangered of the peninsular population in southern California in March 1998 by the United States Fish and Wildlife Service. This population at the time of listing was estimated to number 280 individuals. In order to preclude the potential future listing of the New Mexico population as much as possible, the SFO is pro-actively managing identified habitat areas within its jurisdiction to provide maximum protection and enhancement of those

habitats. The Ladron Mountain/Devil's Backbone complex has the potential to support a long term viable population of more than 100 individuals if habitat suitability is maintained. Protection and enhancement of this habitat can also assist in the potential state delisting of this species.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[NV-930-1430-ET; N-66363]

Notice of Proposed Withdrawal and Opportunity for Public Meeting; Nevada

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This notice temporarily segregates 160,529.76 acres of Federal lands and 15,813.12 acres of federally reserved minerals, while various studies and analyses are made to support a final decision to withdraw the land for protection of resources for a 20-year period. This notice closes the Federal lands to surface entry, except for conveyance under section 206 of Federal Land Policy and Management Act of 1976 or the Recreation and Public Purposes Act of 1926, and mining, but not to mineral leasing for up to 1 year. This notice closes the federally owned minerals to mining, but not to mineral leasing for up to 1 year. In addition, any non-Federal lands acquired through exchange, donation or purchase within the boundaries of the described plan area would be closed to surface entry and mining during the 1-year period. This segregation does not affect valid existing rights.

The Carson City Field Office of the Bureau of Land Management proposes to amend the Lahontan Resource Management Plan to address future management of these same lands. The resource management plan amendment process will serve as the basis for decisions on resource protection and development and the need for a withdrawal. The Bureau of Land Management and Washoe County are cooperating in the preparation of this resource management plan amendment.

DATES: Comments should be received on or before October 10, 2000.

ADDRESSES: Comments should be sent to the Nevada State Director, BLM, P.O. Box 12000, Reno, Nevada 89520 or the Manager, Carson City Field Office, 5665 Morgan Mill Road, Carson City, Nevada 89701.

FOR FURTHER INFORMATION CONTACT: Dennis J. Samuelson, BLM Nevada State Office, 775-785-6532 or Jo Ann Hufnagle, BLM Carson City Office, 775-885-6000.

SUPPLEMENTARY INFORMATION: On July 6, 2000, a petition was approved allowing the Bureau of Land Management to file an application to withdraw the following described Federal lands and non-Federal lands from surface and mineral entry:

T. 21 N., R. 23 E., sec. 31.

The purpose of the withdrawal is to
 protect resource values in the open and
 mountainous terrain in the southern
 Washoe County urban, suburban and
 rural residential area. Washoe County
 has recently developed an Open Space
 System that identifies a large acreage of
 public lands as having open space
 values. Much of this acreage is
 identified in BLM's resource
 management plan for disposal for
 community expansion. The joint land
 use plan amendment will address future
 management of these lands and the need
 for a protective withdrawal.

The withdrawal application will be
 processed in accordance with the
 regulations set forth in 43 CFR Part
 2300. Notice is hereby given that a

public meeting in connection with the
 proposed withdrawal will be held at a
 later date. A notice of the time and place
 will be published in the **Federal
 Register** 30 days before the scheduled
 date of the meeting.

For a period of 90 days from the date
 of publication of this notice, all persons
 who wish to submit comments,
 suggestions, or objections in connection
 with the proposed withdrawal may
 present their views in writing to either
 the State Director or Manager, Carson
 City Field Office.

For a period of 1 year from the date
 of publication of this notice in the
Federal Register, the lands will be
 segregated as specified above unless the
 application is denied or cancelled or the
 withdrawal is approved prior to that
 date. Rights-of-way, leases, permits and
 other discretionary temporary land uses
 will be considered by the authorized
 officer during this segregative period.

Dated: July 6, 2000.

Margaret L. Jensen,

*Deputy State Director, Natural Resources,
 Lands, and Planning.*
