[Docket No. 70-1113]

**Notice of License Renewal Request for
Global Nuclear Fuel—Americas, LLC,

Opportunity To Request a Hearing**

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of license renewal application, and opportunity to request a hearing.

DATES: A request for a hearing must be filed by August 17, 2007.

Merritt Baker, Project Manager, Fuel Facility Licensing Directorate, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Telephone: (301) 415-6155; fax number: (301) 415-5955; e-mail: mnb@nrc.gov.

SUPPLEMENTARY INFORMATION:**I. Introduction**

The U. S. Nuclear Regulatory Commission (NRC) has received, by letter dated April 2, 2007, a license renewal application from Global Nuclear Fuel—Americas, LLC (GNF—A), requesting renewal of License No. SNM-1097 for its fuel fabrication facility located in Wilmington, North Carolina. License No. SNM-1097 authorizes the licensee to possess and use special nuclear material for the manufacture of fuel for nuclear power plants.

The Wilmington facility has been licensed by the Atomic Energy Commission and its successor, the NRC, to manufacture low-enriched uranium fuel for nuclear power plants. The license was renewed in 1997 for a period of 10 years, expiring on June 30, 2007. By application dated April 2, 2007, GNF—A requested renewal of their license for a period of 40 years. The application addresses various topics, including ones related to emergency planning and physical security. The NRC will review the license renewal application for compliance with applicable safety requirements set forth in NRC regulations in Title 10 of the Code of Federal Regulations (10 CFR), which implement the Atomic Energy Act of 1954, as amended. The license renewal application included an Environmental Report, which the NRC will review in its evaluation of environmental issues, as required by 10 CFR Part 51, Environmental Protection Regulations

for Domestic Licensing and Related Regulatory Functions, and the National Environmental Policy Act.

An NRC administrative review, documented in a letter to GNF-A dated May 14, 2007 (ML071170603), found the application acceptable to begin the NRC's more detailed technical review. Because GNF-A filed the application for renewal not less than thirty (30) days before the expiration of the date stated in the existing license, the existing license will not expire until the Commission makes a final determination on the renewal application, in accordance with the timely renewal provision of 10 CFR 70.38(a)(1). If the NRC approves the renewal application, the approval will be documented in NRC License No. SNM-1097. However, as indicated above, before approving the proposed renewal, the NRC will make the findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. The safety findings will be documented in a Safety Evaluation Report.

II. Opportunity To Request a Hearing

The NRC hereby provides notice that this is a proceeding on an application for a license renewal. In accordance with the general requirements in Subpart C of 10 CFR Part 2, as amended on January 14, 2004 (69 FR 2182), any person whose interest may be affected by this proceeding and who desires to participate as a party, must file a written request for a hearing and a specification of the contentions which the person seeks to have litigated in the hearing.

In accordance with 10 CFR 2.302 (a), a request for a hearing must be filed with the Commission either by:

1. First class mail addressed to: Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, Attention: Rulemakings and Adjudications Staff;

2. Courier, express mail, and expedited delivery services: Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, Attention: Rulemakings and Adjudications Staff, between 7:45 a.m. and 4:15 p.m., Federal workdays;
