**SUPPLEMENTARY INFORMATION:** The information collected under the requirements of FERC-603 "Critical Energy Infrastructure Information" (OMB No. 1902-0197) is used by the Commission to implement procedures for gaining access to critical energy infrastructure information (CEII) that would not otherwise be available under the Freedom of Information Act (5 U.S.C. 552). On February, 21, 2003, the Commission issued Order No. 630 (66 FR 52917) to address the appropriate treatment of CEII in the aftermath of the September 11, 2001, terrorist attacks and to restrict unrestrained general access due to the ongoing terrorism threat. These steps enable the Commission to keep sensitive infrastructure information out of the public domain, decreasing the likelihood that such information could be used to plan or execute terrorist attacks. The process adopted in Order No. 630 is a more efficient alternative for handling requests for previously public documents than FOIA. The Commission has defined CEII to include information about "existing or proposed critical infrastructure that (i) relates to the production, generation, transportation, transmission, or distribution of energy; (ii) could be useful to a person planning an attack on critical infrastructure; (iii) is exempt from mandatory disclosure under the Freedom of Information Act; and (iv) does not simply give the location of the critical infrastructure. Critical infrastructure means existing and
