

The average annual generation is estimated to be 319,000 megawatt-hours. All generated power would be sold to a local utility connected to the grid.

n. With this notice, we are initiating consultation with the *ILLINOIS HISTORIC PRESERVATION OFFICER (SHPO)*, as required by § 106, National Historic Preservation Act, and the regulations of the Advisory Council on Historic Preservation, 36 CFR 800.4.

o. A copy of the application is on file with the Commission and is available for public inspection. This filing may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link—select "Docket #" and follow the instructions (call 202-208-2222 for assistance). A copy is also available for inspection and reproduction at the address in item h above.

p. Pursuant to Section 4.32(b)(7) of 18 CFR of the Commission's regulations, if any resource agency, Indian Tribe, or person believes that an additional scientific study should be conducted in order to form an adequate factual basis for a complete analysis of the application on its merit, the resource agency, Indian Tribe, or person must file a request for a study with the Commission not later July 30, 2002, and serve a copy of the request on the applicant.

q. *Procedural schedule*: The application will be processed according to the following milestones, some of which may be combined to expedite processing.

Notice of application has been accepted for filing

Notice of NEPA Scoping (unless scoping has already occurred)

Notice of application is ready for environmental analysis

Notice of the availability of the draft NEPA document

Notice of the availability of the final NEPA document

Order issuing the Commission's decision on the application

Linwood A. Watson, Jr.,

Deputy Secretary.

[Project Nos. 2699-001, 2019-017 and 11563-002-California]

Utica Power Authority, Northern California Power Agency; Notice of Intention to Hold a Public Meeting for Discussion of the Environmental Assessment for the Upper Utica, Utica, and Angels Projects

June 26, 2002.

On May 29, 2002, the Commission staff mailed an Environmental Assessment (EA) for the Upper Utica, Utica, and Angels Projects to resource and land management agencies, and interested organization and individuals.

The EA was noticed in the **Federal Register** on June 4, 2002 (Vol. 67, Number 107), and comments are due July 29, 2002. The EA was prepared by Commission staff, with the U.S. Forest Service as a cooperating agency. The Upper Utica, Utica, and Angels Projects are located on the North Fork Stanislaus River, Silver Creek, Mill Creek, and Angels Creek in Alpine, Calaveras, and Tuolumne Counties, California, partially within the Stanislaus National Forest. The EA contains our analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A public meeting, which will be recorded by an official stenographer, is scheduled on Tuesday, July 9, from 7:30 p.m. to 9 p.m. at Bret Harte High School, 354 Murphys Grade Road, Angels Camp, California. At this meeting, resource agency personnel and other interested persons will have the opportunity to provide oral and written comments regarding the EA for the Commission's public record.

For further information, please contact Timothy Welch at (202) 219-2666, timothy.welch@ferc.gov, Federal Energy Regulatory Commission, Office of Energy Projects, 888 First St. NE., Washington, DC 20426.

Linwood A. Watson, Jr.,
