Alternative 4A—Destination Focus: Park features and attractions are the focus of this Alternative with the trail system serving as the main visitor access to these features. Expansion of the primitive hiking experience occurs to the greatest extent in Alternative 4A.

Alternative 4B—Destination Focus with Mountain Bike Trails: Alternative 4B is the same as Alternative 4B with the addition of new mountain bike trails. The mountain bike trail system consists of a long point-to-point trail with shorter loop trails to provide a variety of lengths and experiences to the mountain bike user.

Alternative 5—Re-Use, Recreation & Destination: Preferred Alternative. Alternative 5 combines trail elements from all of the Alternatives and proposed trail facilities that will best fit the park. Alternative 5 proposes the following trail elements: (1) Implementing 45 additional miles of trail, including a new 10-mile mountain bike trail; (2) incorporating actions common to all action alternatives including restoration of trails, Sustainable Trail Guidelines, and expansion and improvement of trail facilities; (3) improvement of 10 existing parking areas and the introduction of 4 new parking areas; and (4) establishment of expanded community partnerships to establish 30+ miles of bike lanes on public roads within CVNP.
