EXPORT-IMPORT BANK OF THE UNITED STATES

[Public Notice 2013-3002]

Agency Information Collection Activities: Comment Request

AGENCY: Export-Import Bank of the United States.

ACTION: Submission for OMB review and comments request.

Form Title: EIB 10-04 Notice of Claim and Proof of Loss, Working Capital Guarantee.

SUMMARY: The Export-Import Bank of the United States (Ex-Im Bank), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal Agencies to comment on the proposed information collection, as required by the Paperwork Reduction Act of 1995.

By neutralizing the effect of export credit support offered by foreign governments and by absorbing credit risks that the private sector will not accept, Ex-Im Bank enables U.S. exporters to compete fairly in foreign markets on the basis of price and product. Under the Working Capital Guarantee Program, Ex-Im Bank provides repayment guarantees to lenders on secured, short-term working capital loans made to qualified exporters. The guarantee may be approved for a single loan or a revolving line of credit. In the event that a borrower defaults on a transaction guaranteed by Ex-Im Bank the guaranteed lender may seek payment by the submission of a claim.

This collection of information is necessary, pursuant to 12 USC Sec. 635 (a) (1), to determine eligibility of the export sales for insurance coverage. The Report of Premiums Payable for Financial Institutions Only is used to determine the eligibility of the shipment(s) and to calculate the premium due to Ex-Im Bank for its support of the shipment(s) under its insurance program. Export-Import Bank customers will be able to submit this form on paper or electronically.

The Export-Import Bank has made a change to the report to have the insured financial institution provide the industry code (NAICS) associated with each specific export. The insured financial institution already provides a short description of the goods and/or services being exported. This additional piece of information will allow Ex-Im Bank to better track what exports it is covering with its insurance policy.

The Commission has established rules
for the marketing of radio frequency
(RF) devices prior to equipment
authorization under guidelines in 47
CFR 2.803. The general guidelines in
§ 2.803 prohibit the marketing or sale of
such equipment prior to a
demonstration of compliance with the
applicable equipment authorization and
technical requirements in the case of a
device subject to verification or
Declaration of Conformity without
special notification. Section 2.803(c)(2)
permits limited marketing activities
prior to equipment authorization, for
devices that could be authorized under
the current rules; could be authorized
under waivers of such rules that are in
effect at the time of marketing; or could

been adopted by the Commission but

These devices may be not operated
unless permitted by § 2.805.

The following general guidelines
apply for third party notifications:

(a) A RF device may be advertised and
displayed at a trade show or exhibition
prior to a demonstration of compliance
with the applicable technical standards
and compliance with the applicable
equipment authorization procedure
provided the advertising and display is
accompanied by a conspicuous notice
specified in §§ 2.803(c)(2)(iii)(A) or
2.803(c)(2)(iii)(B).

(b) An offer for sale solely to business,
commercial, industrial, scientific, or
medical users of an RF device in the
conceptual, developmental, design or
pre-production stage prior to
demonstration of compliance with the
equipment authorization regulations
may be permitted provided that the
prospective buyer is advised in writing
at the time of the offer for sale that the
equipment is subject to FCC rules and
that the equipment will comply with the
appropriate rules before delivery to the
buyer or centers of distribution.

(c) Equipment sold as evaluation kit
may be sold to specific users with notice
specified in § 2.803(c)(2)(iv)(B).

The information to be disclosed about
marketing of the RF device is intended:

(1) To ensure the compliance of the
proposed equipment with Commission
rules; and
