Medicare Program; Prospective Payment System and Consolidated Billing for Skilled Nursing Facilities; Corrections

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Final rule; correction notice.

SUMMARY: This document corrects technical errors that appeared in the August 3, 2007 **Federal Register**, entitled “Medicare Program; Prospective Payment System and Consolidated Billing for Skilled Nursing Facilities for FY 2008; Final Rule.”

DATES: *Effective Date:* This correction is effective October 1, 2007.

FOR FURTHER INFORMATION CONTACT: Bill Ullman, (410) 786-5667.

SUPPLEMENTARY INFORMATION:

I. Background

FR Doc. 07-3784 of August 3, 2007 (72 FR 43412) contained technical errors that this notice serves to identify and correct. The first involves the construction of the 2004 skilled nursing facility (SNF) market basket update. In the SNF prospective payment system (PPS) proposed rule for fiscal year (FY) 2008 (72 FR 25552, May 4, 2007), we proposed to discontinue the previous, 1997-based market basket's use of the Producer Price Index (PPI) for Industrial Chemicals, in favor of using a blended PPI composed of the PPIs for soap and other detergent manufacturing (North American Industrial Classification System (NAICS) 325611), polish and other sanitation good manufacturing (NAICS 325612), and all other miscellaneous chemical product and preparation manufacturing (NAICS 325998) in the 2004-based market basket, which we believed would better reflect SNF purchasing patterns. In the FY 2008 SNF PPS final rule, we finalized this proposal “* * * to revise the market basket to reflect more appropriate, industry-specific price proxies (such as the blended

compensation and chemical price proxies)” (72 FR 43426, 43436).

However, in performing the actual calculations in the final rule, we inadvertently proxied the chemicals cost weight by the PPI for Industrial Chemicals rather than by the appropriate blended chemical price proxy. We note that this error did not affect the final market basket update factor of 3.3 percent, but did affect the labor-related share. The corrected labor-related share is 70.249, which is slightly higher than the 70.152 figure published in the FY 2008 SNF PPS final rule. Accordingly, in this notice, we are republishing corrected versions of Tables 6, 7, 10, 13, and 14 (as well as revising the corresponding portions of the final rule's preamble text) in order to reflect the final, corrected labor-related share.

In addition, we have determined that in the process of developing the most recent hospital wage index, two inpatient hospital providers with wage data that belonged in the Hartford–West Hartford–East Hartford, CT core-based statistical area (CBSA) were inadvertently included in rural Connecticut instead. Accordingly, in Table 8, we are revising the wage index value for CBSA Code 25540 (Hartford–West Hartford–East Hartford, CT) from 1.0937 to the corrected value of 1.0930. Similarly, in Table 9, we are revising the wage index value for CBSA Code 7 (rural Connecticut) from 1.1283 to the corrected value of 1.1711. As we are revising only a single entry in each of these two tables, we are not republishing Tables 8 and 9 in their entirety in this notice; however, we note that the corrected versions of both tables are available online on the SNF PPS Web site, at http://www.cms.hhs.gov/SNFPPS/04_WageIndex.asp. Moreover, we note that the corrected version of Table 14 that we are republishing in this notice also reflects these corrected values. We are also correcting a typographical error in the final rule's version of that table, which had inadvertently displayed the wage data update for rural New England incorrectly as a negative value.

II. Correction of Errors

In FR Doc. 07-3784 (72 FR 43412), make the following corrections:

III. Waiver of Proposed Rulemaking and Delayed Effective Date

We ordinarily publish a notice of proposed rulemaking in the **Federal Register** to provide a period for public comment before the provisions of a notice such as this take effect in accordance with section 553(b) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). We also ordinarily provide a 30-day delay in the effective date of the provisions of a notice in accordance with section 553(d) of the APA (5 U.S.C. 553(d)). However, we can waive both the notice and comment procedure and the 30-day delay in effective date if the Secretary finds, for good cause, that a notice and comment process is impracticable, unnecessary or contrary to the public interest, and incorporates a statement of the finding and the reasons therefore in the notice.

We find for good cause that it is unnecessary to undertake notice and comment rulemaking because this notice merely provides technical corrections to the regulations. We are not making substantive changes to our payment methodologies or policies, but rather, are simply implementing correctly the payment methodologies and policies that we previously proposed, received comment on, and subsequently finalized. The public has already had the opportunity to comment on these payment methodologies and policies, and this correction notice is intended solely to ensure that the FY 2008 SNF PPS final rule accurately reflects them. Therefore, we believe that undertaking further notice and comment procedures to incorporate these corrections into the update notice is

unnecessary and contrary to the public interest.

Further, we believe a delayed effective date is unnecessary because this correction notice merely corrects inadvertent technical errors. The changes noted above do not make any substantive changes to the SNF PPS payment methodologies or policies. Moreover, we regard imposing a delay in the effective date as being contrary to the public interest. We believe that it is in the public interest for providers to receive appropriate SNF PPS payments in as timely a manner as possible and to ensure that the FY 2008 SNF PPS final rule accurately reflects our payment methodologies, payment rates, and policies. Therefore, we find good cause to waive notice and comment procedures, as well as the 30-day delay in effective date.
